SAFETY INFORMATION

WARNING: This product contains small parts which may pose a choking hazard. Not suitable for children under 3 years of age without adult supervision. Always ensure the model is handled appropriately to prevent accidental ingestion of small components.

SETUP AND INITIAL INSPECTION

1. **Unboxing:** Carefully remove the model from its packaging. Retain the packaging for future storage or transport if desired.
2. **Initial Inspection:** Examine the model for any visible damage or loose parts that may have occurred during shipping. While Maisto models are robust, gentle handling is always recommended.
3. **Placement:** Place the model on a stable, flat surface away from direct sunlight, extreme temperatures, and high humidity to prevent material degradation or paint fading.

HANDLING AND DISPLAY

The Maisto BMW R 1250 GS is a detailed collectible model. Proper handling and display are crucial for its preservation.

- **Handling:** Always pick up the model by its main body or base. Avoid holding it by delicate parts such as mirrors, handlebars, or antennas, as these can be fragile.
- **Display Environment:**
 - Display the model in a dust-free environment, preferably in a display case, to minimize dust

accumulation and protect it from accidental damage.

- Avoid placing the model near heat sources, open windows, or in direct sunlight, which can cause discoloration or warping over time.
- **Movement:** While some parts like handlebars and wheels may be articulated, excessive or forceful manipulation can cause damage. Handle with care.

MAINTENANCE AND CARE

Regular, gentle cleaning will help maintain the appearance of your die-cast model.

- **Dusting:** Use a soft, dry brush (like a makeup brush) or a microfiber cloth to gently remove dust from the model's surface. For intricate areas, compressed air can be used carefully.
- **Cleaning:** If necessary, lightly dampen a soft cloth with water (and a tiny drop of mild soap if needed) to wipe down surfaces. Avoid harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the paint finish or decals.
- **Storage:** If storing the model, use its original packaging or a protective container to prevent dust and physical damage. Ensure it is stored in a cool, dry place.

COMMON CONCERNS AND PREVENTION

- **Loose Parts:** If a small part becomes loose, it may be reattached using a small amount of model-safe adhesive. Exercise caution and ensure proper alignment.
- **Paint Damage:** To prevent scratches or chips, avoid abrasive contact with other objects. Store and display the model where it is unlikely to be knocked or dropped.
- **Discoloration:** Protect the model from prolonged exposure to direct sunlight or strong artificial light sources to prevent paint fading or plastic discoloration.

SPECIFICATIONS
