

Kastar NOCAR-1B-FNP120-M

Kastar NP-120 FNP-120 Battery and AC Wall Charger Instruction Manual

Model: NOCAR-1B-FNP120-M

IMPORTANT SAFETY INSTRUCTIONS

Please read and understand all safety instructions before using this product. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- **DO NOT DISASSEMBLE:** Do not attempt to open or disassemble the battery or charger. There are no user-serviceable parts inside. Refer service to qualified service agents.
- **AVOID FIRE AND HIGH TEMPERATURES:** Do not dispose of the battery in fire. Do not store the battery or charger in temperatures exceeding 60°C (140°F).
- **USE SPECIFIED CHARGER ONLY:** Only charge the NP-120 FNP-120 battery with the provided Kastar AC wall charger. Using an incompatible charger may cause damage or fire.
- **PROTECT FROM MOISTURE:** To prevent fire or electric shock, do not expose the charger or battery to rain or moisture. Use in dry locations only.
- **ELECTRICAL SHOCK HAZARD:** To reduce the risk of electronic shock, do not remove the cover or back plate of the charger.
- **CERTIFICATIONS:** This product complies with CE and FCC standards.

PRODUCT OVERVIEW

This product includes one Kastar NP-120 FNP-120 Lithium-Ion battery and one compatible AC wall charger. This combination provides a reliable power solution for your compatible devices.

Kastar NP-120 FNP-120 Lithium-Ion Battery

The NP-120 FNP-120 is a high-capacity Lithium-Ion battery designed for extended use. It features a robust design for durability and consistent performance.

SETUP

1. **Unpack Components:** Carefully remove the battery and charger from their packaging.
2. **Prepare Charger:** If the charger's AC pins are folded, gently extend them until they lock into place, ready to be plugged into a wall outlet.
3. **Insert Battery:** Align the battery's contacts with the charger's contacts. Gently slide the battery into the charger until it is securely seated. Ensure the battery is inserted in the correct orientation.
4. **Connect to Power:** Plug the AC wall charger into a standard AC 100-240V 50/60Hz electrical outlet.

OPERATING

Charging the Battery

Once the battery is correctly inserted into the charger and the charger is plugged into a power outlet, the charging process will

- begin automatically.
- **Charging Indicator:** The LED indicator on the charger will illuminate **RED** to indicate that the battery is currently charging.
 - **Full Charge Indicator:** When the battery is fully charged, the LED indicator will turn **GREEN**.
 - **Charging Time:** Charging time may vary depending on the battery's remaining capacity and environmental conditions.

Using the Battery

Once fully charged, remove the battery from the charger. Insert the battery into your compatible device according to the device's instruction manual. Ensure correct orientation and secure fit.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the battery and charger. Do not use liquid cleaners or solvents.
- **Storage:** Store the battery and charger in a cool, dry place away from direct sunlight and extreme temperatures. For long-term storage, it is recommended to store Lithium-Ion batteries with a partial charge (around 50%).
- **Avoid Damage:** Do not drop, puncture, or expose the battery or charger to strong impacts.

TROUBLESHOOTING

- **Charger LED not lighting up:**
 - Ensure the charger is securely plugged into a working AC outlet.
 - Verify the battery is correctly inserted into the charger with contacts aligned.
 - Check if the AC outlet is functional by plugging in another device.
- **Battery not charging (LED remains RED for an extended period or does not turn GREEN):**
 - Remove and re-insert the battery into the charger.
 - Ensure the battery contacts and charger contacts are clean and free of debris.
 - If the issue persists, the battery or charger may be faulty. Contact customer support.
- **Battery not powering device:**
 - Ensure the battery is fully charged (charger LED is GREEN).
 - Verify the battery is correctly inserted into your device.
 - Check your device's manual for proper battery installation.

SPECIFICATIONS

Component	Specification
Battery Type	Lithium-Ion
Battery Voltage	3.7V
Battery Capacity	2300mAh
Charger Input	AC 100~240V, 50~60Hz

Component	Specification
Charger Output	DC 4.2V, 600mA
Certifications	CE, FCC

WARRANTY AND SUPPORT

Kastar products are designed for reliability and performance. This product is typically covered by an 18-month warranty from the date of purchase, as indicated on product packaging.

For technical support, warranty claims, or any questions regarding your Kastar NP-120 FNP-120 Battery and AC Wall Charger, please contact Kastar customer service through the retailer where the product was purchased or visit the official Kastar website for contact information.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
