

Dolphin SNB 161R

Dolphin SNB-161R Rechargeable Soundbar Computer Speaker User Manual

MODEL: SNB-161R | BRAND: DOLPHIN

Introduction

Thank you for choosing the Dolphin SNB-161R Rechargeable Soundbar Computer Speaker. This manual provides essential information for the proper setup, operation, and maintenance of your new soundbar. Please read it thoroughly before use to ensure optimal performance and longevity of your device.

Safety Information

- Do not expose the device to water or excessive moisture.
- Avoid placing the soundbar near heat sources or in direct sunlight.
- Use only the specified charging cable and power adapter.
- Do not attempt to disassemble or repair the unit yourself. Refer all servicing to qualified personnel.
- Keep out of reach of children.
- Ensure proper ventilation around the device during operation.

Package Contents

Please check the box for the following items:

- Dolphin SNB-161R Soundbar Speaker (Set of 2 for Wavesync™ Bundle)
- USB Charging Cable
- User Manual

Product Overview

The Dolphin SNB-161R is a versatile rechargeable soundbar designed for computer and multimedia use, featuring a built-in clock and dynamic lighting. It supports Wavesync™ technology for pairing two speakers for enhanced stereo sound.

Figure 1: Front view of the Dolphin SNB-161R Soundbar, showing the digital clock display and integrated lights.

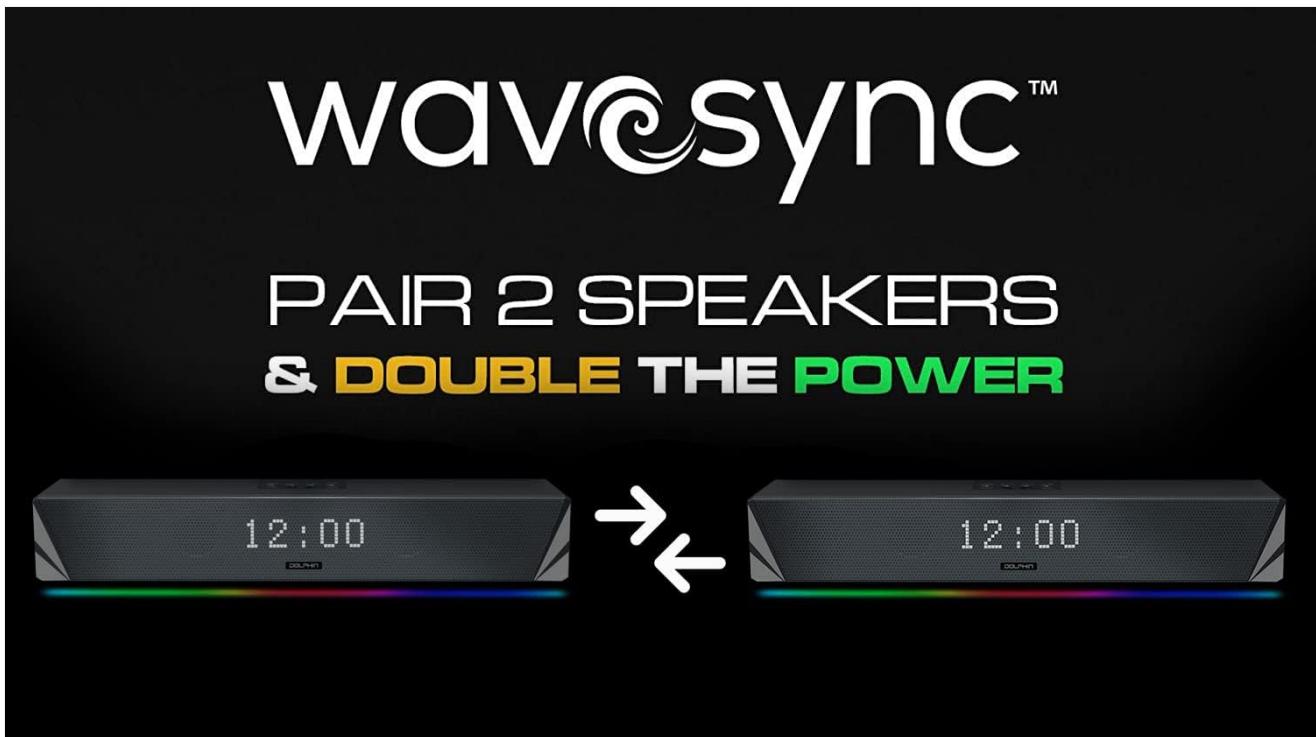

Figure 2: Side view of the Dolphin SNB-161R Soundbar, highlighting its compact design.

Figure 3: Two SNB-161R soundbars demonstrating synchronized clock displays and lighting.

Setup

- Charging the Soundbar:** Before first use, fully charge the soundbar using the provided USB cable. Connect the USB cable to the soundbar's charging port and the other end to a compatible USB power source (e.g., computer USB port, USB wall adapter). The charging indicator will show the charging status.
- Power On:** Press and hold the power button (usually located on the top or back of the soundbar) for a few seconds until the display lights up.
- Initial Connection:** Connect the soundbar to your device (Laptop, Desktop, Tablet, Smartphone) via USB. The soundbar should be recognized as an audio output device.

Operating Instructions

Basic Functions

- Power On/Off:** Press and hold the power button.
- Volume Control:** Use the volume buttons (usually marked '+' and '-') on the soundbar or your connected device to adjust the audio level.
- Clock Setting:** Refer to the specific button on your soundbar (often labeled 'SET' or 'TIME') to enter clock setting mode. Use the navigation buttons to adjust hours and minutes, then confirm.
- Light Control:** The soundbar features integrated lights. Look for a dedicated light button or a multi-function button to

cycle through light modes or turn them off.

- **Radio Function:** If equipped, press the 'MODE' button to switch to FM radio mode. Use the tuning buttons to scan for stations.

Wavesync™ Pairing (for Bundle Set)

The Wavesync™ feature allows you to wirelessly pair two SNB-161R soundbars for a true stereo experience, doubling your audio power.

Figure 4: Visual representation of Wavesync™ pairing between two SNB-161R soundbars.

1. Ensure both SNB-161R soundbars are powered on and within close proximity.
2. On one soundbar (this will be your primary unit), activate the Wavesync™ pairing mode. This is typically done by pressing and holding a dedicated 'Wavesync' or 'Pair' button. Consult the markings on your specific unit.
3. The primary unit will begin searching for the secondary unit.
4. Once connected, you will hear an audible confirmation, and the indicators on both soundbars will change to show a successful connection.
5. Now, any audio played through the primary soundbar will be distributed in stereo across both units.

Maintenance

- **Cleaning:** Use a soft, dry cloth to wipe the exterior of the soundbar. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use for extended periods, store the soundbar in a cool, dry place away from direct sunlight.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Recharge the unit periodically if stored for a long time.

Troubleshooting

Problem	Possible Cause	Solution
No power	Battery drained; Power button not pressed correctly	Charge the soundbar; Press and hold the power button until the unit turns on.
No sound	Volume too low; Incorrect input selected; Device not connected properly	Increase volume; Ensure USB connection is secure; Check audio output settings on your device.
Wavesync™ pairing fails	Soundbars too far apart; One unit not in pairing mode	Ensure units are close; Re-enter pairing mode on both units.
Clock not displaying correctly	Time not set; Power interruption	Re-set the clock using the dedicated buttons.

Specifications

- **Model Name:** SNB 161R
- **Speaker Type:** Soundbar
- **Connectivity Technology:** USB

- **Power Source:** Battery Powered
- **Audio Output Mode:** Stereo
- **Special Feature:** Radio, Clock, Lights
- **Compatible Devices:** Laptop, Desktop, Tablet, Smartphone
- **Control Method:** Button, Touch
- **Surround Sound Channel Configuration:** 2.0
- **UPC:** 810059430464
