GRABBER BUDDY 48" & 60" Reacher Tool

GRABBER BUDDY Reacher Tool User Manual

Models: 48" & 60" Reacher Tools

INTRODUCTION

Thank you for choosing the GRABBER BUDDY Reacher Tool. This manual provides essential information for the safe and effective use of your 48-inch and 60-inch reacher tools. Please read these instructions carefully before use and retain them for future reference.

2-PACK **48" & 60"**

PRODUCT OVERVIEW

The GRABBER BUDDY Reacher Tool is designed to assist in picking up objects from various heights and locations, reducing the need for bending or stretching. Key features include:

- **Ergonomic Handle:** Comfortable grip with rubber inserts for secure handling.
- **Adjustable Angle Handle:** Pivots 90 degrees for versatile use in different tasks and tight spaces.
- **Rubber Grip Tips:** Located on the jaw tips, these inserts firmly and securely grip objects, wet or dry.
- **Dual Powerful Magnets:** Integrated for picking up small metallic items.
- **Wide Jaw Opening:** A 4 5/8" jaw opening accommodates a broad range of object sizes.

SETUP

The GRABBER BUDDY Reacher Tool comes pre-assembled and ready for immediate use. No complex setup or battery installation is required.

1. **Unpack:** Carefully remove the reacher tool from its packaging.
2. **Inspect:** Before first use, inspect the tool for any visible damage. Ensure all components, including the handle, shaft, and jaw, are securely attached and functional.
3. **Familiarize:** Hold the tool and practice opening and closing the jaw by squeezing the handle. Test the handle rotation button to understand its mechanism.

OPERATING INSTRUCTIONS

Follow these steps for effective and safe operation of your GRABBER BUDDY Reacher Tool:

1. **Grasping Objects:**
 - Position the open jaws around the desired object.
 - Gently squeeze the handle to close the jaws, ensuring the rubber tips make firm contact with the object.
 - Lift the object carefully. Avoid excessive force, especially with fragile items.

Image: Using the reacher tool to pick up a water bottle.

2. Using the Magnets:

- For small metallic items like keys, coins, or pins, position the magnets located on the jaw tips near the object.
- The powerful magnets will attract and hold the metallic item.

3. Adjusting Handle Angle:

- Press the handle rotation button located near the handle.

- Rotate the handle 90 degrees to change its orientation. This is useful for reaching into tight spaces or for specific lifting angles.
- Release the button to lock the handle in the desired position.

Safety Precautions:

- Do not use the tool to pick up hot, sharp, or hazardous materials.
- Avoid exceeding the tool's lifting capacity.
- Keep out of reach of children when not in use.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your GRABBER BUDDY Reacher Tool.

- **Cleaning:** Wipe the tool with a damp cloth as needed. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the tool in a dry place, away from extreme temperatures.
- **Inspection:** Periodically check the rubber tips and handle mechanism for wear and tear. Replace the tool if significant damage is observed.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Jaws not gripping firmly.	Rubber tips are dirty or worn. Object is too heavy or awkwardly shaped.	Clean rubber tips. Ensure object is within the tool's capacity and positioned correctly.
Handle rotation is stiff.	Accumulated dirt or debris in the pivot mechanism.	Clean the pivot area. Apply a small amount of silicone lubricant if necessary (avoiding contact with grip surfaces).
Magnets not picking up items.	Item is not metallic or is too heavy for the magnet.	Confirm the item is ferrous metal. Use the jaws for non-magnetic items.

SPECIFICATIONS

Models:	48-inch and 60-inch lengths
Jaw Opening:	4 5/8 inches
Handle Rotation:	90 degrees
Features:	Dual powerful magnets, ergonomic handle with rubber inserts, rubber grip tips on jaws.
Manufacturer:	DSD Group
ASIN:	B08YFKK6GP
