Minka Lavery F727-CL/SVG

Minka-Aire Rudolph F727-CL/SVG Ceiling Fan Instruction Manual

Model: F727-CL/SVG

1. PRODUCT OVERVIEW

The Minka-Aire Rudolph F727-CL/SVG Ceiling Fan is designed to provide efficient air circulation and enhance the aesthetic of your living space. This model features a Coal (Black) finish with three Savannah Grey blades, offering a modern farmhouse style. It is suitable for various rooms including living rooms, kitchens, and bedrooms, providing year-round comfort.

2. SAFETY INFORMATION

Please read and understand all instructions before beginning installation. Improper installation can lead to electric shock, fire, or personal injury.

- Always disconnect power at the main circuit breaker before installation or servicing.
- Ensure all electrical connections comply with local codes and ordinances.

- Consult a qualified electrician if you are unfamiliar with electrical wiring.
- Mount the fan to a ceiling joist or a suitable support structure capable of supporting the fan's weight.
- Keep hands, clothing, and other objects clear of the fan blades when the fan is operating.

3. PACKAGE CONTENTS

Verify that all components are present before proceeding with installation:

- Ceiling Fan Motor Assembly
- Three Savannah Grey Blades
- 6-inch Downrod
- WC116 Wall Control (Four Speed Fan Control)
- Mounting Hardware
- Instruction Manual

Note: An LED Light Kit (K9727L-CL) is sold separately and is not included with this fan model.

4. INSTALLATION AND SETUP

This Minka-Aire Rudolph ceiling fan is designed for downrod mount installation. Follow these general steps for installation. Refer to the detailed diagrams in the included printed manual for specific instructions.

1. **Prepare for Installation:** Turn off power at the circuit breaker. Ensure the mounting location is secure and can support the fan's weight.
2. **Install Mounting Bracket:** Secure the mounting bracket to the ceiling outlet box and ceiling joist using appropriate hardware.
3. **Assemble Downrod and Fan Motor:** Attach the downrod to the fan motor assembly, feeding the electrical wires through the downrod.
4. **Hang Fan Assembly:** Carefully lift the fan assembly and hang it on the mounting bracket.
5. **Make Electrical Connections:** Connect the fan's electrical wires to the household wiring according to the wiring diagram provided in the manual. Ensure all connections are secure.
6. **Attach Blades:** Securely attach the three Savannah Grey blades to the fan motor using the provided hardware.
7. **Install Wall Control:** Replace your existing wall switch with the included WC116 Wall Control, following the wiring instructions. This is a two-wire installation.
8. **Restore Power:** Once installation is complete and all connections are checked, restore power at the circuit breaker.

Installation Overview Video

5. OPERATION

The Minka-Aire Rudolph F727-CL/SVG fan is operated using the included WC116 Wall Control.

- **Fan Speed Control:** The wall control allows you to select from four fan speeds (1-4). Adjust the

speed to your desired comfort level.

- **Year-Round Use:** This fan features a reversible motor for year-round use. In warm weather, operate the fan in a counter-clockwise direction to create a cooling breeze. In cool weather, operate the fan in a clockwise direction at a low speed to circulate warm air near the ceiling, helping to distribute heat more evenly. Refer to the wall control or fan housing for the direction switch.

6. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Clean the fan blades and motor housing periodically with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Tighten Fasteners:** Check all screws and fasteners on the fan and mounting hardware at least twice a year to ensure they are secure.
- **Lubrication:** The fan motor is permanently lubricated and does not require additional oiling.

7. TROUBLESHOOTING

If you experience issues with your fan, consult the following common troubleshooting steps:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; Loose wire connections; Incorrect wall control wiring.	Check circuit breaker; Verify all wire connections are secure; Re-check wall control wiring.
Fan is noisy	Loose fan blades; Loose mounting screws; Improperly balanced blades.	Ensure all blade screws are tight; Tighten mounting screws; Use a blade balancing kit (not included).
Excessive wobbling	Loose blades; Unbalanced blades; Loose downrod.	Tighten blade screws; Balance blades; Ensure downrod is securely fastened.

8. SPECIFICATIONS

Feature	Detail
Brand	Minka Lavery
Model Name	Rudolph
Item Model Number	F727-CL/SVG
Color	Coal / Savannah Grey Blades
Product Dimensions	52 x 52 x 10.5 inches
Item Weight	15.87 pounds
Number of Blades	3
Blade Length	52 Inches
