

HANWHA XNP-6400R

Hanwha Techwin XNP-6400R 2MP, 40x, IR PTZ Camera

USER MANUAL

Model: XNP-6400R | Brand: HANWHA

1. Introduction

This manual provides essential information for the safe and effective use of your Hanwha Techwin XNP-6400R 2MP, 40x, IR PTZ Camera. Please read this manual thoroughly before installation and operation, and retain it for future reference. The XNP-6400R is an advanced outdoor surveillance camera designed for high-performance monitoring with features such as 2MP resolution, 40x optical zoom, and infrared illumination.

2. Safety Information

Always adhere to the following safety guidelines to prevent injury or damage to the product.

- Electrical Safety:** Ensure the power source matches the camera's requirements (24 Volts DC, 40 watts). Disconnect power before any installation or maintenance.
- Installation:** Installation should be performed by qualified personnel. Securely mount the camera to a stable structure capable of supporting its weight (7.04 pounds).
- Environment:** This camera is designed for outdoor use (IP66 rated). Avoid exposing it to extreme conditions beyond its specified operating temperature range.
- Handling:** Handle the camera with care. The dome is made of polycarbonate hard-coated material, but excessive force can cause damage.

3. Product Overview

The Hanwha Techwin XNP-6400R is a high-performance PTZ (Pan-Tilt-Zoom) camera featuring advanced surveillance capabilities.

Key Features:

- 2MP resolution with 40x optical zoom for detailed imaging.
- IR illumination for clear monitoring in complete darkness up to 200 meters.
- 360° endless pan capability.
- Triple codec support: H.265/H.264/MJPEG.

- WiseStream II technology for efficient data compression.
- AI-based object tracking and advanced video analytics.
- Heat-activated lens for water drying.
- Extreme WDR (Wide Dynamic Range) and true Day/Night functionality.
- Dual SD card slots for local storage.

Camera Components:

Figure 3.1: Front view of the XNP-6400R camera. This image shows the main body of the camera, including the dome housing the lens and the upper white casing with the 'wisenet' logo.

Figure 3.2: Side view of the XNP-6400R camera. This perspective highlights the compact design and the mounting bracket at the top.

Figure 3.3: Angled view of the XNP-6400R camera. This view provides a comprehensive look at the camera's overall structure and proportions.

4. Setup

Proper setup is crucial for optimal performance and longevity of your camera.

4.1 Pre-installation Checklist:

- Verify all components are present: Camera unit, mounting hardware (if included), documentation.
- Ensure the installation location provides stable support and clear line of sight.
- Confirm availability of a compatible power source (24V DC) and Ethernet connection.

4.2 Mounting:

The XNP-6400R is designed for Wall Mount installation. Use appropriate screws and anchors for the mounting surface to ensure secure attachment. Refer to the included mounting template (if applicable) for precise drilling locations.

4.3 Connectivity:

The camera supports Ethernet connectivity. Connect a single RJ45 cable to the camera's RJ45 port. This cable will provide both power (if using Power over Ethernet - PoE, check camera specifications for PoE support) and data connection to your network video recorder (NVR) or network switch. Ensure the Ethernet cable is rated for outdoor use if exposed to elements.

4.4 Initial Power-Up:

Once mounted and connected, apply power to the camera. The camera will perform a self-test and initialize. Allow a few minutes for the camera to boot up and connect to the network. Refer to your network video recorder (NVR) or video management software (VMS) manual for adding and configuring the camera on your surveillance system.

5. Operating

The XNP-6400R offers extensive operational capabilities through its network interface.

5.1 Basic Control:

Control the camera's Pan, Tilt, and Zoom (PTZ) functions via your NVR or VMS interface. The camera supports 360°

endless pan and precise tilt adjustments. Utilize the 40x optical zoom to focus on distant objects without loss of image quality.

5.2 Infrared (IR) Illumination:

The integrated IR illuminators automatically activate in low-light conditions, providing clear black-and-white images up to 200 meters. The adaptive IR adjusts intensity to prevent overexposure of close-up objects.

5.3 Advanced Features:

- **AI-based Object Tracking:** Configure the camera to automatically track specific objects (e.g., persons, vehicles) within its field of view.
- **WiseStream II Technology:** This compression technology dynamically controls encoding, balancing quality and bandwidth to reduce data size by up to 99% compared to H.264.
- **Advanced Video Analytics:** Utilize built-in analytics such as motion detection, tampering, virtual line crossing, and sound classification (requires I/O box for audio detection/classification).
- **WDR (Wide Dynamic Range):** Ensures clear images in scenes with both very bright and very dark areas.

6. Maintenance

Regular maintenance helps ensure the camera's optimal performance and extends its lifespan.

6.1 Cleaning:

- **Lens Dome:** Gently wipe the polycarbontate hard-coated dome with a soft, clean, lint-free cloth. For stubborn dirt, use a mild, non-abrasive cleaning solution specifically designed for optical surfaces. Avoid harsh chemicals or abrasive materials.
- **Camera Body:** Wipe the aluminum body with a damp cloth. Do not spray water directly onto the camera.
- **Heat-Activated Lens:** The camera features a heat-activated lens that helps dry water. Ensure the camera has power for this feature to function effectively.

6.2 Firmware Updates:

Periodically check the Hanwha Techwin official website for firmware updates. Firmware updates can improve performance, add new features, and address security vulnerabilities. Follow the instructions provided with the firmware update package carefully.

7. Troubleshooting

This section provides solutions to common issues you might encounter.

Problem	Possible Cause	Solution
No Power	Incorrect power supply; Loose power connection; Power outage.	Verify power adapter output (24V DC); Check power cable connection; Confirm power outlet is active.
No Image/Video	Network connectivity issue; Incorrect IP address; Camera not added to NVR/VMS; Lens cap on (if applicable).	Check Ethernet cable; Verify camera's IP address and network settings; Add camera to NVR/VMS; Ensure lens is clear.

Problem	Possible Cause	Solution
Poor Image Quality	Dirty lens dome; Incorrect focus/zoom; Low light conditions; Network bandwidth issues.	Clean lens dome; Adjust focus/zoom settings; Ensure adequate lighting or rely on IR; Check network bandwidth.
PTZ Not Responding	Network communication error; Software/firmware issue.	Restart camera and NVR/VMS; Check network connection; Update camera firmware.

8. Specifications

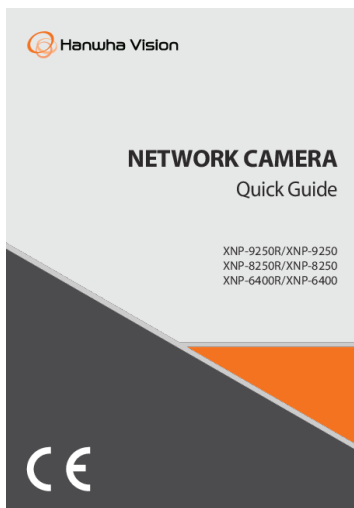

Detailed technical specifications for the Hanwha Techwin XNP-6400R camera.

Feature	Specification
Model Name	XNP-6400R
Resolution	2MP (1080p Video Capture Resolution)
Optical Zoom	40x
IR Illumination Range	Up to 200 meters
Pan/Tilt	360° endless pan
Video Compression	H.265/H.264: Main/Baseline/High, MJPEG
Frame Rate	30 fps
Connectivity	Ethernet (Wired)
Power Source	Corded Electric (24 Volts DC, 40 watts)
Indoor/Outdoor Usage	Outdoor
IP Rating	IP66
Material	Aluminum, Polycarbonate Hard-coated dome
Dimensions (L x W x H)	6.22 x 6.22 x 11.54 inches
Item Weight	7.04 pounds
Mounting Type	Wall Mount

9. Warranty and Support

For warranty information and technical support, please refer to the official Hanwha Techwin website or contact your

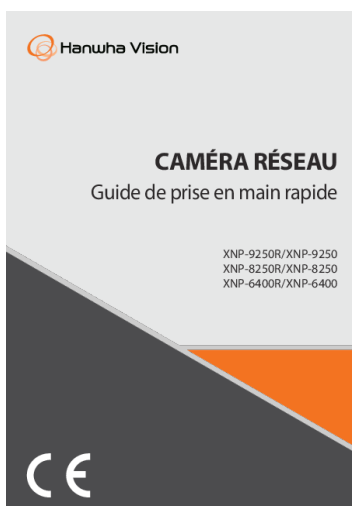

For the most up-to-date support resources, including drivers, software, and FAQs, visit the Hanwha Techwin support portal.
