3. SETUP AND ASSEMBLY

Follow these steps to create your custom bracelets:

- 1. Prepare Your Workspace:** Lay out all components on a clean, flat surface. The included workstation tray can help organize beads and small parts.
- 2. Select Your Base:** Choose a chain or ribbon as the base for your bracelet. You can also combine chains with ribbons for a unique look.
- 3. Add Charms:** Use jump rings to attach your chosen Juicy Couture charms to the chains or ribbons. Open jump rings carefully with pliers (not included) by twisting them sideways, not pulling them apart. Close them securely after attaching the charm.
- 4. Incorporate Beads:** String beads onto the clear thread or directly onto thinner chains. For beaded sections, tie knots at the ends or use crimp beads (if available) to secure the beads in place.
- 5. Secure the Ends:** For chains, attach clasps using jump rings to create a wearable bracelet. For ribbons, tie decorative bows or secure with a knot. Ensure all connections are firm.
- 6. Customize:** Experiment with different combinations of charms, beads, and chain styles to create up to 5 distinct bracelets.

5. MAINTENANCE

To maintain the appearance of your bracelets:

- **Cleaning:** Gently wipe the charms and beads with a soft, dry cloth to remove dust or smudges. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store finished bracelets in a dry place, away from direct sunlight and humidity, to prevent tarnishing of metallic components. Storing them separately can also prevent tangling.

6. TROUBLESHOOTING

Common issues and their solutions:

- **Charms Detaching:** Ensure all jump rings are securely closed after attaching charms. If a charm detaches, re-attach it using a new jump ring or by carefully re-closing the existing one with pliers.
- **Tangled Chains:** Store bracelets individually or in separate compartments to prevent chains from tangling.
- **Beads Falling Off:** Ensure knots are tight or crimp beads are properly secured at the ends of

beaded sections.
