Belkin BoostUp 5W Wireless Charging Pad Instruction Manual

Model: F7U067dqWHT-APL

INTRODUCTION

The Belkin BoostUp 5W Wireless Charging Pad provides convenient and clutter-free wireless charging for your Qi-enabled devices. This manual will guide you through the setup, operation, and maintenance of your charging pad to ensure optimal performance and longevity.

WHAT'S IN THE BOX

- Belkin 5W Wireless Charging Pad (White)
- USB Type-A to Micro-USB Cable (4' / 1.2m)
- AC Adapter

KEY FEATURES

- **5W Wireless Charging:** Provides reliable power for Qi-enabled smartphones and accessories.
- **Qi-Certified:** Ensures compatibility with a wide range of Qi-enabled devices.
- **Non-Slip Surface:** A soft-touch rubberized ring keeps your device securely in place during charging.
- **LED Indicator:** A white LED light confirms proper device alignment and charging status without being disruptive.
- **Case Compatibility:** Charges through most lightweight plastic phone cases up to 3mm thick.
- **Compact Design:** Ideal for use at home, in the office, or on a nightstand.

SETUP INSTRUCTIONS

Connecting the Charger

1. Connect the Micro-USB end of the provided cable to the port on the back of the wireless charging pad.
2. Connect the USB Type-A end of the cable to the provided AC adapter.
3. Plug the AC adapter into a wall outlet. The charging pad is now ready for use.

Your browser does not support the video tag.

OPERATING INSTRUCTIONS

Charging Your Device

1. Ensure the charging pad is connected to a power source as described in the Setup section.
2. Place your Qi-enabled device (e.g., smartphone, wireless earbuds case) directly onto the center of the charging pad.

3. The LED indicator on the charging pad will illuminate white to confirm that your device is properly aligned and charging.
4. If the LED does not light up, adjust the position of your device on the pad until the indicator illuminates.
5. Your device's screen or battery indicator will also show that it is charging.

CONVENIENT 5W CHARGING SPEED

Charge any Qi-enabled phone up to 5W, an ideal speed for overnight and top-off charging throughout the day.

Apple Samsung

Charging with a Case

The Belkin BoostUp 5W Wireless Charging Pad is designed to charge through most lightweight plastic phone cases up to 3mm thick. For optimal charging, ensure your case does not contain any metal or magnetic components, as these can interfere with wireless charging.

CHARGE THROUGH YOUR CASE

No need to remove your case – charges through most plastic, non-metal cases up to 3mm.

DEVICE COMPATIBILITY

The Belkin BoostUp 5W Wireless Charging Pad is Qi-certified and compatible with a wide range of Qi-enabled devices, including but not limited to:

- **Apple iPhones:** iPhone 8 and up, iPhone SE, iPhone 11, iPhone 11 Pro, iPhone 11 Pro Max, iPhone XS, iPhone XS Max, iPhone XR, iPhone X, iPhone 12, iPhone 13, iPhone 14 series.
- **Apple AirPods:** AirPods 2, AirPods Pro (with wireless charging case).
- **Samsung Galaxy:** S20, S20+, S20 Ultra, S10, S10+, S10e, Note10, Note10+, Note9, and other Qi-enabled Samsung models.
- **Google Pixel:** Pixel 4, 4XL, 3, 3XL, and other Qi-enabled Google models.
- Other Qi-enabled smartphones and devices.

UNIVERSAL COMPATIBILITY

Works with any Qi-enabled smartphone from Apple, Samsung, LG, Google, Sony and more.

MAINTENANCE

To ensure the longevity and optimal performance of your Belkin BoostUp 5W Wireless Charging Pad, follow these maintenance guidelines:

- **Cleaning:** Disconnect the charger from the power source before cleaning. Use a soft, dry, lint-free cloth to wipe the surface of the charging pad. Do not use harsh chemicals, cleaning solvents, or strong detergents.
- **Storage:** When not in use, store the charging pad in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the charging pad or subjecting it to strong impacts. Do not disassemble the device.

TROUBLESHOOTING

Issue	Possible Solution
Device not charging	<p>Ensure the charging pad is properly connected to a working power outlet.</p> <p>Verify your device is Qi-enabled.</p> <p>Reposition your device on the center of the charging pad until the LED indicator illuminates.</p> <p>Remove any thick or metallic phone cases.</p>
Slow charging	<p>Ensure your device is correctly aligned on the charging pad.</p> <p>Check if your phone case is too thick or contains interfering materials.</p> <p>Avoid using your device heavily while it is charging wirelessly.</p>
LED indicator not lighting up	<p>Confirm the charging pad is receiving power.</p> <p>Ensure your device is placed correctly on the pad.</p> <p>If the issue persists, try a different power outlet.</p>

TECHNICAL SPECIFICATIONS

Specification	Detail
Brand	Belkin
Model Number	F7U067dqWHT-APL
