WilTec 3100 x 1500 x 1500 mm Chicken Coop

Wiltec 3100 x 1500 x 1500 mm Grey-White Chicken Coop Instruction Manual

Model: 3100 x 1500 x 1500 mm Chicken Coop

INTRODUCTION

This manual provides essential information for the assembly, operation, and maintenance of your Wiltec 3100 x 1500 x 1500 mm Grey-White Chicken Coop. Designed for poultry and small animals, this coop offers a spacious and secure environment with a dedicated sleeping area, a free-run enclosure, and two nesting boxes. Constructed from weather-resistant wood and galvanized steel mesh, it ensures durability and protection. Please read these instructions carefully before setup and use to ensure proper functionality and longevity of the product.

SETUP INSTRUCTIONS

Careful assembly is crucial for the stability and safety of the chicken coop. Ensure all components are present before beginning assembly. It is recommended to assemble the coop on a flat, level surface.

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify against the included parts list (not provided in this manual, refer to product packaging for full list).
2. **Assemble Main House:** Construct the main sleeping house structure first, ensuring all panels are securely fastened.
3. **Attach Nesting Boxes:** Securely attach the two wooden nesting boxes to the side of the main house.
4. **Install Free Run Enclosure:** Connect the galvanized steel mesh panels to form the free-run area. Ensure all connections are tight to prevent escapes.
5. **Integrate Ramp:** Position and secure the anti-slip ramp, connecting the elevated sleeping area to the ground-level free run.

6. **Insert Pull-Out Tray:** Slide the galvanized manure tray into its designated slot beneath the main sleeping area.
7. **Final Checks:** Inspect all doors, latches, and connections to ensure they are secure and functional.

OPERATING INSTRUCTIONS

The Wiltec chicken coop is designed for ease of use and animal comfort. Follow these guidelines for daily operation:

- **Animal Access:** The anti-slip ramp provides safe passage for animals between the elevated sleeping house and the ground-level free run. Ensure the ramp is always clear of obstructions.
- **Nesting Boxes:** The two wooden nesting boxes are located on the side of the main house, offering a private and secure space for egg-laying. Regularly check and collect eggs from these boxes.

- **Ventilation:** The main house includes ventilation features to ensure adequate airflow. Do not block these vents.
- **Security:** Always ensure all doors and latches are securely closed, especially at night, to protect your animals from predators.

MAINTENANCE

Regular maintenance will extend the life of your chicken coop and ensure a healthy environment for your animals.

- **Cleaning the Manure Tray:** The galvanized pull-out tray simplifies cleaning. Regularly slide out the tray, empty it, and clean with appropriate disinfectants. Ensure it is dry before reinserting.
- **General Cleaning:** Periodically clean the entire coop, including the sleeping area, nesting boxes, and free run. Remove old bedding and replace with fresh material.
- **Wood Inspection:** Inspect the wooden components for any signs of wear, rot, or damage. Apply a weather-resistant sealant annually to protect the wood from elements.
- **Mesh Inspection:** Check the galvanized steel mesh for any damage, rust, or loose connections. Repair or replace damaged sections promptly to maintain security.
- **Hardware Check:** Ensure all screws, hinges, and latches are tight and functioning correctly. Lubricate hinges if necessary.

TROUBLESHOOTING

This section addresses common issues you might encounter with your chicken coop.

Problem	Possible Cause	Solution
Wood appears warped or cracked	Exposure to extreme weather, lack of sealant.	Apply a weather-resistant wood sealant. For minor cracks, use wood filler. For significant damage, consider replacing the affected panel.
Mesh is damaged or loose	Animal activity, wear and tear, impact.	Secure loose mesh with additional fasteners. For holes or tears, patch with new galvanized mesh or replace the entire panel if damage is extensive.

Problem	Possible Cause	Solution
Doors or ramp are sticking	Dirt buildup, wood swelling, misaligned hardware.	Clean tracks and hinges. Check for wood swelling and sand lightly if needed. Adjust or tighten hardware.
Unpleasant odors	Infrequent cleaning of manure tray and coop.	Increase frequency of cleaning the pull-out tray and the entire coop. Ensure proper ventilation.

SPECIFICATIONS

- **Brand:** Wiltec
- **Product Dimensions (L x W x H):**3.1 m x 1.5 m x 1.5 m
- **Material:** Wood, Alloy Steel
- **Special Product Uses:** Outdoor
- **Special Feature:** Multi-level design
- **Included Components:** Tray, Nesting Box
- **Number of Levels:** 2
- **Recommended Breed:** Large breeds (for chickens)
- **Color:** Grey
- **Number of Doors:** 2
- **Target Species:** Chicken (also suitable for ducks, rabbits, guinea pigs)
- **Item Weight:** 40.56 Kilograms
