Atlantic 4FT-Green (Male-Female)

Atlantic Heavy Duty Garden Hose User Manual

Model: 4FT-Green (Male-Female)

INTRODUCTION

Thank you for choosing the Atlantic Heavy Duty Garden Hose. This manual provides essential information for the proper setup, operation, maintenance, and troubleshooting of your new hose. Designed for durability and flexibility, this hose is built to meet various outdoor watering needs.

Figure 1: Atlantic Heavy Duty Garden Hose (4 ft, Green)

Key Features

- **Heavy Duty and Durable:** Constructed with three layers of high-quality materials for long-lasting performance.
- **Soft and Flexible:** Easy to maneuver without kinks or tangles.
- **Solid Brass Connectors:** Ensures excellent durability and a secure, leak-free connection.
- **Short Leader Hose:** Ideal for connecting hose reels or faucets to main garden hoses.
- **Versatile:** Suitable for watering plants, cleaning decks, washing cars, and other outdoor tasks.

SETUP

Follow these steps to properly set up your Atlantic Heavy Duty Garden Hose:

1. **Inspect the Hose:** Before first use, uncoil the hose and inspect it for any visible damage or kinks.
2. **Connect to Water Source:** Attach the female end of the hose (with the swivel connector) to your outdoor faucet or hose reel. Ensure the connection is hand-tight to prevent leaks.
3. **Connect to Accessory:** Attach the male end of the hose to your desired watering accessory (e.g., spray nozzle, sprinkler, or another garden hose). Hand-tighten the connection.

OPERATING INSTRUCTIONS

Using your Atlantic Heavy Duty Garden Hose is straightforward:

1. **Turn on Water:** Slowly turn on the water supply at the faucet.
2. **Check for Leaks:** Observe all connections for any signs of leakage. If leaks occur, tighten the connections further.
3. **Begin Watering:** Use your attached accessory to direct water as needed.
4. **Kink Resistance:** The hose is designed to be kink-resistant. If a kink occurs, gently straighten the affected section.

Soft and Flexible

Flexible

Easy to store

Corner-adaptable

MAINTENANCE

Proper maintenance will extend the life of your garden hose:

- **Drain After Use:** Always drain all water from the hose after each use, especially before storing. This prevents pressure buildup and potential damage from freezing.
- **Store Properly:** Coil the hose neatly and store it in a cool, dry place away from direct sunlight and extreme temperatures. A hose reel is recommended for longer hoses.
- **Check Connections:** Periodically check the brass connectors for wear or damage. Replace washers if necessary to maintain a watertight seal.
- **Avoid Harsh Chemicals:** Do not expose the hose to harsh chemicals or solvents, as this can degrade the material.

Working Temperature:

- 4 °F ~ + 140 °F

Figure 4: The hose is designed for a wide working temperature range, but proper storage is still recommended.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Water leaking from connections	Loose connection, worn washer	Tighten connections securely. Replace the rubber washer if it appears worn or damaged.
Hose is kinked	Improper uncoiling or handling	Gently straighten the kinked section. The hose's design minimizes kinking.
Low water pressure	Partially closed faucet, kink in hose, clogged nozzle	Ensure faucet is fully open. Check for and remove any kinks. Clean or replace the nozzle.
Hose appears damaged (e.g., cracks, bulges)	Exposure to extreme conditions, physical damage	Discontinue use and replace the hose. Avoid dragging over sharp objects or prolonged exposure to harsh elements.

SPECIFICATIONS

- **Brand:** Atlantic

- **Model:** 4FT-Green (Male-Female)
- **Material:** Premium Hybrid (Rubber & PVC)
- **Color:** Green
- **Product Dimensions:** 48"L x 0.63"W (4 feet length, 5/8 inch diameter)
- **Maximum Pressure:** 350 PSI
- **Nominal Wall Thickness:** 0.625 inch
- **Working Temperature Range:** -4°F to +140°F
- **Connectors:** Solid Brass (Male-Female)
