ZoneFly 6Qt inner Pot &2Pack 6Qt Sealing Rings

ZoneFly Original 6 Qt Power Cooker XL Replacement Inner Pot & Sealing Rings User Manual

Brand: ZoneFly

Model: 6Qt inner Pot & 2Pack 6Qt Sealing Rings

1. Introduction and Overview

This manual provides essential information for the use and maintenance of your ZoneFly Original 6 Qt Power Cooker XL Replacement Inner Pot and 2-Pack Sealing Rings. The inner pot is constructed from food-grade 304 (18/8) stainless steel, featuring a 3-ply bottom for efficient heat distribution and a polished surface to minimize food sticking and facilitate cleaning. The included sealing rings are made from food-grade silicone, designed for optimal pressure cooking performance.

Having a secondary inner pot offers convenience for preparing multiple dishes without needing to clean the primary pot between uses. The sealing rings are crucial for maintaining the pressure seal during operation.

2. Product Features

- **High-Quality Material:** Inner pot made from durable 18/8 (Grade 304) stainless steel with a 3-ply bottom for even heat distribution. No chemical coating, ensuring safety and eco-friendliness.
- **Easy to Clean:** Mirror polished surface reduces food sticking and allows for easy cleaning by hand or in a dishwasher.
- **Safety Markings:** Inner pot includes markings at 1/5, 2/5, 3/5, 4/5, and FULL to guide safe pressure-cooking fill levels.
- **Food-Grade Sealing Rings:** Made from BPA-free, food-grade silicone, ensuring no carcinogenic substances.
- **Optimal Sealing:** Sealing rings are designed to fit snugly, ensuring proper pressure retention during cooking.

Figure 2.3: Illustration of the sealing ring's function in locking in steam for effective pressure cooking.

3. Compatibility

The ZoneFly 6 Qt Replacement Inner Pot is specifically designed for the following Power Cooker XL models:

- PPC770
- PPC770-1
- PPC771
- PRO
- WAL1
- WAL2
- PCXL-PRO6
- PCTR-16
- YBD60-100

Important Compatibility Note:
This inner pot is **NOT compatible** with 6-quart pressure cookers from other brands, including but not limited to:

- Bella
- Crockpot
- Farberware
- Insignia
- Instant Pot (for Instant Pot compatible pots, please search for B093GT5RF6)
- Majic Chef
- Mealthy
- Potasictic
- Simfonio
- Yedi

The sealing rings are compatible with 5-quart and 6-quart Power Cooker models, including PPC770, PPC770-1, PCXL-PRO6, PC-TRI6, WAL2, and PC-WAL1.

4. Setup and Installation

4.1 Inner Pot Installation

Simply place the ZoneFly 6 Qt Replacement Inner Pot into the main housing of your compatible Power Cooker XL. Ensure it sits flat and securely within the heating element area.

4.2 Sealing Ring Installation

To replace or install a sealing ring:

1. Start at the spout of your pressure cooker lid.
2. Tuck one edge of the silicone sealing ring to fit snugly around the wire sealing ring rack on the underside of the lid.
3. Continue around the lid, gently pressing down on the silicone ring with your thumb to ensure it sets completely into place.

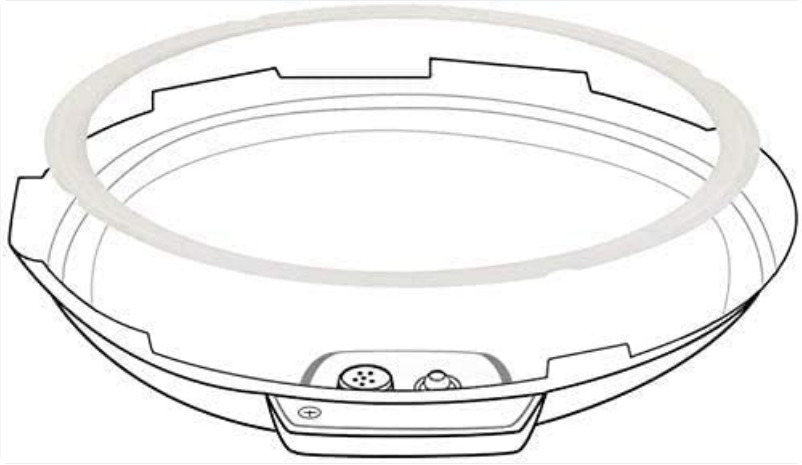

Figure 4.1: Visual guide for installing the sealing ring onto the pressure cooker lid.

5. Operating Considerations

When using the inner pot, always adhere to the maximum fill line indicated inside the pot to ensure safe pressure cooking. Pressure cookers require a minimum amount of liquid to operate correctly and build pressure. Refer to your pressure cooker's main instruction manual for specific liquid requirements for various recipes.
It is recommended to replace your Power Pressure Cooker's sealing ring every 12-18 months, or sooner if signs of wear, cracking,

or loss of elasticity are observed, to maintain optimal pressure sealing and safety.

6. Maintenance and Cleaning

Both the stainless steel inner pot and the silicone sealing rings are designed for easy cleaning.

- **Inner Pot:** The polished stainless steel surface is dishwasher safe. For hand washing, use warm soapy water and a non-abrasive sponge or cloth. Avoid harsh scouring pads that could scratch the surface.
- **Sealing Rings:** The silicone sealing rings are dishwasher safe. They can also be hand washed with warm soapy water. Ensure they are thoroughly dry before re-installing to prevent moisture buildup.

Regular cleaning helps maintain the product's appearance and extends its lifespan.

7. Troubleshooting

7.1 Inner Pot Fit

If the inner pot appears to have a slight height difference (1-3 mm) compared to your original pot, this is generally not an issue. The elasticity of the pressure cooker's sealing ring (1-3 mm) can help adjust for this minor gap, allowing the pressure cooker to function normally and maintain its seal.

7.2 Pressure Sealing Issues

If your pressure cooker is not sealing properly, ensure the sealing ring is correctly installed and free from any food debris or damage. Inspect the ring for cracks, tears, or loss of elasticity. If the ring is compromised, it should be replaced. Refer to Section 4.2 for proper installation steps.

8. Specifications

Attribute	Detail
Brand	ZoneFly
Capacity	6 Quarts
Inner Pot Material	Stainless Steel (Food Grade 304 / 18/8)
Sealing Ring Material	Food-Grade Silicone (BPA Free)
Product Dimensions	9.45"D x 9.45"W x 6.2"H
Item Weight	1.61 pounds
Dishwasher Safe	Yes
UPC	657835384319

9. Warranty and Support

For any questions, concerns, or support regarding your ZoneFly Replacement Inner Pot and Sealing Rings, please contact ZoneFly customer service. While specific warranty details are not provided in this manual, please retain your proof of purchase for any potential warranty claims.
You can typically find contact information for ZoneFly on their official website or through the retailer where the product was purchased.
