Marea B61001/1

# Marea Smart Watch B61001/1 User Manual

Model: B61001/1

## 1. INTRODUCTION

Welcome to your Marea Smart Watch B61001/1. This manual provides essential instructions for the setup, operation, and maintenance of your device. The Marea Smart Watch B61001/1 is designed to help you monitor your health, track your activities, and receive notifications directly on your wrist, enhancing your daily life.

*Image: The Marea Smart Watch B61001/1, featuring a round display and a sleek black strap, showcasing its modern design.*

## Key Features

- 1.28-inch display screen
- 280 mAh battery capacity
- IP68 water resistance rating
- Compatibility: Android 5.0 or higher / iOS 9.0 or higher
- Customizable watch faces

- Health monitoring: Heart rate, blood pressure, blood oxygen, sleep monitor
- Activity tracking: Calories consumed, distance covered, steps taken, training mode, sedentary reminder
- Notifications: Displays the last 8 messages or notifications (requires phone connection via Bluetooth)
- Additional functions: Remote control, weather display, alarms, chronograph, timer, phone finder, do not disturb mode, raise wrist to wake screen

## 2. SETUP

### 2.1. Charging the Device

Before first use, fully charge your Marea Smart Watch. Connect the provided charging cable to the charging contacts on the back of the watch and to a standard USB power source (e.g., computer USB port or USB wall adapter). Ensure the charging pins align correctly. The watch display will indicate charging status. A full charge typically takes approximately 2-3 hours.

### 2.2. Powering On/Off

- **To Power On:** Press and hold the side button until the screen lights up.
- **To Power Off:** Navigate to the 'Settings' menu on the watch, then select 'Power Off'. Alternatively, press and hold the side button and select the power off option if available.

### 2.3. App Installation and Pairing

To unlock the full potential of your smartwatch, you need to install the companion application on your smartphone.

1. **Download the App:** Search for the official Marea Smart Watch application (or similar name as indicated in the watch packaging) in your smartphone's app store (Google Play Store for Android, Apple App Store for iOS).
2. **Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
3. **Open the App and Pair:** Open the downloaded app and follow the on-screen instructions to create an account and pair your Marea Smart Watch B61001/1. The app will guide you through the pairing process.
4. **Maintain Connection:** For all features, including notifications and data synchronization, the watch and phone must remain connected via Bluetooth and within range.

## 3. OPERATING INSTRUCTIONS

### 3.1. Navigating the Interface

- **Touchscreen:** Swipe left, right, up, or down on the touchscreen to access different features, menus, and watch faces.
- **Side Button:** Press the side button to return to the home screen or to wake the device. A long press may access power options or other quick functions.

### 3.2. Health Monitoring

Your Marea Smart Watch B61001/1 offers various health monitoring features:

- **Heart Rate, Blood Pressure, Blood Oxygen:** Access these features from the health menu on your watch. Ensure the watch is worn snugly on your wrist, about one finger's width from your wrist bone, for accurate readings. Avoid

excessive movement during measurements.

- **Sleep Monitor:** Wear the watch while sleeping to track your sleep patterns, including deep sleep, light sleep, and awake times. Data will synchronize with the companion app for detailed analysis.

### 3.3. Activity Tracking

The watch automatically tracks your daily activities:

- **Steps, Distance, Calories:** The watch continuously records your steps, estimated distance covered, and calories burned throughout the day.
- **Training Mode:** Select specific activities (e.g., running, walking, cycling) from the training mode menu to record detailed workout data, including duration, heart rate zones, and calorie expenditure.
- **Sedentary Reminder:** Set a sedentary reminder in the companion app to receive alerts on your watch, prompting you to move after periods of inactivity.

### 3.4. Notifications

Once successfully paired with your smartphone, your watch will display incoming calls, messages, and notifications from selected applications.

- **Viewing Notifications:** Swipe to the notification screen on your watch to view the last 8 messages or notifications received.
- **Managing Notifications:** Notification settings can be customized within the companion app on your smartphone.

### 3.5. Other Functions

- **Remote Control:** Control your phone's camera shutter or music playback directly from your watch.
- **Weather:** View current weather conditions and forecasts (requires the watch to be connected to the app and internet access on your phone).
- **Alarms:** Set and manage alarms via the watch or the companion app.
- **Chronograph/Timer:** Utilize the built-in stopwatch and countdown timer functions.
- **Phone Finder:** If your phone is connected via Bluetooth, use this feature on your watch to make your phone ring, helping you locate it.
- **Customizable Watch Face:** Change the watch face to personalize your device through the companion app.
- **Do Not Disturb Mode:** Activate this mode to silence notifications during specific periods.
- **Raise Wrist to Wake Screen:** Enable this feature in settings for the screen to automatically light up when you raise your wrist.

## 4. MAINTENANCE

### 4.1. Cleaning

Regularly clean your watch and strap with a soft, dry, lint-free cloth. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the device's finish and seals.

### 4.2. Water Resistance (IP68)

The Marea Smart Watch B61001/1 has an IP68 rating, which means it is dust-tight and protected against the effects of continuous immersion in water up to 1.5 meters for up to 30 minutes. This makes it suitable for daily use, such as washing

hands or light rain exposure.

#### **Important Considerations:**

- The IP68 rating does not guarantee protection against hot water, steam, or high-pressure water jets. Avoid using the watch in saunas, hot tubs, or during activities like diving or high-speed water sports.
- Water resistance is not a permanent condition and may decrease over time with normal wear and tear.
- Do not operate the watch's buttons or touchscreen while it is wet.

### **4.3. Battery Care**

To maximize battery life and performance:

- Avoid exposing the watch to extreme temperatures (very hot or very cold).
- Do not frequently allow the battery to fully discharge to 0%.
- Charge the watch using only the provided charging cable.

## **5. TROUBLESHOOTING**

### **5.1. Watch Not Turning On**

- Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- Try pressing and holding the side button for an extended period (e.g., 10-15 seconds) to force a restart.

### **5.2. Cannot Pair with Phone**

- Verify that Bluetooth is enabled on both your phone and the watch.
- Ensure the watch is within close range of your phone (typically within 10 meters).
- Restart both your watch and your smartphone.
- If previously paired, try unpairing the watch from your phone's Bluetooth settings and then re-pairing through the companion app.
- Consider resetting the watch to factory settings (refer to the companion app or watch settings for this option).

### **5.3. Inaccurate Health Readings**

- Ensure the watch is worn correctly: snugly on your wrist, not too loose or too tight, and positioned about one finger's width from your wrist bone.
- Avoid excessive movement or talking during measurements.
- Clean the sensor on the back of the watch.

### **5.4. Notifications Not Appearing**

- Check if the watch is successfully connected to your phone via Bluetooth.
- Verify that the companion app has the necessary permissions to access notifications on your smartphone.
- Ensure 'Do Not Disturb' mode is not active on either your watch or your phone.
- Check the notification settings within the companion app to ensure notifications for desired apps are enabled.

## 6. SPECIFICATIONS

- **Model Number:** B61001/1
- **Brand:** Marea
- **Display:** 1.28 inches
- **Battery Capacity:** 280 mAh
- **Battery Composition:** Silver Oxide (Note: Main rechargeable battery is typically Lithium-ion, this may refer to a specific component)
