# Tivoli Audio PAL BT Portable Bluetooth AM/FM Radio

Model: PALBT-9487-NA

User Instruction Manual

## INTRODUCTION

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your Tivoli Audio PAL BT Portable Bluetooth AM/FM Radio. Please read this manual thoroughly before using your device to ensure proper functionality and longevity.

## WHAT'S IN THE BOX

Upon unboxing your Tivoli Audio PAL BT, please verify that all the following components are included:

- Tivoli Audio PAL BT Portable Bluetooth AM/FM Radio
- Owner's Manual
- Installed Li-Ion Battery Pack
- Power Supply

## PRODUCT OVERVIEW

The Tivoli Audio PAL BT is a compact and portable radio designed for both indoor and outdoor use, featuring AM/FM radio and Bluetooth connectivity. Its intuitive design includes minimal controls for ease of use.

Figure 1: Front view of the PAL BT radio, highlighting its control layout and speaker.

Figure 2: The PAL BT radio in an outdoor setting, showcasing its portable nature.

# SETUP

---

## 1. Charging the Battery

The PAL BT comes with an installed Lithium-Ion rechargeable battery pack. Before first use, fully charge the battery by connecting the provided power supply to the DC input on the back of the radio and plugging it into a wall outlet. The charging indicator light will illuminate during charging and turn off when fully charged. A full charge provides a minimum of 16 hours of playback time.

## 2. Antenna Setup

For optimal FM reception, extend the telescopic antenna fully. For AM reception, the radio utilizes an internal antenna, so no external adjustment is needed. Position the radio for best AM reception.

# OPERATING INSTRUCTIONS

---

## 1. Power On/Off and Source Selection

Rotate the left knob (labeled **OFF/AM/FM/BT**) clockwise to turn the radio on and select your desired source: **AM** for AM radio, **FM** for FM radio, or **BT** for Bluetooth. Rotate counter-clockwise to **OFF** to power down the unit.

## 2. AM/FM Radio Tuning

Once **AM** or **FM** is selected, use the large central tuning dial to select your desired radio station. The tuning indicator light will glow brightest when the best tuning is achieved for a station.

## 3. Bluetooth Pairing

1. Turn the source knob to **BT**.
2. Press and hold the easy-to-access pairing button located on the back of the radio until the Bluetooth indicator light begins to flash.
3. On your Bluetooth-enabled device (e.g., smartphone, tablet), enable Bluetooth and search for available devices.
4. Select "Tivoli Audio PAL BT" from the list.
5. Once paired, the Bluetooth indicator light will glow solid, and you can begin streaming audio from your device.

## 4. Auxiliary Input

To connect an external audio device (e.g., MP3 player) via a 3.5mm audio cable, plug the cable into the **AUX IN** port on the back of the radio. The radio will automatically switch to auxiliary input when a cable is detected.

## 5. Volume Control

Adjust the volume using the right knob (labeled **VOLUME**). Rotate clockwise to increase volume and counter-clockwise to decrease.

# MAINTENANCE

---

## 1. Cleaning

Clean the radio's exterior with a soft, dry cloth. Avoid using abrasive cleaners, waxes, or solvents as they may damage the finish. Do not allow liquids to enter the unit.

## 2. Battery Care

To maximize battery life, avoid fully discharging the battery frequently. If the unit will not be used for an extended period,

charge the battery fully before storage and recharge every few months to maintain battery health.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Battery discharged or power supply not connected.	Connect the power supply and allow the battery to charge. Ensure the power supply is securely plugged into both the radio and a working outlet.
Poor radio reception	Antenna not extended (FM) or radio poorly positioned (AM).	For FM, fully extend the telescopic antenna. For AM, rotate or reposition the radio to improve signal. Avoid placing near electronic devices that may cause interference.
Bluetooth device won't pair	Radio not in pairing mode or device too far.	Ensure the radio is set to BT mode and the pairing button on the back is pressed until the light flashes. Move your Bluetooth device closer to the radio. Ensure no other devices are currently connected to the radio.
No sound from auxiliary input	Cable not fully inserted or external device volume too low.	Ensure the 3.5mm audio cable is fully inserted into both the radio's AUX IN port and the external device. Increase the volume on both the radio and the external device.

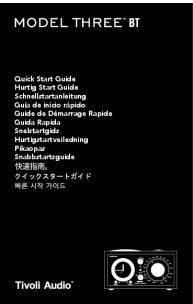

## SPECIFICATIONS

Model Number	PALBT-9487-NA
Product Dimensions	4.7 x 3.6 x 6 inches
Item Weight	1.92 pounds
Connectivity Technology	Bluetooth
Tuner Technology	AM, FM
Power Source	Battery Powered
Battery Type	1 Lithium Ion battery (included)
Battery Life	Minimum 16 hours playback
Color	Black

## WARRANTY AND SUPPORT

For warranty information and technical support, please refer to the official Tivoli Audio website or contact their customer service directly. Keep your purchase receipt as proof of purchase for warranty claims.
