

Suite Bebe 27475-MBL

Suite Bebe Brees Guard Rail Instruction Manual

Model: 27475-MBL

INTRODUCTION

This instruction manual provides essential information for the safe assembly, installation, use, and maintenance of your Suite Bebe Brees Guard Rail. This guard rail is designed specifically to convert the Suite Bebe Brees crib into a toddler bed, providing a secure sleeping environment for your child during the transition from crib to bed. Please read all instructions carefully before assembly and retain this manual for future reference.

IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these warnings and the assembly instructions could result in serious injury or death.

- Always ensure all parts are securely fastened. Periodically check all screws and bolts for tightness.
- Do not use this guard rail if any parts are missing, damaged, or broken. Contact Suite Bebe for replacement parts. Do not substitute parts.
- This guard rail is intended for use with the Suite Bebe Brees crib only. Using it with other crib models may compromise safety.
- Ensure the mattress fits snugly within the bed frame and against the guard rail to prevent entrapment.
- Keep small children away from the assembly area during installation.
- Never use plastic shipping bags or other plastic film as mattress covers. They can cause suffocation.
- Do not place the bed near windows where cords from blinds or drapes could strangle a child.
- Do not place items with a string, cord, or ribbon around a child's neck, such as hood strings or pacifier cords. Do not suspend strings over a toddler bed or attach strings to toys.

WHAT'S IN THE BOX

Please check to ensure all components are present before beginning assembly. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

- Suite Bebe Brees Guard Rail (1)
- Assembly Hardware (screws, bolts, etc.)
- Assembly Instructions (this manual)

SETUP AND ASSEMBLY INSTRUCTIONS

This guard rail is designed for easy assembly and conversion of your Suite Bebe Brees crib. Two adults are recommended for assembly.

1. **Prepare the Crib:** Ensure your Suite Bebe Brees crib is empty and the mattress is removed. Carefully remove the front rail of the crib according to your crib's original assembly instructions. Store the removed crib rail and hardware in a safe place for potential future use.
2. **Position the Guard Rail:** Align the Suite Bebe Brees Guard Rail with the designated attachment points on the crib's side panels where the front rail was previously attached. The guard rail should be positioned to allow an opening for your child to enter and exit the bed.
3. **Attach the Guard Rail:** Using the provided hardware, securely attach the guard rail to the crib's side panels. Ensure all screws and bolts are tightened firmly with the appropriate tool (not included, typically an Allen wrench or screwdriver). Do not overtighten.
4. **Verify Stability:** Once attached, gently shake the guard rail to ensure it is stable and securely fastened. There should be no wobbling or loose connections.
5. **Replace Mattress:** Carefully place the crib mattress back into the converted toddler bed. Ensure the mattress fits snugly against the guard rail and the remaining crib sides, leaving no gaps that could pose an entrapment hazard.

Figure 1: Front view of the Suite Bebe Brees Guard Rail installed on a crib, converting it into a toddler bed. The guard rail is midnight blue and features vertical slats, providing a partial barrier on one side of the bed.

Figure 2: Angled side view of the Suite Bebe Brees Guard Rail on a crib, showing the guard rail's position relative to the mattress and the crib's headboard and footboard. The guard rail is midnight blue with wooden accents on the end panels.

OPERATING INSTRUCTIONS

Once properly installed, the Suite Bebe Brees Guard Rail functions as a stationary safety barrier for your child's toddler bed. No specific operational steps are required beyond ensuring its secure attachment.

- **Regular Checks:** Periodically check all connections to ensure the guard rail remains securely attached to the crib frame. Tighten any loose hardware immediately.
- **Mattress Fit:** Always ensure the mattress fits snugly within the bed frame and against the guard rail to prevent any gaps where a child could become entrapped.
- **Supervision:** While the guard rail provides a safety barrier, adult supervision is always recommended, especially for younger children transitioning to a toddler bed.

MAINTENANCE AND CARE

Proper care will help maintain the appearance and longevity of your guard rail.

- **Cleaning:** To clean the guard rail, wipe with a damp cloth. Use mild soap if necessary, then wipe dry immediately. Avoid abrasive cleaners, harsh chemicals, or strong detergents, as these can damage the finish.
- **Inspection:** Regularly inspect the guard rail for any signs of wear, damage, or loose parts. Address any issues promptly.

- **Storage:** If storing the guard rail, ensure it is clean and dry. Store in a cool, dry place away from extreme temperatures and humidity.

TROUBLESHOOTING

If you encounter any issues with your Suite Bebe Brees Guard Rail, please refer to the following common solutions:

- **Guard Rail is Wobbly:**
Ensure all assembly hardware (screws, bolts) are securely tightened. Re-check each connection point. If the issue persists, disassemble and reassemble, ensuring proper alignment of parts.
- **Parts are Missing or Damaged:**
Do not attempt to use the guard rail with missing or damaged parts. Contact Suite Bebe customer support for replacement parts. Do not use non-original parts.
- **Mattress Does Not Fit Snugly:**
Verify that the guard rail is correctly installed and that you are using the recommended mattress size for the Suite Bebe Brees crib. There should be no gaps larger than 1.25 inches (3.2 cm) between the mattress and the guard rail or bed frame.

If these steps do not resolve your issue, please contact Suite Bebe customer support for further assistance.

SPECIFICATIONS

Feature	Detail
Brand	Suite Bebe
Model Number	27475-MBL
Product Dimensions	21.25"W x 13.5"H
Material	Wood
Color	Midnight Blue
Item Weight	2.84 pounds
Compatibility	Suite Bebe Brees Crib (sold separately)
