FORCLAZ Onnight 100 Headlamp User Manual

Model: Onnight 100 | Brand: FORCLAZ

1. INTRODUCTION

Thank you for choosing the FORCLAZ Onnight 100 Headlamp. This manual provides essential information for the proper setup, operation, and maintenance of your headlamp. Please read it carefully before use to ensure optimal performance and longevity of the product.

Image: The FORCLAZ Onnight 100 Headlamp, featuring a compact black body with two LED lights, attached to an adjustable grey elastic strap with orange plastic buckles. The strap is designed for comfortable wear on the head or over a helmet.

2. SETUP

2.1 Battery Installation

The Onnight 100 Headlamp operates on **3 AAA (LR03) alkaline batteries**, which are included with the product. To install or replace batteries:

1. Locate the battery compartment on the back of the headlamp body.

2. Gently peel back the flexible SEBS casing to access the battery cover.
3. Open the battery cover and insert the 3 AAA batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Close the battery cover securely and re-position the SEBS casing to protect the headlamp from impacts and rain.

The monobloc construction ensures optimal compactness while the flexible casing allows easy battery access.

3. OPERATING INSTRUCTIONS

3.1 Light Modes

The Onnight 100 Headlamp features **3 distinct lighting modes**, suitable for various situations:

- **Red Mode:** Ideal for maintaining night vision or for discreet use in a shelter.
- **Economic Mode:** Suitable for walking or camping activities, providing extended battery life.
- **Strong Mode:** Designed for walking on trails, offering maximum illumination.

3.2 Switching Between Modes

The headlamp's switch is designed for easy manipulation, even when wearing gloves. Press the power button repeatedly to cycle through the different light modes. A single press typically turns the unit on or off, and subsequent presses change modes.

The classic LED lighting technology means that the illumination performance will progressively decrease as the batteries discharge, ensuring longer autonomy.

4. MAINTENANCE

4.1 Strap Care

The headlamp strap is **detachable and washable**. To clean:

1. Carefully detach the strap from the headlamp body.
2. Wash the strap by hand with mild soap and water.
3. Allow the strap to air dry completely before reattaching it to the headlamp.

The strap is composed of 70% polyester and 30% natural rubber for maximum comfort. The symmetrical double buckle adjustment system facilitates easy tightening and ensures the headlamp fits all head sizes, from children to adults, as well as mountain helmets.

4.2 General Care and Storage

- Wipe the headlamp body with a clean, damp cloth if it gets dirty. Do not use abrasive cleaners.
- If the headlamp will not be used for an extended period, remove the batteries to prevent leakage and potential damage to the device.
- Store the headlamp in a cool, dry place away from direct sunlight and extreme temperatures.

5. TROUBLESHOOTING

If you encounter issues with your FORCLAZ Onnight 100 Headlamp, please refer to the following common solutions:

- **Headlamp not turning on:** Check if the batteries are inserted correctly with the right polarity. Replace old batteries with new ones.
- **Dim light output:** This is normal as batteries discharge. Replace batteries if the light is too dim for your needs.
- **Intermittent light:** Ensure battery contacts are clean and free of corrosion. Re-insert batteries firmly.
- **Strap discomfort:** Adjust the double buckle system to find a comfortable and secure fit.

If the problem persists after trying these steps, please contact customer support.

6. SPECIFICATIONS

Feature	Detail
Model	Onnight 100
Brightness	80 Lumens (white light)
Light Source	LED
Light Modes	Red, Economic, Strong
Battery Type	3 x AAA (LR03) Alkaline (included)
