- Unpacking:** Carefully remove all components from the packaging. Ensure all parts are present: the main cooler body, four legs with wheels, and any small hardware for attachment.
- Leg Assembly:** Attach the four legs to the main cooler body. The assembly is straightforward and typically involves securing the legs with provided screws or bolts. Ensure they are tightened securely for stability.
- Placement:** Position the cooler on a flat, stable surface outdoors. The cooler is equipped with wheels for easy movement.
