Maintenance

To ensure your PureZone Elite Air Purifier continues to operate at peak efficiency and maintain optimal air quality, regular filter replacement is crucial.

- **Replacement Frequency:** Replace your Pure Enrichment 2-in-1 True HEPA filter every 6 months. This duration may vary depending on air quality and usage frequency.
- **Visual Inspection:** Periodically inspect the filter for visible signs of dirt, dust accumulation, or discoloration. A heavily soiled filter indicates it's time for replacement, even if it's before the 6-month mark.
