SOUNDLOGIC GSC-4/1791

SOUNDLOGIC XT Light-UP Four-in-One Gaming Combo Kit

MODEL: GSC-4/1791 USER MANUAL

1. Introduction

Thank you for purchasing the SOUNDLOGIC XT Light-UP Four-in-One Gaming Combo Kit. This kit provides a complete gaming solution, including a gaming keyboard, gaming mouse, gaming headphones, and a mouse pad. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your gaming accessories.

2. Product Overview

The SOUNDLOGIC XT Gaming Combo Kit is designed to enhance your gaming experience with its ergonomic design and light-up features. The kit includes the following components:

- **Gaming Keyboard:** 104-key full-sized ergonomic keyboard with F-key multimedia controls and LED lighting.
- **Gaming Mouse:** 3-button optical mouse with scroll wheel, 1000 DPI resolution, and 7-color breathing light effect.
- **Gaming Headphones:** Over-ear headphones with 40mm drivers, noise-isolating ear cushions, adjustable headband, and an omnidirectional microphone.
- **Mouse Pad:** Optimized surface for precise mouse tracking.

Figure 2.1: Overview of the SOUNDLOGIC XT Gaming Combo Kit components.

3. Setup Instructions

Follow these steps to connect your gaming combo kit to your computer or console.

3.1. Keyboard Setup

1. Locate the USB connector on the keyboard cable.
2. Plug the USB connector into an available USB port on your computer or gaming console.
3. The keyboard is plug-and-play and should be recognized automatically by your operating system.

Figure 3.1: The SOUNDLOGIC XT Gaming Keyboard.

3.2. Mouse Setup

1. Locate the USB connector on the mouse cable.
2. Plug the USB connector into an available USB port on your computer or gaming console.
3. The mouse is plug-and-play and should be recognized automatically. The 7-color breathing light will activate upon connection.

3.3. Headphones Setup

1. Identify the two 3.5mm audio jacks (one for audio, one for microphone) and the USB connector on the headphone cable.
2. Plug the 3.5mm audio jack (usually green) into your computer's audio output port.
3. Plug the 3.5mm microphone jack (usually pink) into your computer's microphone input port.
4. Plug the USB connector into an available USB port for the headphone's light-up effect.
5. Adjust your system's audio settings to select the headphones as the default playback and recording device.

4. Operating Instructions

4.1. Gaming Keyboard

- **Standard Typing:** Use the 104 standard keys for typing and input.
- **Multimedia Controls:** Utilize the F-keys (F1-F12) in combination with the 'Fn' key (if present) for multimedia functions such as volume control, play/pause, and track skipping. Refer to your operating system's settings for specific key assignments.
- **LED Lighting:** The keyboard features integrated LED lighting. The lighting is typically activated upon USB connection. Specific controls for lighting modes or brightness may vary and are usually accessed via dedicated keys or key combinations (e.g., Fn + Scroll Lock).

4.2. Gaming Mouse

- **Left/Right Click:** Standard left and right click functions.
- **Scroll Wheel:** Use for scrolling through documents and web pages. The scroll wheel also functions as a middle click button.
- **DPI Adjustment:** The mouse operates at 1000 DPI. This setting is fixed and cannot be adjusted on the mouse itself.
- **Breathing Light:** The mouse features a 7-color breathing light effect that cycles automatically.

4.3. Gaming Headphones

- **Audio Playback:** Ensure the 3.5mm audio jack is correctly connected and the headphones are selected as the default playback device in your system settings.
- **Microphone Use:** Ensure the 3.5mm microphone jack is correctly connected and the microphone is selected as the default recording device. Position the omnidirectional microphone appropriately for clear voice capture.
- **Volume Control:** Use the in-line volume wheel located on the headphone cable to adjust audio output levels.
- **Adjustable Headband:** Adjust the padded headband for a comfortable fit during extended gaming sessions.
- **LED Lighting:** The headphones feature red LED lighting, powered via the USB connection.

5. Maintenance

Proper maintenance ensures the longevity and performance of your gaming kit.

- **Cleaning:** Use a soft, dry cloth to wipe down the keyboard, mouse, and headphones. For stubborn dirt, a slightly damp cloth can be used, ensuring no liquid enters the devices. Do not use harsh chemicals or abrasive cleaners.
- **Cable Care:** Avoid sharp bends or kinks in the cables. Do not pull on the cables to disconnect devices; always

grasp the connector.

- **Storage:** Store the kit in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Mouse Pad:** The mouse pad can be gently wiped with a damp cloth and air-dried.

6. Troubleshooting

If you encounter issues with your gaming kit, refer to the following troubleshooting guide:

- **Device Not Recognized:**
 - Ensure the USB cable is securely plugged into a working USB port.
 - Try plugging the device into a different USB port.
 - Restart your computer or console.
 - Check your operating system's Device Manager (Windows) or System Information (Mac) to see if the device is listed.
- **Keyboard/Mouse Lights Not Working:**
 - Ensure the USB connection is secure. The lights are powered via USB.
 - For the keyboard, check if there's a dedicated key combination to toggle the lights (e.g., Fn + Scroll Lock).
- **No Audio from Headphones:**
 - Verify that the 3.5mm audio jack is fully inserted into the correct audio output port.
 - Check the in-line volume wheel on the headphone cable and ensure it is turned up.
 - Confirm that the headphones are selected as the default playback device in your computer's sound settings.
 - Test the headphones on another device to rule out a device-specific issue.
- **Microphone Not Working:**
 - Verify that the 3.5mm microphone jack is fully inserted into the correct microphone input port.
 - Confirm that the microphone is selected as the default recording device in your computer's sound settings and that its input level is not muted or set too low.
 - Check privacy settings in your operating system that might restrict microphone access for certain applications.
