Sunbeam 32810042

Sunbeam Loftec Wi-Fi Connected Electric Heated Blanket User Manual

INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Sunbeam Loftec Wi-Fi Connected Electric Heated Blanket. This blanket offers customizable warmth through a wired digital controller, a dedicated mobile application, and voice assistant integration. Please read all instructions carefully before use and retain this manual for future reference.

The Sunbeam Loftec Electric Heated Blanket features 10 heat settings, a 10-hour auto-shut off, and is constructed with soft Lofttec fabric. It incorporates advanced heating technology designed for continuous, even heat distribution and safe operation.

SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and personal injury. This blanket is designed for household use only.

- Do not use with infants, children, incapacitated persons, or persons insensitive to heat.
- Do not use with pets.
- Never use the blanket if it is wet.
- Do not use with a generator, power inverter, or DC-to-AC converter.
- Ensure the blanket is not folded, bunched, or tucked in when in use, as this can cause overheating.
- Always unplug the blanket from the wall outlet when not in use.
- Inspect the blanket, cord, and controller regularly for any signs of damage. If damaged, discontinue use immediately.
- Do not dry clean this product. Dry cleaning solvents may damage the insulation of the heating element.

SUNBEAM ADVANTAGE

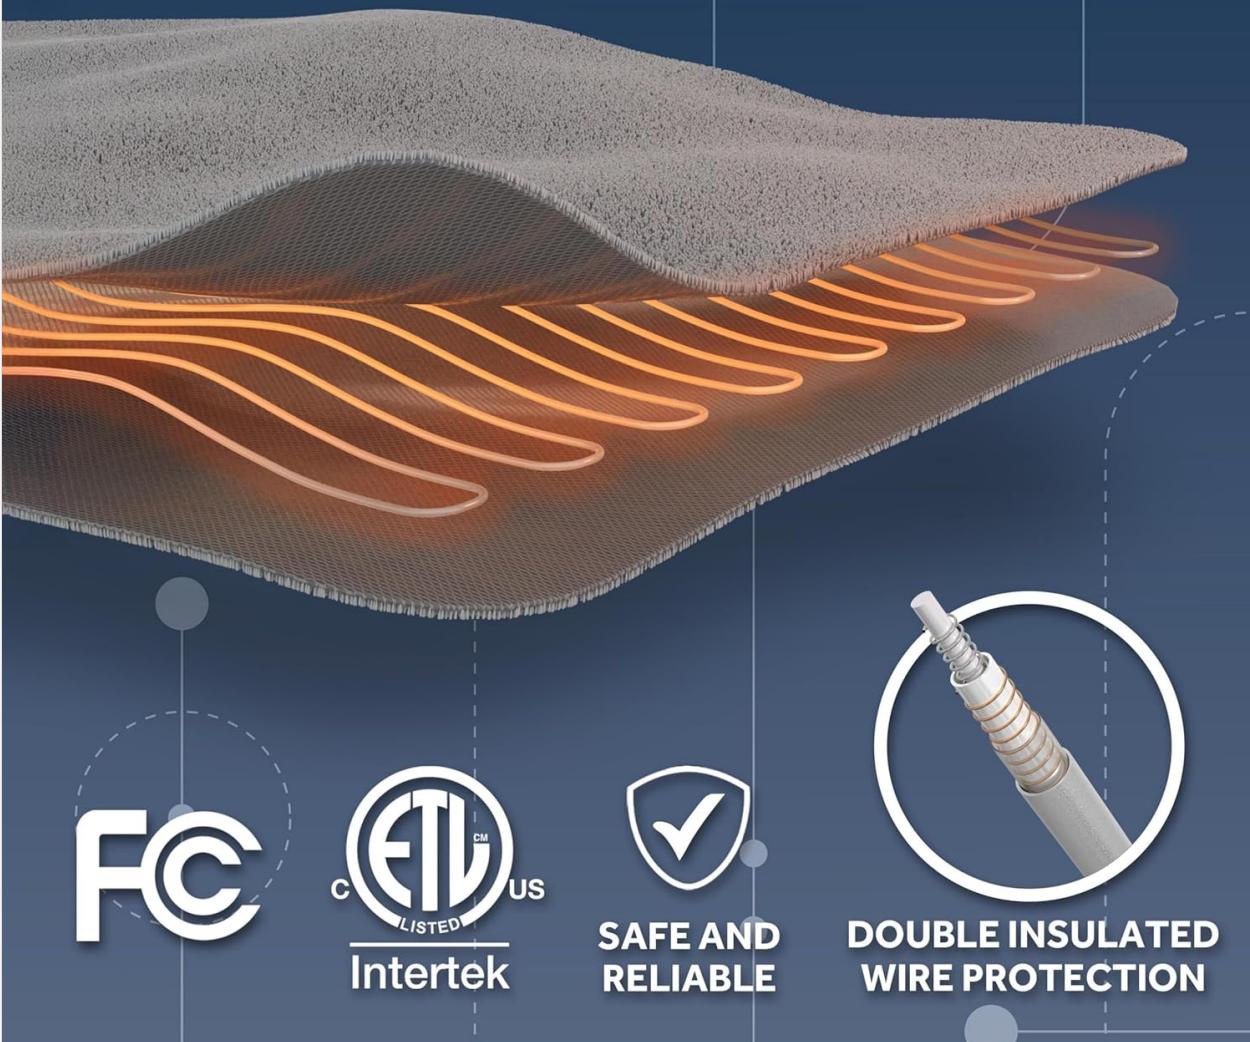

Image: Sunbeam Advantage highlights safety features including FCC and ETL certifications, indicating safe and reliable operation with double insulated wire protection.

SETUP INSTRUCTIONS

- 1. Unpack the Blanket:** Carefully remove the blanket and controller from the packaging. Ensure all components are present: the heated blanket and the wired digital controller.

Image: The Sunbeam Loftec Electric Heated Blanket, folded, with its wired digital controller visible.

2. **Position the Blanket:** Lay the heated blanket flat on your bed, ensuring it is not folded or bunched. The connector for the controller should be positioned at the foot of the bed.
3. **Connect the Controller:** Firmly plug the controller cord into the blanket's connector. Ensure a secure connection.
4. **Plug into Power:** Plug the controller's power cord into a 120V AC electrical wall outlet. Do not use with extension cords or power strips.
5. **App Setup (Optional but Recommended):**
 - Download the Sunbeam app from your device's app store (iOS or Android).
 - Create an account or log in.
 - Follow the in-app instructions to add your Sunbeam Loftec Heated Blanket. This typically involves putting the blanket into pairing mode and connecting it to your home Wi-Fi network.
 - Ensure your Wi-Fi network is 2.4 GHz for optimal connectivity.

App-Controlled

HEATED
QUEEN BLANKET

Image: A user interacting with the Sunbeam mobile application on a smartphone to control the heated blanket, demonstrating the app-controlled functionality.

6. **Voice Assistant Integration (Optional):** Once connected to the Sunbeam app, you can link your blanket to compatible voice assistants like Google Home or Amazon Alexa by following the instructions within the Sunbeam app or your voice assistant's application.

OPERATING INSTRUCTIONS

Using the Wired Digital Controller

DIGITAL CONTROLLER

Display dims in 30 secs

3 ways to control

- Sunbeam® app
- Digital controller
- Voice assistants

Image: The digital controller and a smartphone screen displaying the Sunbeam app, illustrating the three control methods: app, digital controller, and voice assistants. Features like 10 heat settings and 10-hour auto-off are highlighted.

- **Power On/Off:** Press the power button () to turn the blanket on or off.
- **Adjust Heat Settings:** Use the '+' and '-' buttons to cycle through the 10 available heat settings. The current setting will be displayed on the controller.
- **Preheat Function:** Press the 'PREHEAT' button to quickly warm the blanket before use.
- **Auto Shut-Off:** The blanket features a 10-hour auto shut-off for safety. This can be adjusted via the app.
- **Individualized Comfort:** Queen and King size blankets feature dual controls, allowing separate heat settings for each side of the bed.

Using the Sunbeam Mobile App

- **Remote Control:** Control the blanket's power and heat settings from anywhere using your smartphone.
- **Preheat:** Activate the preheat function remotely to warm your bed before you get in.
- **Scheduling:** Set custom schedules for the blanket to turn on and off, or adjust heat levels at specific times.
- **Dual Zone Control:** For Queen and King sizes, the app allows independent control of heat settings for each side.

INDIVIDUALIZED COMFORT

Individual controls for personalized comfort

Image: An overhead view of a bed with the heated blanket, visually representing two distinct heating zones, illustrating the individualized comfort feature for users.

Using Voice Assistants

- Once linked, use voice commands to turn the blanket on/off and adjust heat settings.
- Example commands: "Alexa, turn on my heated blanket," or "Hey Google, set heated blanket to level 7."

MAINTENANCE AND CARE

Proper care ensures the longevity and performance of your heated blanket. Always follow these instructions carefully.

- Before Cleaning:** Always unplug the blanket from the wall outlet and detach the controller from the blanket. Do not immerse the controller in water.

EASY CARE

Washer and Dryer Safe

Image: A close-up demonstrating the process of unplugging the controller from the heated blanket, emphasizing the "Easy Care" and "Washer and Dryer Safe" features.

2. Machine Washing:

- Wash on a gentle cycle in cold water (maximum 30°C / 86°F).
- Use a mild detergent.
- Do not bleach.

3. Drying:

- Tumble dry on low heat or hang dry.
- Ensure the blanket is completely dry before reconnecting the controller and plugging it in.
- Do not iron.

4. Storage:

When not in use, store the blanket loosely folded in a cool, dry place. Avoid tightly folding or creasing the blanket, as this can damage the internal wiring.

TROUBLESHOOTING

If you experience issues with your Sunbeam Loftec Electric Heated Blanket, please consult the following common problems and solutions before contacting support.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Blanket is not heating.	Not plugged in securely. Controller not connected properly. Power outage or circuit breaker tripped. Blanket is folded or bunched. Safety auto-off activated.	Ensure power cord is firmly plugged into a working outlet. Check that the controller is securely connected to the blanket. Verify power to the outlet. Lay the blanket flat and ensure no folds or bunches. Turn the blanket off and on again.
Wi-Fi connection issues.	Incorrect Wi-Fi password. Router too far or signal interference. Using a 5 GHz Wi-Fi network.	Double-check Wi-Fi password. Move router closer or reduce interference. Ensure you are connecting to a 2.4 GHz Wi-Fi network. Restart the blanket and attempt pairing again.
Controller display dims or turns off.	Normal operation (dims after 30 seconds).	This is a normal feature to conserve energy. Press any button to reactivate the display.
App not responding or blanket offline.	Wi-Fi connection lost. App requires update.	Check your home Wi-Fi network. Ensure the blanket is powered on. Check for app updates in your device's app store. Restart the app or your smartphone.

SPECIFICATIONS

Feature	Detail
Brand	Sunbeam
Model Number	32810042
Material	100% Polyester (Lofttec fabric)
Color	Night Fog Grey
Size (Queen)	90" x 84"
