HOMCOM 71" Freestanding Kitchen Pantry Cabinet Instruction Manual

Model: 835-346V01

1. SAFETY INFORMATION

Please read and understand all instructions before assembling and using this product. Failure to follow these instructions may result in injury or damage to the product.

- **Anti-Tipping Device:** This cabinet is equipped with an anti-tipping design. It is crucial to secure the cabinet to the wall using the provided anti-tipping kit to prevent accidental tipping, especially in households with children or pets.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 33 lbs per shelf and 73 lbs total for the cabinet. Distribute weight evenly to maintain stability.
- **Assembly:** Assembly should be performed by at least two adults. Do not use power screwdrivers for assembly to avoid damaging fasteners or the engineered wood material. Hand-tighten all screws.
- **Placement:** Place the cabinet on a flat, stable, and level surface. Avoid placing it in areas with high humidity or direct sunlight to prevent material degradation.
- **Moving the Cabinet:** If you need to move the cabinet, empty it first and lift it carefully. Do not drag the cabinet, as this may damage the base or structure.

3. SETUP AND ASSEMBLY

This cabinet requires assembly. Please refer to the detailed assembly instructions and diagrams included in your product packaging for step-by-step guidance. Ensure all parts are present before beginning assembly.

General Assembly Tips:

- **Unpack Carefully:** Lay out all components on a clean, soft surface to prevent scratches.
- **Identify Parts:** Match all parts to the provided list in the manual.
- **Tools:** Use appropriate tools as specified in the manual. Avoid using power tools for tightening screws to prevent stripping or damage to the engineered wood.
- **Anti-Tipping Kit:** Install the anti-tipping device as instructed to secure the cabinet to a wall stud. This is a critical safety step.
- **Door Alignment:** Adjust hinges as needed to ensure doors align properly and close smoothly.

- **Drawer Installation:** Ensure drawer slides are correctly installed for smooth operation.

4. OPERATING INSTRUCTIONS

The HOMCOM Kitchen Pantry Cabinet is designed for straightforward use.

- **Doors:** The four doors open and close smoothly. Magnetic snaps ensure they remain shut when not in use. To open, gently pull the handles. To close, push until the magnetic catch engages.
- **Drawer:** The central drawer features smooth sliding rails for easy access. Pull the handle to open and push to close. This drawer is suitable for smaller items like utensils or linens.
- **Shelves:** Utilize the various shelves within the upper and lower cabinets to organize plates, bottles, utensils, napkins, and other household items. Adjust shelf heights if applicable to accommodate different item sizes.

5. MAINTENANCE

Proper care will extend the life and appearance of your cabinet.

- **Cleaning:** Wipe the cabinet surfaces with a dry, soft cloth. For stubborn marks, a slightly damp cloth followed immediately by a dry cloth can be used. Avoid abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Spills:** Clean up spills immediately to prevent moisture damage to the engineered wood.
- **Hardware:** Periodically check all screws and fasteners to ensure they are tight. Re-tighten if necessary, but do not overtighten.
- **Environmental Conditions:** Keep the cabinet away from extreme temperature changes and direct heat sources. Maintain moderate humidity levels to prevent warping or cracking.

6. TROUBLESHOOTING

If you encounter issues with your cabinet, refer to the following common solutions:

- **Doors Not Aligning:** If doors appear uneven or do not close properly, adjust the hinges. Most cabinet hinges allow for minor adjustments using a screwdriver to align the doors horizontally, vertically, and in

depth.

- **Drawer Sticking/Not Sliding Smoothly:** Check the drawer slides for any obstructions or debris. Ensure the slides are properly installed and lubricated if necessary. Verify that the drawer is not overloaded.
- **Cabinet Wobbles:** Ensure the cabinet is placed on a level surface. If the floor is uneven, use shims under the base to stabilize it. Confirm that all assembly fasteners are securely tightened. Always ensure the anti-tipping device is properly installed and anchored to the wall.
- **Missing or Damaged Parts:** If you find any parts missing or damaged upon unpacking, contact HOMCOM customer support immediately for assistance.
