2. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed, including the following:

- Read all instructions before using the appliance.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plug, or any part of the appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.

- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- Oversize foods or metal utensils must not be inserted in a toaster oven as they may create a fire or risk of electric shock.
- A fire may occur if the oven is covered or touching flammable material, including curtains, draperies, walls, and the like, when in operation.
- Do not place any of the following materials in the oven: paper, cardboard, plastic, or any other materials not specifically designed for oven use.
- Do not store any materials, other than manufacturer's recommended accessories, in this oven when not in use.
- Do not place any combustible materials in the oven, such as paper, plastic, etc.
- Do not operate the appliance by means of an external timer or separate remote-control system.

4. SETUP

1. **Unpacking:** Carefully remove the oven and all accessories from the packaging. Remove any packing materials, stickers, or protective films from the appliance.
2. **Placement:** Place the oven on a stable, flat, heat-resistant surface. Ensure there is adequate ventilation around the appliance (at least 10 cm clearance on all sides). Do not place it near flammable materials or heat sources.
3. **First Use Preparation:** Before first use, wipe the interior and accessories with a damp cloth. Plug the oven into a grounded electrical outlet. It is recommended to run the oven empty for about 10-15 minutes at maximum temperature (230°C) with the function set to "Both Heating" to burn off any manufacturing residues. A slight odor or smoke may be present during this initial operation; this is normal. Ensure the area is well-ventilated.

5. OPERATING INSTRUCTIONS

The Midea MEO-40BGY1 offers versatile cooking options including roasting, baking, grilling, and toasting.

5.1 Basic Operation

1. **Prepare Food:** Place food on the appropriate accessory (baking tray, wire rack) and insert it into the oven.
2. **Set Temperature:** Turn the **Temperature Control Knob** to the desired temperature (70°C to 230°C).
3. **Select Function:** Turn the **Function Control Knob** to select the desired heating mode:
 - **Top Heating:** Ideal for grilling and browning the top of dishes.
 - **Bottom Heating:** Suitable for baking and heating the bottom of dishes.
 - **Both Heating:** For general baking, roasting, and toasting, ensuring even heat distribution.
4. **Set Timer:** Turn the **Timer Control Knob** clockwise to the desired cooking time (up to 60 minutes). The oven will automatically shut off when the timer reaches zero. For continuous operation, turn the timer past the 60-minute mark to the "Stay On" position.

5. **Monitor Cooking:** Use the interior light to monitor the cooking process without opening the door.
6. **Completion:** When cooking is complete, the timer will chime (if set). Carefully remove the food using oven mitts.

5.2 Cooking Applications

- **Roasting:** Ideal for meats and vegetables. Use the "Both Heating" function.
- **Baking:** Perfect for cakes, cookies, and casseroles. Use "Bottom Heating" or "Both Heating" depending on the

recipe.

- **Grilling:** For browning and crisping the top of dishes. Use "Top Heating".
- **Toasting:** For bread, bagels, and sandwiches. Use "Both Heating".

6. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure the longevity and optimal performance of your oven.

1. **Always Unplug:** Before cleaning, always unplug the oven from the electrical outlet and allow it to cool completely.
2. **Exterior Cleaning:** Wipe the exterior surfaces with a damp cloth and mild detergent. Do not use abrasive cleaners or scouring pads, as they may damage the finish.
3. **Interior Cleaning:** The interior cavity can be wiped with a damp cloth and mild detergent. For stubborn stains, a non-abrasive oven cleaner designed for non-stick surfaces can be used, following the product instructions. Ensure all cleaner residue is removed.
4. **Crumb Tray:** The crumb tray should be emptied and cleaned regularly to prevent grease buildup and potential fire hazards. Slide out the tray, discard crumbs, and wash with warm soapy water. Rinse and dry thoroughly before reinserting.
5. **Wire Rack and Baking Tray:** These accessories can be washed in warm soapy water or placed in a dishwasher.
6. **Glass Door:** Clean the tempered glass door with a glass cleaner or a damp cloth. Avoid harsh chemicals that could scratch or damage the glass.
7. **Do Not Immerse:** Never immerse the main oven unit, cord, or plug in water or any other liquid.

7. TROUBLESHOOTING

If you encounter issues with your Midea MEO-40BGY1, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Oven does not turn on.	Not plugged in; power outage; timer not set.	Ensure the oven is securely plugged into a working outlet. Check your household circuit breaker. Turn the timer knob to the desired cooking time or "Stay On".
Food is not cooking evenly.	Incorrect rack position; uneven food placement; door opened too frequently.	Adjust rack position for optimal heat distribution. Arrange food evenly on the tray. Avoid opening the door unnecessarily during cooking.

Problem	Possible Cause	Solution
Smoke or burning smell during first use.	Manufacturing residues burning off.	This is normal for the first use. Ensure good ventilation. The smell should dissipate after 10-15 minutes of operation.
Timer not working.	Timer knob not turned past the initial resistance.	Ensure the timer knob is turned clockwise past the initial resistance point to activate the timer mechanism.

If the problem persists after attempting these solutions, please contact customer support.
