## AECOJOY B08XW89ZYL

# AECOJOY 13'x10' Sun Shade Wall Canopy Sunsetter Deck Awning Gazebo User Manual

Model: B08XW89ZYL

Brand: AECOJOY

## INTRODUCTION

This manual provides essential information for the assembly, operation, and maintenance of your AECOJOY 13'x10' Sun Shade Wall Canopy Sunsetter Deck Awning Gazebo. Designed for outdoor spaces such as patios, porches, courtyards, cafes, and restaurants, this gazebo offers protection from UV rays and enhances the aesthetic appeal of your area. Its robust steel frame and durable polyester fabric are engineered for longevity and performance in various weather conditions.

## PRODUCT FEATURES

- **Sunshade Awning Gazebo:** Ideal for shading windows and creating an elegant outdoor living space.
- **Durable & Sturdy Construction:** Features heavy-duty, high-grade steel poles with a powder-coated finish for rust-resistance. Reinforced triangular design ensures stability.
- **Water & UV Resistant Fabric:** Made from polyester with PU coating, providing water resistance, anti-ultraviolet protection, and fade resistance. The sloping roof design prevents rainwater accumulation.
- **Large Shaded Area:** Covers approximately 130 square feet, with a height range of 6.5 to 8.2 feet allowing comfortable passage for adults.
- **Easy Assembly:** Designed for straightforward assembly with small pocket designs for steel ribs and fabric, and Velcro fasteners for secure attachment.

## Strong & Durable

### Triangular Structure:

*Stable Structure Offers More Support*

### Heavy-duty Thick Steel:

*Sturdiness & Non-bending*

### Powder-coated:

*Rust-resistance & Resisting all Weather*

# Product Dimensions

Image: Details of the gazebo's strong and durable construction, including the triangular support structure, heavy-duty steel, and powder-coated finish for rust resistance.

## SAFETY INFORMATION

Always ensure the awning is properly anchored to the ground or a solid structure. In windy conditions, check that the awning is securely fastened and follow the manufacturer's guidelines for wind-resistant installation. Disassemble or secure the awning during extreme weather conditions such as heavy winds, snow, or storms to prevent damage or injury.

## SETUP

The AECOJOY Sun Shade Awning Gazebo requires assembly. While specific step-by-step instructions are provided in the product packaging, the general process involves:

1. **Unpack and Identify Parts:** Carefully unpack all components and verify against the parts list provided in your product's instruction manual.
2. **Assemble the Steel Frame:** Connect the heavy-duty steel poles and crossbars according to the diagrams. Ensure all connections are secure. The design incorporates small pockets for steel ribs and fabric, and Velcro for tight fastening.
3. **Attach the Canopy Fabric:** Drape the polyester canopy fabric over the assembled frame. Utilize the integrated pockets and Velcro straps to secure the fabric firmly to the frame. Ensure the sloping roof design is correctly oriented for water runoff.

4. **Anchor the Gazebo:** Securely anchor the gazebo to a stable surface such as a wall, grass, solid brick floor or wooden deck. Reinforced triangular designs contribute to overall stability.

*Image: Product dimensions of the gazebo, showing its 13'x10' footprint and varying heights.*

## OPERATING

This awning gazebo operates manually. Once assembled and anchored, it provides continuous shade and protection. No complex mechanisms are involved in its daily use.

- **Shade Provision:** The canopy is designed to provide a large shaded area, protecting from direct sunlight and UV rays.
- **Rain Protection:** The water-resistant fabric and sloping roof design help to shed rainwater, preventing pooling.
- **Wind Management:** In moderate wind conditions, ensure the gazebo is securely anchored. For strong winds, it is recommended to remove the canopy or disassemble the structure to prevent damage.

Image: All-weather use capabilities of the gazebo, including UV protection, wind resistance (solid structure), and waterproof fabric.

## MAINTENANCE

Regular maintenance will extend the lifespan of your AECOJOY gazebo.

- **Cleaning the Canopy:** Clean the polyester canopy fabric periodically with mild soap and water. Rinse thoroughly and allow to air dry completely before storage or prolonged non-use. Avoid harsh chemicals or abrasive cleaners.
- **Frame Inspection:** Regularly inspect the steel frame for any signs of rust, loose connections, or damage. Tighten any loose bolts or screws. Address rust spots promptly with appropriate rust-inhibiting paint.
- **Anchoring Check:** Periodically check the anchoring points to ensure they remain secure, especially after strong winds or heavy rain.
- **Winter Storage:** For prolonged periods of non-use, especially during winter or severe weather, it is recommended to disassemble the canopy and store it in a dry, protected area to prevent damage from snow accumulation or extreme cold.

## TROUBLESHOOTING

| Problem                            | Possible Cause   | Solution  |
|------------------------------------|--|---|
| Water pooling on canopy            | Canopy not taut enough; improper installation angle; extreme rainfall.               | Ensure canopy is stretched tightly across the frame. Verify correct assembly to maintain the intended sloping roof. Gently push accumulated water off with a broom or soft tool.                |
| Frame appears bent or unstable     | Improper assembly; insufficient anchoring; strong winds or heavy loads (e.g., snow). | Re-check all connections and ensure they are tightened. Verify anchoring points are secure. Disassemble during high winds or heavy snow.  |
| Fabric tearing or Velcro detaching | Excessive tension during installation; material fatigue; strong winds.               | Ensure fabric is installed without excessive force. Reinforce attachment points if necessary. Consider replacing the canopy if damage is significant.   |
| Difficulty during assembly         | Misaligned parts; unclear instructions.  | Refer to the detailed assembly instructions provided with the product. Double-check part orientation before tightening. If parts are misaligned due to manufacturing, contact customer support. |

## SPECIFICATIONS

- **Brand:** AECOJOY
- **Model:** B08XW89ZYL
- **Material:** Polyester (Canopy), Steel (Frame)
- **Color:** Beige
- **Style:** Garden, Heavy Duty
- **Assembly Required:** Yes
- **Operation Mode:** Manual
- **Product Dimensions:** 156 x 120 x 98.4 inches (Length x Width x Height)
- **Shaded Area:** Approximately 130 square feet
- **Height:** 8.2 - 6.5 feet
