DELTACO GAMING GAM-079-W

DELTACO GAMING GAM-079-W Illuminated Mouse Pad User Manual

Model: GAM-079-W | Brand: DELTACO GAMING

INTRODUCTION

This manual provides essential information for the proper setup, operation, and maintenance of your DELTACO GAMING GAM-079-W Illuminated Mouse Pad. Please read these instructions carefully before use to ensure optimal performance and longevity of your product.

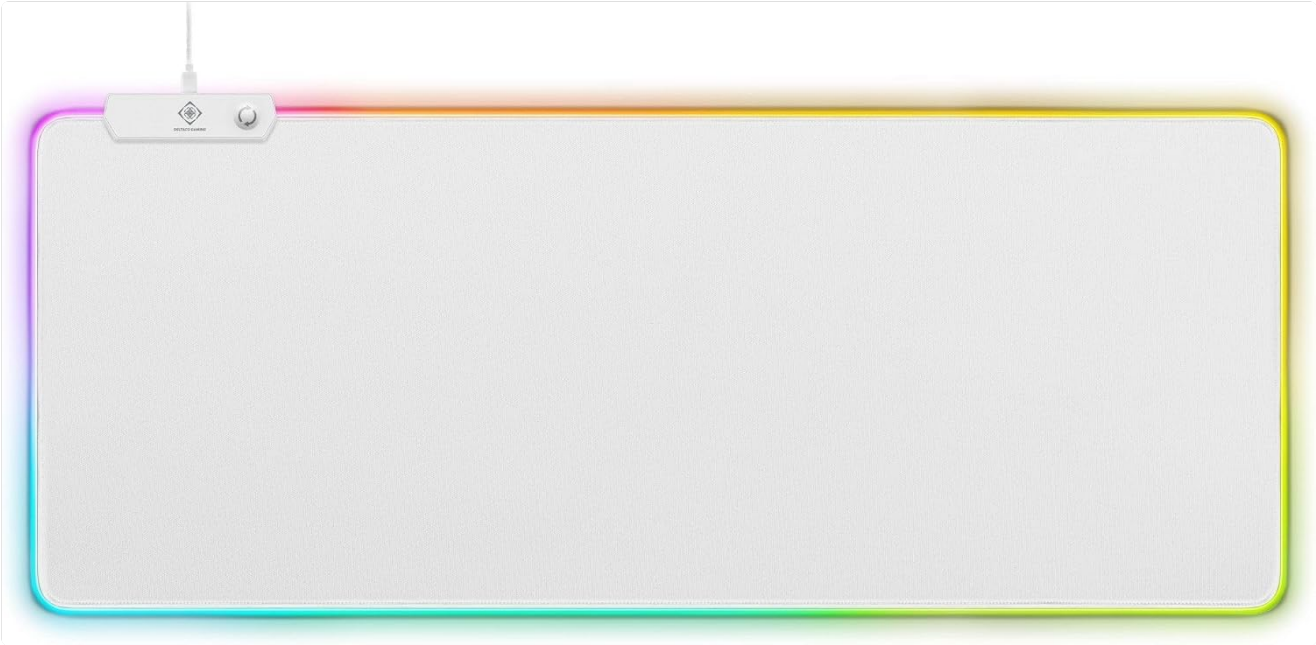

Image: The DELTACO GAMING GAM-079-W Illuminated Mouse Pad, featuring a white fabric surface and an RGB illuminated border, with the control unit visible at the top edge.

PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x DELTACO GAMING GAM-079-W Illuminated Mouse Pad
- 1 x USB Cable (attached to the mouse pad)

SETUP

1. **Unroll the Mouse Pad:** Carefully unroll the mouse pad onto a flat, clean surface. Allow some time for any creases to flatten out.
2. **Connect to Power:** Locate the USB cable attached to the mouse pad's control unit. Plug the USB connector into an available USB port on your computer or a compatible USB power adapter (5V input voltage).
3. **Power On:** The illumination should activate automatically upon connection. If not, press the button on the control unit to turn it on.

OPERATING INSTRUCTIONS

The DELTACO GAMING GAM-079-W features an integrated control unit for managing the LED backlight.

- **Power On/Off:** Press the button on the control unit once to turn the LED illumination on or off.
- **Change Light Modes:** With the illumination on, press the button repeatedly to cycle through the available light modes. The mouse pad supports 6 different light modes, including various static colors (Red, Green, Blue) and dynamic effects.

MAINTENANCE

Proper maintenance ensures the longevity and appearance of your mouse pad.

- **Cleaning the Surface:** For general cleaning, use a soft, damp cloth to gently wipe the fabric surface. Avoid harsh chemicals or abrasive materials.
- **Cleaning the Edges:** The illuminated edges can be wiped with a slightly damp cloth. Ensure no liquid enters the control unit.
- **Storage:** When not in use for extended periods, store the mouse pad rolled up loosely or flat to prevent creasing.
- **Avoid Liquid Spills:** While the surface is durable, excessive liquid spills, especially near the control unit, can damage the electronics.

TROUBLESHOOTING

If you encounter issues with your mouse pad, refer to the following common solutions:

- **Illumination Not Working:**
 - Ensure the USB cable is securely connected to a functioning USB port.
 - Try connecting the mouse pad to a different USB port or power source.
 - Press the control button to ensure the illumination is not simply turned off.
- **Mouse Tracking Issues:**
 - Ensure the mouse pad surface is clean and free of debris.
 - Check your mouse's sensor for any obstructions.

- Test with a different mouse to rule out mouse-specific issues.
- **Mouse Pad Not Lying Flat:**
 - Allow the mouse pad to sit unrolled on a flat surface for 24-48 hours to naturally flatten out.
 - Gentle pressure can be applied to the edges to help flatten it.

SPECIFICATIONS

Feature	Detail
Model	GAM-079-W
Dimensions (W x D x H)	900mm x 360mm x 4mm
Weight	730g
Material	Fabric surface, Rubber base
