

YNAPS-NGF132

# NGF132 Contact Stickers User Manual

Model: YNAPS-NGF132

## 1. INTRODUCTION

The NGF132 Contact Stickers provide a secure and efficient way for people to contact you regarding your parked vehicle without directly revealing your personal phone number. This system is ideal for situations such as wrong parking, emergencies, or any other immediate concerns related to your car or bike. By scanning the unique QR code on the sticker, individuals can initiate contact through a privacy-protected platform, ensuring your personal information remains confidential.

The NGF132 Contact Sticker, designed for easy scanning to facilitate communication with vehicle owners.

## 2. SETUP GUIDE

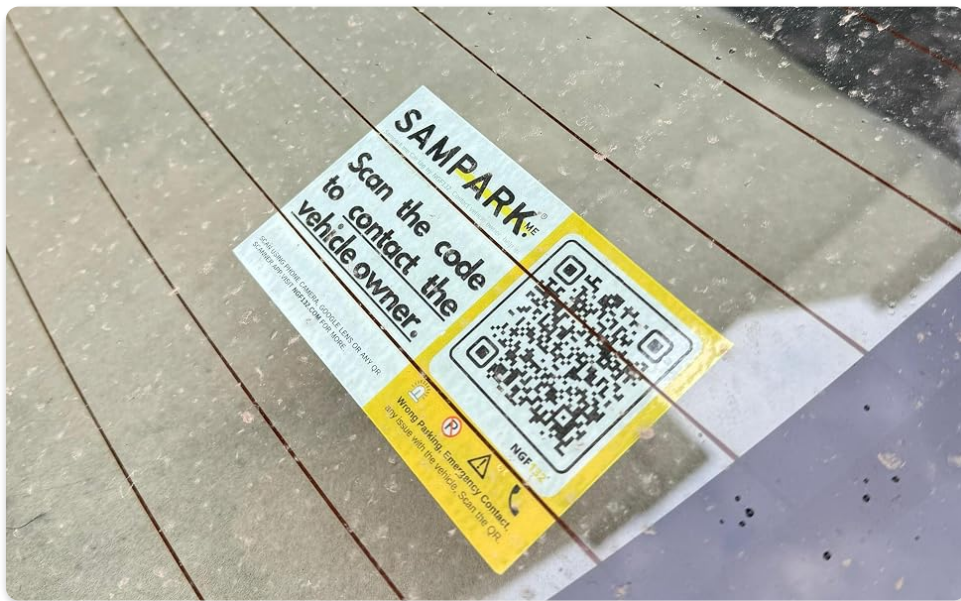

### 2.1 What's in the Box

- 2 x NGF132 Contact Stickers

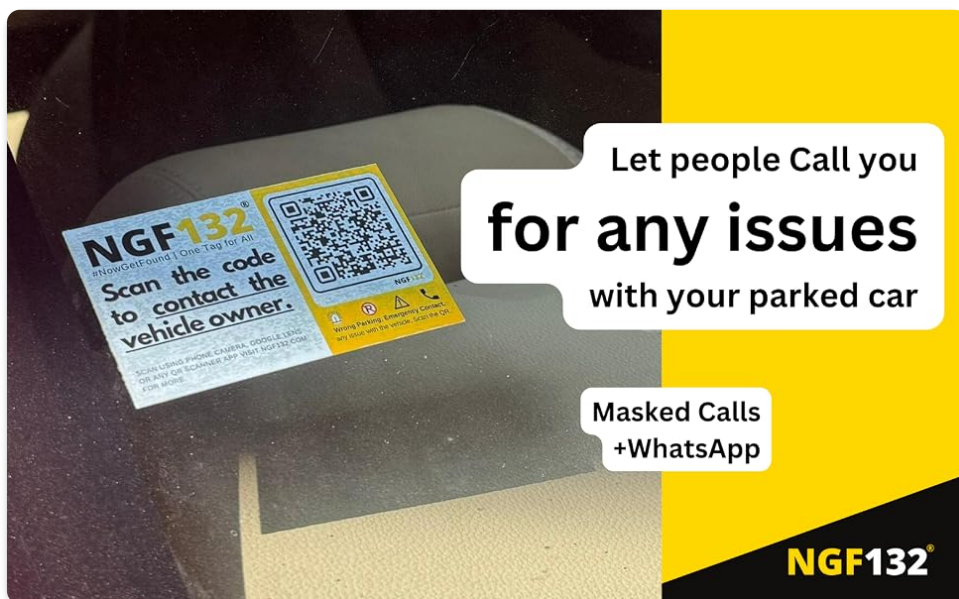

## 2.2 Activation and Application

Follow these steps to activate and apply your NGF132 Contact Stickers:

1. **Clean the Surface:** Ensure the application surface on your car or bike (e.g., rear windshield, dashboard) is clean, dry, and free of dust or grease.
2. **Peel and Stick:** Carefully peel the backing from the NGF132 sticker and firmly apply it to the chosen surface. Press down evenly to ensure good adhesion.
3. **Scan for Activation:** Use your smartphone's camera or any QR scanner app to scan the QR code on the newly applied sticker. This will direct you to the NGF132 activation portal.
4. **Register Your Vehicle:** Follow the on-screen instructions to register your vehicle details and link the sticker to your contact preferences. This typically involves setting up your profile and preferred notification methods (e.g., WhatsApp, SMS, app notifications).

Proper placement of the NGF132 sticker on a vehicle's rear window for optimal visibility.

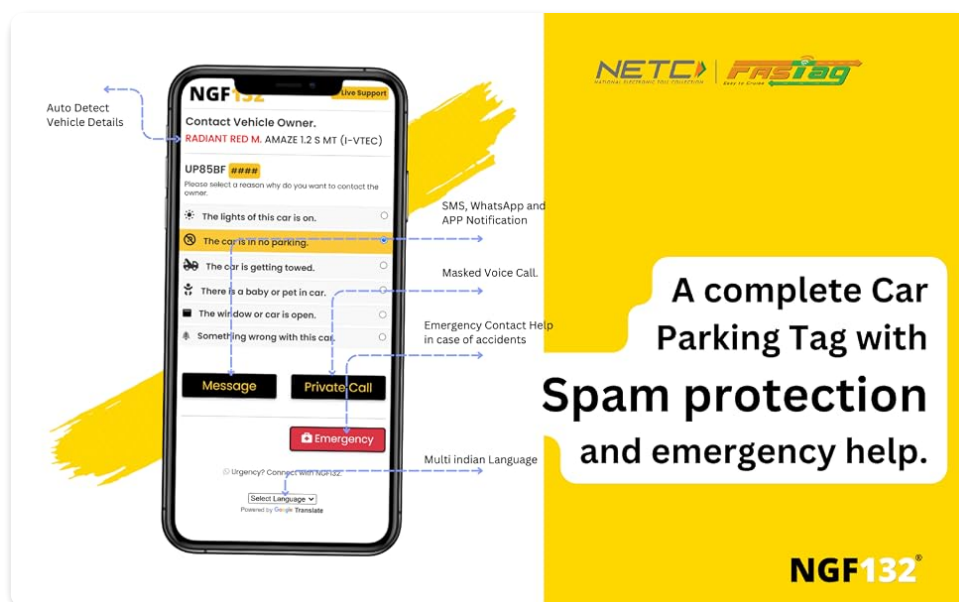

Instructions on how to scan the tag using any camera phone for secure and smart QR interaction.

### 3. OPERATING INSTRUCTIONS

#### 3.1 How Others Contact You

When someone needs to contact you about your vehicle, they will:

1. **Scan the QR Code:** They will scan the QR code on your NGF132 sticker using their smartphone camera or a QR code scanner app.
2. **Access Contact Page:** They will be directed to a secure contact page where they can select a reason for contact (e.g., lights on, wrong parking, car getting towed, emergency).
3. **Initiate Communication:** They can then choose to send a message or initiate a private, masked call. Your phone number remains hidden to protect your privacy.

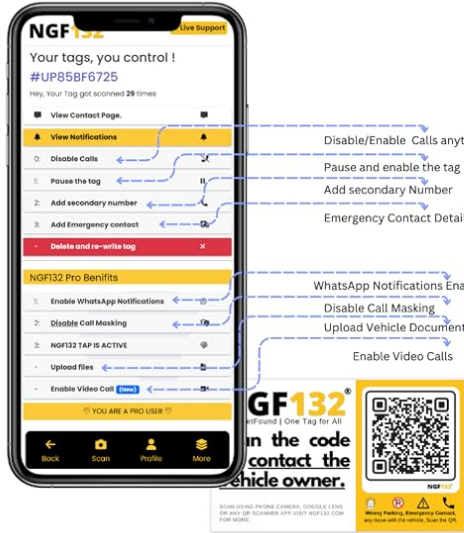

The contact interface displayed on a smartphone, allowing users to select a reason for contact and choose communication methods.

#### 3.2 Receiving Notifications and Managing Your Tag

As the vehicle owner, you will receive notifications via your preferred method (WhatsApp, SMS, or the NGF132 app) when someone attempts to contact you. The NGF132 platform allows you to manage your tag settings, including:

- Enabling/disabling WhatsApp notifications.
- Managing call masking settings.
- Uploading vehicle documents.
- Accessing offline QR code downloads.
- Requesting tag replacements.

Further management options, including downloading offline QR codes and requesting tag replacements.

## 4. MAINTENANCE AND CARE

The NGF132 Contact Stickers are designed for durability and outdoor use. They are waterproof and built to withstand various weather conditions.

### 4.1 Cleaning

To maintain visibility and scanning functionality, periodically clean the sticker surface with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the sticker or QR code.

### 4.2 Important Notes on Reusability

While the stickers are designed for long-term adhesion, attempting to remove and re-position them may compromise their adhesive properties. If a sticker is removed, it may not fully re-stick, and certain edges might

lift. For optimal performance, it is recommended to apply the sticker once in its desired location. If re-application is necessary, a new sticker may be required to ensure proper adhesion and functionality.

## 5. TROUBLESHOOTING

- **QR Code Not Scanning:** Ensure the sticker is clean and free from dirt or obstructions. Check for adequate lighting. Most modern smartphone cameras can scan the QR code directly without a dedicated app.
- **No Notifications Received:** Verify your notification settings within the NGF132 app or web portal. Ensure your registered contact details (phone number for WhatsApp/SMS) are correct and active. Check your phone's notification settings for the NGF132 app.
- **Difficulty with Activation:** If you encounter issues during the initial activation process, ensure you have a stable internet connection. Visit the official NGF132 website ([app.ngf132.com](https://app.ngf132.com)) for detailed setup instructions or support.
- **Privacy Concerns:** The system is designed to mask your phone number during calls. If you experience any issues with privacy, contact support immediately.
