MeeFar HITCH 20 Cubic Feet

MeeFar Hitch Mount Cargo Carrier Bag (20 Cubic Feet) Instruction Manual

Model: HITCH 20 Cubic Feet

1. Introduction

This manual provides detailed instructions for the safe and effective use of your MeeFar Hitch Mount Cargo Carrier Bag. Designed for vehicles equipped with a steel cargo basket, this soft-shell carrier offers 20 cubic feet of additional, waterproof storage. Please read all instructions carefully before installation and use to ensure optimal performance and safety.

2. Package Contents

Verify that all components are present in your package:

- 1 x MeeFar Hitch Mount Cargo Carrier Bag (20 Cubic Feet)
- 8 x Reinforced Straps
- 1 x Combination Lock
- 1 x Storage Bag

3. Setup and Installation

The MeeFar Hitch Mount Cargo Carrier Bag is designed for use with a steel cargo basket mounted on a vehicle's hitch receiver. Ensure your vehicle has a compatible hitch and cargo basket before proceeding.

Image 3.1: The MeeFar cargo carrier bag securely installed on a hitch-mounted cargo basket at the rear of an SUV.

Image 3.2: Illustration showing the compatibility of the cargo bag with a hitch-mounted carrier rack or a truck bed.

3.1. Preparation

1. Ensure your steel cargo basket is properly installed and secured to your vehicle's hitch receiver according to its manufacturer's instructions.
2. Clean the surface of the cargo basket to prevent dirt or debris from damaging the cargo bag.

3.2. Placing the Cargo Bag

1. Unfold the MeeFar cargo bag and place it centered on the steel cargo basket.
2. Ensure the zipper opening is facing towards the rear of the vehicle for easier access.

3.3. Loading Items

1. Open the zipper and begin loading your items. Distribute weight evenly within the bag.
2. Avoid overstuffing the bag beyond its 20 cubic feet capacity (approximately 6-8 suitcases).
3. Place heavier items at the bottom and center to maintain vehicle stability.

3.4. Securing the Bag

1. Close the zipper completely. Ensure the extended flap covers the zipper for maximum waterproofing.
2. Route the 8 reinforced straps through the designated loops on the bag and around the steel cargo basket.
3. Tighten all straps firmly to secure the bag to the basket, ensuring there is no slack. The bag should be taut and stable.

3.5. Applying the Combination Lock

1. Use the provided combination lock to secure the zipper pulls together. This prevents accidental opening and adds a layer of security for your luggage.
2. Set your desired combination for the lock according to its individual instructions.

Image 3.3: A detailed view of the combination lock securing the zipper pulls of the cargo bag, enhancing luggage security.

4. Operating Instructions

The MeeFar Cargo Carrier Bag is constructed from 600D PVC tarpaulin with high-frequency voltage technology, ensuring 100% waterproof performance. The design includes an extended flap over the zipper for enhanced protection against

moisture.

Image 4.1: A close-up demonstrating the waterproof sealing of the cargo bag, highlighting the material and extended zipper flap.

4.1. During Travel

- Periodically check the tension of the straps during long journeys, especially after the first few miles, and re-tighten if necessary.
- Avoid sudden maneuvers or excessive speeds that could destabilize the vehicle or cargo.
- Be aware of the increased length of your vehicle due to the hitch-mounted carrier, particularly when backing up or parking.

4.2. Unloading

1. Park your vehicle in a safe, level location.
2. Unlock and remove the combination lock.
3. Loosen the reinforced straps and unclip them from the cargo basket.
4. Open the zipper and carefully remove your items.

5. Maintenance

Proper maintenance will extend the life of your MeeFar Cargo Carrier Bag.

5.1. Cleaning

- Wipe the exterior of the bag with a damp cloth and mild soap if necessary.
- Rinse thoroughly with clean water and allow to air dry completely before storing.
- Do not use harsh chemicals or abrasive cleaners, as these can damage the waterproof coating.

5.2. Storage

- Ensure the bag is clean and completely dry before folding.
- Fold the bag compactly and store it in the provided storage bag in a cool, dry place away from direct sunlight.

Image 5.1: Visual guide demonstrating how the cargo bag can be easily folded and stored in its compact storage bag.

6. Troubleshooting

6.1. Water Leakage

- **Issue:** Items inside the bag are wet after rain.
  Solution: Ensure the zipper is fully closed and the protective flap is completely covering the zipper line. Verify that the bag is not overstuffed, which can strain seams or zippers.

6.2. Straps Loosening

- **Issue:** Straps become loose during travel.
  Solution: Re-tighten all 8 reinforced straps firmly. Ensure they are correctly routed through the buckles and loops. Check for any obstructions preventing full tension.

6.3. Zipper Difficulty

- **Issue:** Zipper is difficult to open or close.
  Solution: Avoid overstuffing the bag, which puts stress on the zipper. Ensure the zipper path is clear of fabric. A small amount of zipper lubricant (e.g., silicone spray) can be applied if needed.

7. Specifications

Feature	Detail
Brand	MeeFar
Model	HITCH 20 Cubic Feet
Mounting Type	Hitch Mount (for steel cargo baskets)
Item Volume	20 Cubic Feet
Shell Type	Soft
Product Dimensions	59"L x 24"W x 24"H (149.86 cm x 60.96 cm x 60.96 cm)
