Archuu V8

Archuu V8 Live Sound Card User Manual

Model: V8

PRODUCT OVERVIEW

The Archuu V8 Live Sound Card is an external USB audio mixer designed for live streaming, voice changing, and audio mixing. It features a variety of sound effects and modes, making it suitable for computer, laptop, and phone live broadcasts. This device enhances your audio experience by providing professional-grade electro-acoustic adjustments and real-time monitoring capabilities.

Front view of the Archuu V8 Live Sound Card, showing the main control knobs and effect buttons.

Key features include 112 kinds of electric sound, 18 kinds of sound effects, and 6 kinds of effect modes. It allows for precise adjustment of echo, microphone volume, high and low tones, and recording volume. The built-in lithium battery provides extended usage, and its Bluetooth connectivity enables wireless accompaniment from mobile devices.

PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- 1 x V8 Live Sound Card
- 3 x Audio Cables
- 1 x USB Cable
- 1 x English User Manual (this document)

The V8 Sound Card shown with its accompanying USB and audio cables.

Note: Due to manufacturing variations, the appearance of the sound card or cables may slightly differ from the images shown, but functionality remains consistent.

SETUP GUIDE

Follow these steps to set up your V8 Live Sound Card for various applications:

Connecting to Devices:

1. **Power Connection:** Connect the sound card to a power source (e.g., computer USB port, USB wall adapter) using the provided USB cable. The sound card has a built-in rechargeable battery for portable use.
2. **Microphone Connection:**
 - For condenser microphones, use the "Condenser mic" port.
 - For dynamic microphones, use the "Dynamic mic" port.
3. **Headset/Earphone Connection:** Plug your headset or earphones into the "Headset" or "Earphone speaker" ports for monitoring audio.
4. **Live Broadcast Connections (using Audio Cables):**
 - **Single Phone Live:** Connect one audio cable from "LIVE1" or "LIVE2" port on the sound card to the 3.5mm audio jack of your smartphone.
 - **Dual Phone Live:** Connect one audio cable from "LIVE1" to Phone 1, and another audio cable from "LIVE2" to Phone 2.
 - **Computer Live:** Connect the USB cable from the sound card to your computer. The sound card will be recognized as an audio device.
 - **Computer Accompaniment Phone Live:** Connect the USB cable to your computer for accompaniment audio, and an audio cable from "LIVE1" or "LIVE2" to your phone for live broadcast.
5. **Accompaniment Input:** Connect an external audio source (e.g., another phone, tablet) to the "Accompany Instrument" port using an audio cable to play background music.

OPERATING INSTRUCTIONS

Familiarize yourself with the controls and functions of the V8 Live Sound Card:

Detailed view of the sound card's control panel, showing knobs and effect buttons.

Control Knobs:

- **MIC (Microphone Volume):** Adjusts the input volume of your microphone. Turn clockwise to increase, counter-clockwise to decrease.
- **Monitor (Headphone Volume):** Controls the volume of the audio you hear through your connected headset or earphones.
- **Treble:** Adjusts the high-frequency components of your voice or audio.
- **Bass:** Adjusts the low-frequency components of your voice or audio.
- **Record:** Controls the recording volume level.
- **Accompany:** Adjusts the volume of the background music or accompaniment input.
- **Reverb:** Controls the amount of reverberation effect applied to the audio.

Effect Buttons:

The sound card features various effect buttons to enhance your audio. Press a button to activate the corresponding effect. Some effects include:

- **Auto tune:** Applies automatic pitch correction.
- **Pitch:** Modifies the pitch of your voice.
- **Shock-Wave:** Adds a dramatic sound effect.
- **MC:** Activates a specific microphone mode.
- **Silence:** Mutes the microphone input.
- **Dodge:** Automatically lowers background music volume when you speak.
- **Cheer, Embarrass, Gun, Despise, Debut, Kiss, Laugh, Clap, Crow, Complacent, Victory, Oh no:** These buttons trigger various sound effects for live interaction.

Bluetooth Connection:

To connect your mobile phone or tablet via Bluetooth for wireless accompaniment:

1. Ensure the V8 sound card is powered on.
2. Enable Bluetooth on your mobile device.
3. Search for "V8" or a similar device name in your device's Bluetooth settings.
4. Select "V8" to pair. Once connected, you can play music from your device through the sound card as accompaniment.

MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your V8 Live Sound Card:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the sound card. Avoid using liquid cleaners or abrasive materials.
- **Storage:** Store the sound card in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping or subjecting the device to strong impacts.
- **Battery Care:** For optimal battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in use for extended periods.

TROUBLESHOOTING

If you encounter issues with your V8 Live Sound Card, refer to the following common problems and solutions:

- **No Sound Output:**
 - Check all cable connections to ensure they are secure.
 - Verify that the MIC and Monitor volume knobs are not set to minimum.
 - Ensure the "Silence" effect button is not activated.
 - Confirm that the connected headset/speakers are functioning correctly.
 - If connected to a computer, check your computer's sound settings to ensure the V8 sound card is selected as the default input/output device.
- **Microphone Not Working:**
 - Ensure the microphone is correctly plugged into the appropriate port ("Condenser mic" or "Dynamic mic").
 - Increase the MIC volume knob.
 - Test the microphone with another device to confirm it is working.
- **Bluetooth Connection Issues:**
 - Ensure the sound card is powered on and within range of your Bluetooth device.
 - Turn off and on Bluetooth on both the sound card (if applicable, by restarting) and your mobile device.
 - Forget the device on your phone's Bluetooth settings and try pairing again.

- **Sound Distortion or Noise:**

- Reduce the MIC or Monitor volume to prevent clipping.
- Check for loose cable connections.
- Ensure there are no strong electromagnetic interferences nearby.

TECHNICAL SPECIFICATIONS

Feature	Specification
Product Dimensions	7.87 x 4.72 x 0.79 inches
Item Weight	15.9 ounces
Manufacturer	Archuu
Model Number	V8
Compatible Devices	Personal Computer, Laptop, Smartphone, Tablet
Hardware Interface	Bluetooth, USB
Audio Output Mode	Surround
Battery Type	Lithium-ion rechargeable battery
Material	ABS
Color	Black
