

Mueller MLR010555N

Mueller Living HyperGrind Precision Electric Spice/Coffee Grinder Mill

MODEL: MLR010555N

Introduction

Thank you for choosing the Mueller Living HyperGrind Precision Electric Spice/Coffee Grinder Mill. This manual provides essential information for the safe and efficient operation, maintenance, and care of your new appliance. Please read these instructions thoroughly before first use and retain them for future reference.

Important Safety Information: Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and personal injury. Ensure the appliance is unplugged before cleaning or when not in use. Keep out of reach of children.

Product Overview

The Mueller Living HyperGrind is a versatile electric grinder designed for precision grinding of coffee beans, spices, herbs, nuts, and grains. Its compact design and powerful motor ensure consistent results for various culinary needs.

The Mueller Living HyperGrind Precision Electric Spice/Coffee Grinder Mill in black, shown with whole coffee beans in the grinding chamber and a pile of freshly ground coffee next to it, illustrating its primary function.

Key Features:

- **Consistent Grinding:** Engineered for precise control over grind coarseness, suitable for various brewing methods and culinary applications.
- **Compact Design:** Space-saving and stylish, fitting easily into any kitchen environment.
- **Durable Construction:** Crafted with long-lasting stainless steel blades for reliability and performance.
- **Efficient Operation:** Powerful motor ensures quick and effective grinding with minimal noise.
- **One-Touch Control:** Simple and intuitive operation for ease of use.

Components

Familiarize yourself with the main components of your grinder:

- **Transparent Lid:** Allows observation of the grinding process.
- **Grinding Bowl:** Stainless steel bowl where ingredients are placed.
- **Stainless Steel Blades:** Sharp blades for efficient grinding.
- **Motor Base:** Contains the motor and power cord.
- **Safety Switch:** Integrated into the lid mechanism for safe operation.

This image highlights the grinder's transparent lid, allowing visibility of the grinding process, the durable stainless steel blades designed for efficient grinding, and the integrated power cord for convenient placement.

This diagram explains the grinder's safety feature: a hidden switch that ensures operation only when the lid is securely in place, preventing accidental activation.

Setup

1. **Unpack:** Carefully remove all packaging materials and inspect the grinder for any damage.
2. **Initial Cleaning:** Before first use, wipe the exterior of the grinder with a damp cloth. Clean the grinding bowl and lid with a soft, damp cloth and mild detergent, then rinse and dry thoroughly. Ensure all parts are completely dry before assembly.
3. **Placement:** Place the grinder on a stable, flat, and dry surface, away from water and heat sources.
4. **Power Connection:** Ensure the power cord is easily accessible and plug the grinder into a standard electrical outlet.

Electric Coffee Grinder

POWERFUL GRINDING CAPACITY

The Mueller HyperGrind Electric Coffee Grinder positioned on a kitchen counter, illustrating its compact and ready-to-use setup.

Operating Instructions

1. **Fill the Grinder:** Open the transparent lid and add your desired amount of whole coffee beans, spices, or other ingredients into the grinding bowl. Do not overfill; the maximum capacity is approximately 2.1 oz (60g) or 11 tablespoons.
2. **Secure the Lid:** Place the transparent lid firmly onto the grinder base. Ensure it is properly seated to engage the safety switch. The grinder will not operate if the lid is not correctly in place.
3. **Start Grinding:** Press down on the lid to activate the grinding mechanism. The grinder will operate as long as pressure is applied to the lid.
4. **Monitor Grinding:** Observe the grinding process through the transparent lid. Release pressure on the lid to stop the grinder once the desired consistency is achieved.
5. **Remove Ground Ingredients:** Unplug the grinder. Carefully remove the lid and pour out the freshly ground ingredients.

One-Touch Operation

Use the touch-sensitive technology to start and stop your device

A user's hands are shown pressing down on the grinder's lid, illustrating the simple one-touch operation required to activate the grinding process.

Grind Settings and Times

The grinding time determines the fineness of your grind. Adjust the duration based on your preferred consistency and brewing method.

COARSE GRIND

8-10
Sec

MEDIUM GRIND

10-15
Sec

FINE GRIND

20
Sec

This visual guide displays three distinct grind consistencies—coarse, medium, and fine—along with suggested grinding durations (8-10 seconds for coarse, 10-15 seconds for medium, and 20 seconds for fine) to achieve optimal results for various brewing methods.

- **Coarse Grind (8-10 seconds):** Ideal for French Press and Cold Brew.
- **Medium Grind (10-15 seconds):** Suitable for Drip Coffee Makers and Chemex.
- **Fine Grind (20 seconds):** Recommended for Pour Over, Espresso, and Turkish coffee.

Maintenance and Cleaning

Regular cleaning ensures optimal performance and extends the lifespan of your grinder. Always unplug the appliance before cleaning.

1. **Unplug:** Disconnect the grinder from the power outlet.
2. **Remove Lid:** Take off the transparent lid.
3. **Empty Grinding Bowl:** Carefully empty any remaining ground ingredients from the bowl.
4. **Clean Blades and Bowl:** Use a small brush (not included) to remove residual grounds from the stainless steel blades and the interior of the grinding bowl. A damp cloth can be used to wipe the bowl, but ensure no water enters the motor base.
5. **Clean Lid:** Wash the transparent lid with warm, soapy water, rinse thoroughly, and dry completely.

6. **Wipe Exterior:** Wipe the exterior of the motor base with a soft, damp cloth. Do not immerse the motor base in water or any other liquid.
7. **Dry Thoroughly:** Ensure all parts are completely dry before reassembling or storing the grinder.

Troubleshooting

Refer to the table below for common issues and their potential solutions.

Problem	Possible Cause	Solution
Grinder does not start.	Not plugged in; Lid not properly secured; Overheating protection activated.	Ensure power cord is securely plugged in. Check that the lid is firmly seated. Unplug and let the grinder cool down for 30 minutes before attempting to use again.
Inconsistent grind.	Insufficient grinding time; Overfilling the grinding bowl.	Increase grinding time for finer consistency. Do not exceed the maximum fill line.
Grinder stops during operation.	Lid dislodged; Overheating protection activated.	Ensure the lid remains pressed down firmly. Unplug and let the grinder cool down for 30 minutes.

Specifications

- **Model:** MLR010555N
- **Brand:** Mueller
- **Color:** Black
- **Product Dimensions:** 4.41"L x 4.33"W x 7.72"H
- **Item Weight:** 1.38 pounds
- **UPC:** 860006157746
- **Manufacturer:** Mueller Austria

Warranty and Support
