

Trust 24115

Trust Wireless Mouse User Manual

Model: 24115

Brand: Trust

1. INTRODUCTION

Thank you for purchasing the Trust Wireless Mouse. This manual provides detailed instructions for setting up, operating, maintaining, and troubleshooting your new wireless mouse. Please read this manual thoroughly before using the product to ensure optimal performance and longevity.

2. SAFETY INFORMATION

Please observe the following safety guidelines to prevent damage to the device or injury to yourself:

- Do not expose the mouse to water or excessive moisture.
- Avoid dropping or subjecting the mouse to strong impacts.
- Do not attempt to disassemble or repair the mouse yourself. Refer to qualified service personnel.
- Dispose of batteries according to local regulations.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1x Trust Wireless Comfort Mouse
- 1x USB Micro Receiver
- 1x AA Battery
- 1x User Manual (this document)

4. SETUP

4.1. Installing the Battery

1. Locate the battery compartment on the underside of the mouse.
2. Slide the battery compartment cover open.
3. Insert the provided AA battery, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.

4. Close the battery compartment cover securely.

POWER SAVING

Turn the mouse off when not in use and save battery life

**1 AA BATTERY
INCLUDED**

Image 4.2: Bottom view of the Trust Wireless Mouse, illustrating the battery compartment and the storage slot for the USB micro receiver.

4.2. Connecting the USB Micro Receiver

1. Locate the USB micro receiver, which is typically stored inside the mouse's battery compartment for transport.
2. Remove the USB micro receiver from its storage slot.
3. Plug the USB micro receiver into an available USB port on your computer (laptop or PC).
4. The mouse should automatically connect to your computer. No additional drivers are typically required for Windows 10, 8, 7, or Mac OS X 10.15 (Catalina) or higher.

5. OPERATING THE MOUSE

5.1. Basic Functions

- **Left Click:** Primary button for selecting items and interacting with software.
- **Right Click:** Secondary button for context menus and additional options.
- **Scroll Wheel:** Roll up or down to scroll through documents and web pages. Press the scroll wheel for middle-click functionality.

5.2. DPI Adjustment

The Trust Wireless Mouse features an adjustable DPI (Dots Per Inch) setting, allowing you to control the cursor speed. There are 5 different speeds available: 800, 1200, 1600, 1800, and 2200 DPI.

- Locate the DPI button, usually positioned behind the scroll wheel.
- Press the DPI button to cycle through the available DPI settings.
- An LED indicator on the mouse will briefly show the current DPI setting.

COMFORTABLE DESIGN

Makes this mouse a pleasure to work with

COMFORTABLE

ADJUSTABLE
SPEED

Image 5.1: Side view of the Trust Wireless Mouse highlighting its comfortable shape, thumb rest with extra grip, and the adjustable speed (DPI) feature.

5.3. Thumb Buttons

The mouse is equipped with two conveniently placed thumb buttons (forward and backward) on the left side. These buttons facilitate easy navigation, such as browsing through files or web pages.

- Press the **Forward** button to move to the next page or item.
- Press the **Backward** button to return to the previous page or item.

Image 5.2: Side view of the Trust Wireless Mouse, clearly showing the placement of the two thumb buttons for forward and backward navigation.

Note: Functionality of side buttons may vary between operating systems.

5.4. Power Saving Features

To conserve battery life, the mouse includes a power-saving mode and an on/off switch.

- **On/Off Switch:** Located on the underside of the mouse. Turn the mouse off when not in use for extended periods to maximize battery life.
- **Battery LED Indicator:** An LED indicator will light up when the battery level is low, signaling that it's time to replace the AA battery.

6. MAINTENANCE

6.1. Cleaning

To maintain optimal performance, clean your mouse regularly:

- Use a soft, dry cloth to wipe the surface of the mouse.
- For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid harsh chemicals.
- Do not allow liquids to enter the mouse's internal components.

6.2. Battery Replacement

When the battery indicator lights up, replace the AA battery promptly to ensure uninterrupted use. Refer to section 4.1 for battery installation instructions.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Mouse not responding.	Low or dead battery.	Replace the AA battery.
Mouse not responding.	USB receiver not properly connected.	Ensure the USB receiver is firmly plugged into a working USB port. Try a different USB port.
Mouse not responding.	Mouse is turned off.	Turn on the mouse using the on/off switch on the underside.
Cursor movement is erratic or slow.	Low DPI setting.	Press the DPI button to increase cursor speed.
Cursor movement is erratic or slow.	Dirty sensor or unsuitable surface.	Clean the optical sensor on the underside of the mouse. Use the mouse on a clean, non-reflective surface.
Wireless connection issues.	Interference or distance from receiver.	Ensure the mouse is within 10 meters of the receiver. Remove any large metal objects between the mouse and receiver.

Problem	Possible Cause	Solution
