Earbuds not pairing with device.	• Ensure earbuds are charged. • Turn off Bluetooth on your device, then turn it back on. • Forget "A616" from your device's Bluetooth list and re-pair. • Place earbuds back in the case, close the lid, wait a few seconds, then reopen.
Only one earbud is working.	• Ensure both earbuds are charged. • Place both earbuds back into the charging case, close the lid, then take them out together. • Try resetting the earbuds (refer to product specific reset instructions if available, otherwise general reset by forgetting device and re-pairing).
Earbuds not charging.	• Ensure the charging cable is securely connected to both the case and the power source. • Check if the charging contacts on the earbuds and inside the case are clean and free of debris. • Try a different USB cable or power adapter.
