Takeya Actives 64 oz Onyx Water Bottle with Spout Lid - Instruction Manual

INTRODUCTION

Thank you for choosing the Takeya Actives 64 oz Onyx Water Bottle with Spout Lid. This manual provides essential information for the proper setup, operation, maintenance, and care of your new insulated water bottle. Designed for durability and performance, this bottle is an ideal companion for maintaining hydration throughout your day.

Key Features:

- **Double Stainless Steel Insulation:** Keeps beverages cold for up to 24 hours or hot for up to 12 hours.
- **Leak-Proof Spout Lid:** Engineered for secure, spill-free use.
- **Wide Loop Handle:** Provides convenient portability for all activities.
- **BPA-Free Materials:** Ensures safe, toxin-free hydration.
- **Dishwasher-Safe:** Bottle and removable straw lid are safe for easy cleaning.

COMPONENTS

- Takeya Actives 64 oz Onyx Water Bottle
- Insulated Spout Lid with Wide Loop Handle
- Removable Protective Silicone Bumper (pre-installed)

SETUP

1. **Initial Cleaning:** Before first use, wash the bottle and lid thoroughly. Refer to the 'Maintenance & Cleaning' section for detailed instructions.
2. **Bumper Placement:** Ensure the protective silicone bumper is securely fitted around the base of the bottle. This bumper helps prevent dents and scratches.

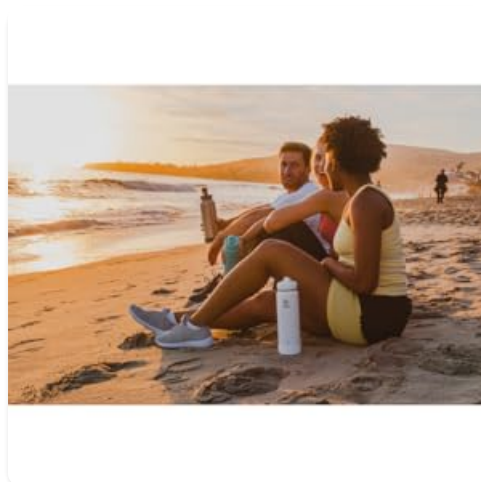

3. **Lid Assembly:** Confirm all seals within the spout lid are correctly seated to ensure a leak-proof experience.

OPERATING INSTRUCTIONS

1. **Filling the Bottle:** Unscrew the entire spout lid counter-clockwise to remove it. Fill the bottle with your desired beverage. For optimal insulation, pre-chill the bottle with cold water or pre-heat with hot water before adding your drink.
2. **Securing the Lid:** Screw the spout lid back onto the bottle clockwise until it is tight and secure.
3. **Using the Spout:** To drink, twist the small cap on the spout counter-clockwise to open. To close, twist clockwise until it clicks securely into place.
4. **Carrying:** Utilize the wide loop handle for easy carrying. The handle is designed to be comfortable and durable.

The leak-proof spout lid ensures no spills during use. Twist to open and close securely.

Enjoy ice-cold beverages for up to 24 hours thanks to the double-wall insulation.

MAINTENANCE & CLEANING

Regular cleaning is essential to maintain hygiene and prolong the life of your Takeya water bottle.

1. **Dishwasher Safe:** The bottle and removable spout lid are dishwasher safe. Place the lid on the top rack of your dishwasher to prevent damage.

2. **Hand Washing (Recommended for Seals):** For thorough cleaning, especially of the seals, hand washing is recommended.
3. **Removing Seals:** The silicone gaskets within the lid can be carefully removed for deep cleaning. Use a small, non-abrasive tool or your fingernail to gently pull them out.
4. **Cleaning Seals:** Wash seals with warm, soapy water and rinse thoroughly. Ensure they are completely dry before reinserting.
5. **Reinserting Seals:** Carefully press the seals back into their grooves in the lid, ensuring they are flush and properly seated to maintain the leak-proof function.
6. **Drying:** Allow all components to air dry completely before reassembling to prevent odor or mold buildup.

The removable protective bumper can be taken off for cleaning or replacement.

TROUBLESHOOTING

- **Leaking:** Ensure the spout lid is screwed on tightly and the small cap is twisted securely into the locked position. Check that all silicone seals within the lid are properly seated and free from damage or debris.
- **Reduced Insulation:** Verify that the lid is fully closed and sealed. Extreme external temperatures or frequent opening may affect insulation performance. Ensure the bottle is not overfilled, as this can compromise the vacuum seal.
- **Difficulty Opening/Closing Lid:** If the lid is stiff, ensure it is clean and free of any residue. Avoid overtightening.

SPECIFICATIONS

Feature	Detail
Brand	Takeya
Model Name	Actives Spout Lid
Model Number	51116
