3. SETUP AND ASSEMBLY

Follow the detailed instructions provided in the included booklet to assemble your LEGO Speed Champions Toyota GR Supra. The building process is designed to be engaging and straightforward for the recommended age group of 7 years and up.

Assembly Steps:

1. **Unpack Components:** Carefully open the packaging and sort the LEGO building elements. It is recommended to organize pieces by color or type to facilitate the building process.
2. **Follow Instruction Booklet:** Refer to the step-by-step visual guide in the instruction manual. Each step clearly indicates which pieces are needed and how they connect.
3. **Build the Chassis:** Begin by constructing the wider 8-stud chassis, which forms the base of the vehicle. This design allows for a 2-seat cockpit, enhancing the model's authenticity.

4. **Assemble the Bodywork:** Attach the yellow body panels, ensuring all connections are secure. Pay attention to the detailed front and rear sections, including the headlights and taillights.
5. **Install Wheels:** Securely attach the black wheels to the chassis. The set often includes interchangeable wheel rim designs for customization.
6. **Construct Minifigure:** Assemble the Toyota racing driver minifigure and equip it with the racing suit, safety helmet, and wrench.
7. **Place Minifigure:** The minifigure can be placed in the cockpit of the completed car.

4. OPERATING AND PLAY

Once assembled, your LEGO Toyota GR Supra is ready for high-energy racing action or display.

- **Racing Action:** The sturdy construction and rolling wheels allow for smooth movement across flat surfaces, perfect for imaginative races.
- **Minifigure Interaction:** The included racing driver minifigure can be placed in the cockpit, enhancing role-play scenarios. The wider chassis provides ample space for the minifigure.
- **Display:** The authentically detailed replica is designed to be a striking display piece. Showcase it on a shelf, desk, or alongside other LEGO Speed Champions models.
- **Customization:** Experiment with the included alternate wheel rim designs to give your Toyota GR Supra a personalized look.

5. MAINTENANCE

To ensure the longevity and cleanliness of your LEGO model, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft cloth or brush to gently remove dust. For deeper cleaning, wash LEGO bricks by hand using lukewarm water (not exceeding 104°F or 40°C) and a mild detergent. Rinse thoroughly and air dry. Avoid using hot water, harsh chemicals, or abrasive materials, as these can damage the plastic.
- **Storage:** Store your LEGO model in a cool, dry place away from direct sunlight to prevent discoloration and warping of the plastic elements.
- **Handling:** Handle the model with care to prevent pieces from detaching or breaking.

6. TROUBLESHOOTING

If you encounter any issues during assembly or with your completed model, consider the following:

- **Missing Pieces:** In the rare event of a missing piece, please visit the official LEGO Customer Service website to request replacement parts.
- **Assembly Difficulty:** Double-check the instruction manual to ensure all steps have been followed correctly. Sometimes a small oversight can lead to difficulties in subsequent steps. Ensure pieces are firmly pressed together.
- **Loose Connections:** If parts feel loose, try re-attaching them firmly. LEGO bricks are designed for a secure fit.
