OPERATING INSTRUCTIONS

Your Fuzzalots pets express their moods through a combination of lights and sounds. There are over 25 sounds and reactions to discover.

Understanding Moods and Responses:

- **Red Glow:** Indicates hunger or thirst. To make your pet feel better, feed them with their included bottle.
- **Blue Glow:** Signifies sadness, fear, or crankiness. To comfort your pet, gently pet them on the head.
- **Other Colors/Sounds:** Your pets will display various other light and sound combinations to communicate different emotions and needs. Continue to interact with them to discover all their unique reactions.

Interactive Play Demonstration:

Video: A short demonstration of FurReal Newborns pets, showing how to feed them with a bottle and their interactive responses. This video illustrates similar interactive play to the Fuzzalots pets.

Video: A demonstration of FurReal Friends Bootsie, an interactive cat, showing various mood expressions through facial changes and sounds, and how to interact with it by petting and feeding. This provides a good example of the interactive features found in Fuzzalots pets.

MAINTENANCE

To keep your FurReal Fuzzalots pets clean, gently wipe the surface with a damp cloth. Do not immerse the toys in water or use harsh cleaning agents.

TROUBLESHOOTING

If your Fuzzalots pet is not responding as expected, first check the batteries. Ensure they are correctly installed and have sufficient power. If issues persist, refer to the manufacturer's support information.
