CORSAIR K55 RGB PRO Gaming Keyboard User Manual

Model: CH-9226765-NA/FF

Brand: Corsair

INTRODUCTION

The CORSAIR K55 RGB PRO Gaming Keyboard is designed to enhance your gaming and productivity with its dynamic RGB backlighting, programmable macro keys, and durable, spill-resistant design. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your new keyboard.

SETUP

Unboxing

Upon opening the packaging, you will find the CORSAIR K55 RGB PRO Gaming Keyboard, a detachable palm rest, and documentation including a warranty guide. Ensure all components are present before proceeding with setup.

Your browser does not support the video tag.

Physical Connection

Connect the keyboard's USB cable to an available USB 2.0 port on your PC or gaming console. The keyboard is plug-and-play, meaning it will be recognized by your system automatically.

Figure 2: The detachable, soft-touch palm rest provides ergonomic support for extended use.

Software Installation (CORSAIR iCUE)

For full customization of RGB lighting, macro programming, and system-wide synchronization, download and install the CORSAIR iCUE software from the official Corsair website. This software allows you to personalize your keyboard experience.

OPERATING INSTRUCTIONS

Dynamic RGB Backlighting

The keyboard features five-zone dynamic RGB backlighting. You can cycle through six onboard lighting effects by pressing the dedicated lighting mode key (M) located above the F keys. For advanced customization, including assigning colors to specific zones or programming unique lighting effects, use the CORSAIR iCUE software.

DYNAMIC FIVE-ZONE RGB BACKLIGHTING

Display your own custom lighting effects.

Control RGB backlighting, program macros, remap keys, and more with CORSAIR iCUE software.

Figure 3: The keyboard features dynamic five-zone RGB backlighting with six onboard lighting effects.

Six Dedicated Macro Keys (G-Keys)

The keyboard includes six dedicated macro keys (G1-G6) on the left side. These keys can be programmed to activate functions, shortcuts, or complex keypress sequences. Use CORSAIR iCUE software for easy setup. Additionally, these macro keys integrate with Elgato Stream Deck software for instant streaming commands.

SIX DEDICATED MACRO KEYS

Set up powerful macros and remap keys in iCUE software or create multi-action shortcuts through Elgato Stream Deck software.

ELGATO STREAM DECK SOFTWARE INTEGRATION

Figure 4: The six dedicated macro keys (G1-G6) can be programmed via iCUE or Elgato Stream Deck software.

Dedicated Media and Volume Keys

Control your media playback and audio volume conveniently with the dedicated media and volume keys located above the numeric keypad. These allow you to adjust settings on-the-fly without interrupting your game or workflow.

Figure 5: Close-up of the dedicated media control buttons and volume roller.

Windows Key Lock Button

A dedicated Windows Key lock button prevents accidental Windows and contextual menu keypresses, ensuring you won't inadvertently minimize your game during critical moments.

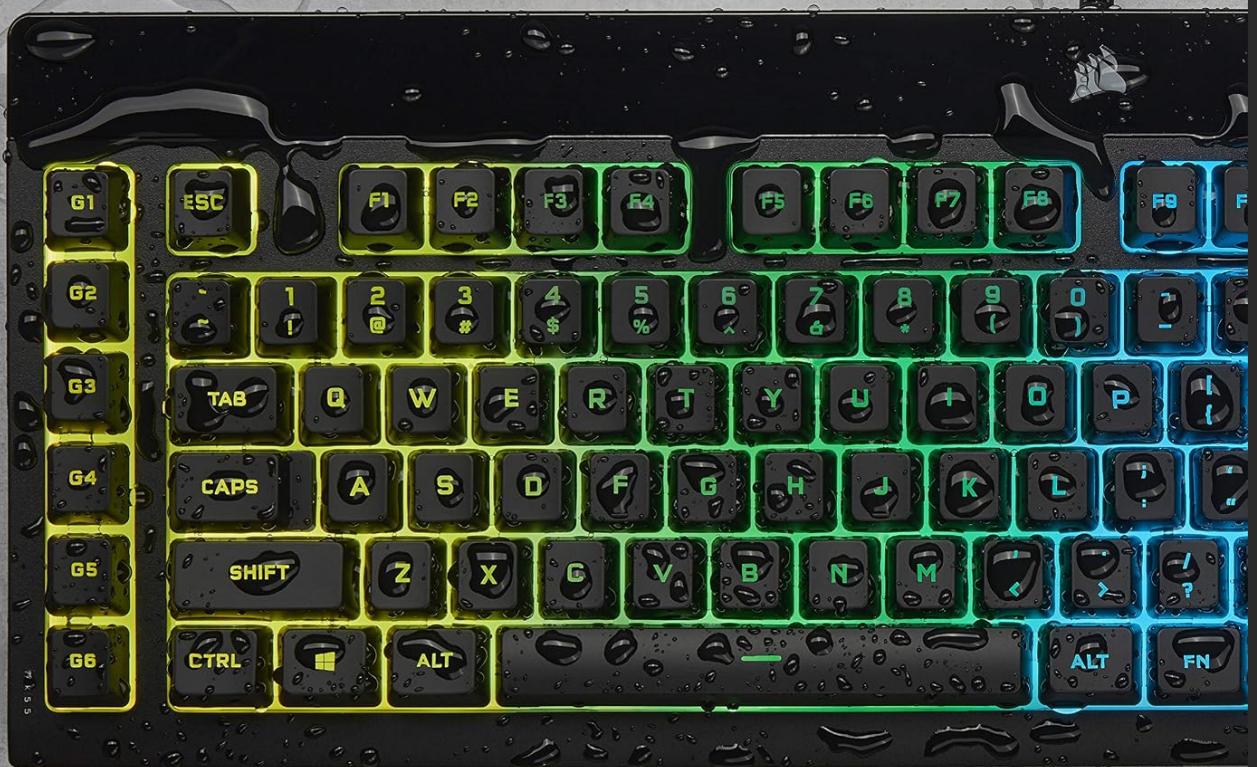

Anti-Ghosting with Selective Key Rollover

The keyboard features anti-ghosting with selective key rollover, ensuring that your FPS and MOBA game inputs always register, even with simultaneous key presses.

MAINTENANCE

Dust and Spill Resistance (IP42 Rated)

The CORSAIR K55 RGB PRO is certified for IP42 dust and spill resistance. This means it is protected against solid objects larger than 1mm and against vertically falling drops of water when tilted up to 15 degrees. While it offers protection, it is not fully waterproof. In case of spills, immediately disconnect the keyboard from your computer, wipe it dry, and allow it to air dry completely before reconnecting.

DUST AND SPILL-RESISTANCE

IP42 protection guards against accidents
so your gameplay never has to stop.

Figure 6: The keyboard's IP42 rating provides protection against dust and minor spills.

Cleaning

To clean your keyboard, use a soft, dry cloth. For stubborn dirt or grime, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the key switches or internal components. Avoid abrasive cleaners or solvents.

TROUBLESHOOTING

If you encounter issues with your CORSAIR K55 RGB PRO Gaming Keyboard, try the following basic troubleshooting steps:

- **No Power/Lights:** Ensure the USB cable is securely connected to a powered USB port. Try a different USB port or computer.
- **Keys Not Responding:** Disconnect and reconnect the keyboard. Test on another computer to rule out a system-specific issue.

- **RGB Lighting Issues:** Check CORSAIR iCUE software for any error messages or conflicting profiles. Ensure the keyboard firmware is up to date.
- **Macro Keys Not Working:** Verify macro assignments in CORSAIR iCUE or Elgato Stream Deck software. Ensure the software is running and updated.

For more detailed troubleshooting or technical support, please refer to the official CORSAIR support website or the comprehensive user manual available online.

SPECIFICATIONS
