TUSITA Out Front Mount

TUSITA Out Front Mount for Garmin Edge, XOSS, iGPSPORT GPS Bike Computers - Instruction Manual

Model: Out Front Mount

1. INTRODUCTION

The TUSITA Out Front Mount is designed to securely hold your GPS bike computer and other accessories on your bicycle handlebars. It provides an optimal viewing position for your device, enhancing your cycling experience by keeping essential data easily accessible. This mount is compatible with a wide range of GPS bike computers and can also accommodate action cameras or headlights.

2. PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 1 x TUSITA Out Front Mount
- 2 x Spacers (for 25.4mm and 31.8mm handlebars)
- 1 x Action Cam Adaptor
- 1 x Hex (Allen) Key

3. PRODUCT FEATURES

- **Wide Compatibility:** Compatible with all Garmin Edge / Plus / Explore / Touring, XOSS G / G+, and iGPSport GPS Computers. Designed for road bikes with 25.4mm and 31.8mm handlebars.
- **Versatile Mounting:** Includes an adapter compatible with Garmin Varia UT800 Smart Headlight and GoPro interface Sports Action Cameras, allowing for simultaneous mounting of a GPS device and another accessory.
- **Durable Construction:** Manufactured from advanced injection-molded co-polymer, ensuring strength and stability for your electronics on various terrains.
- **Secure & Stable:** Engineered to securely lock and perfectly position your computer, providing peace of mind during rides.
- **Quick & Easy Installation:** Designed for installation on bicycle handlebars in under 60 seconds, with a convenient kit for easy assembly and disassembly.

4. SETUP AND INSTALLATION

Follow these steps to install your TUSITA Out Front Mount:

1. **Prepare Handlebar:** Select the appropriate rubber spacer (25.4mm or 31.8mm) for your handlebar diameter. Place the rubber ring on your bike handle at the desired mounting position.

2. **Position Mount:** Place the TUSITA Out Front Mount over the rubber ring on your handlebar.
3. **Secure Mount:** Use the provided Hex (Allen) Key to tighten the screw, securing the mount firmly to the handlebar. Ensure it is tight enough to prevent rotation but do not overtighten.
4. **Attach GPS Computer:** Twist your Garmin Edge, XOSS, or iGPSPORT GPS computer onto the top mount until it clicks securely into place.
5. **Attach Optional Accessories:** If using, attach the action camera adapter to the underside of the mount using the provided screws. Then, mount your GoPro-compatible action camera or Garmin Varia UT800 Smart Headlight to the adapter.

5. OPERATING INSTRUCTIONS

Once installed, the TUSITA Out Front Mount allows for easy attachment and removal of your devices.

- **Attaching GPS Computer:** Align your GPS computer with the mount's interface and twist clockwise until it locks into place.
- **Removing GPS Computer:** Twist your GPS computer counter-clockwise to unlock and remove it from the mount.
- **Adjusting Angle:** The mount is rotatable, allowing you to adjust the viewing angle of your GPS device for optimal visibility.
- **Using Accessory Mount:** The integrated action cam adapter allows you to attach a GoPro-compatible camera or a headlight below your GPS computer, saving handlebar space.

6. MAINTENANCE

To ensure the longevity and optimal performance of your TUSITA Out Front Mount, follow these maintenance guidelines:

- **Regular Cleaning:** Wipe the mount with a damp cloth to remove dirt, dust, and grime. Avoid harsh chemicals that may damage the material.
- **Inspect Screws:** Periodically check all screws for tightness. Re-tighten if necessary, but do not over-tighten.
- **Check for Wear:** Inspect the mount and adapters for any signs of wear, cracks, or damage. Replace the mount if any significant damage is observed to ensure the security of your devices.
- **Storage:** When not in use for extended periods, store the mount in a cool, dry place away from direct sunlight.

7. TROUBLESHOOTING

If you encounter any issues with your TUSITA Out Front Mount, consider the following:

- **Mount is Loose:** Ensure the handlebar clamp screw is adequately tightened. If the mount still slips, verify that the correct rubber spacer is used for your handlebar diameter.
- **Device Not Securing:** Check that your GPS computer or accessory is correctly aligned with the mount's interface and twisted fully until it locks. Inspect the device's locking mechanism and the mount's interface for any obstructions or damage.
- **Accessory Adapter Issues:** Ensure the action cam adapter is securely fastened to the underside of the main mount with the provided screws.

If problems persist, please contact TUSITA customer support for further assistance.

8. SPECIFICATIONS
