This video provides a comprehensive overview of the Marvel Legends Series Tigra action figure, demonstrating its features, articulation, and included accessories.

What's Included

Your Marvel Legends Series Tigra figure comes with the following components:

- 1 x Marvel’s Tigra Action Figure
- 3 x Accessories (typically an alternate head and two interchangeable hands)

This view shows the Tigra figure alongside its additional accessories: an alternate head with a roaring expression and two sets of interchangeable hands, allowing for varied display options.

Safety Information

WARNING: CHOKING HAZARD – Small parts. Not for children under 3 years.

This product is recommended for ages 4 and up. Please ensure that all small parts are kept away from young children to prevent choking hazards.

Setup and Assembly

The Marvel Legends Tigra figure comes ready for display, but you can customize its appearance using the included accessories. To attach or swap parts:

1. **Interchangeable Heads:** Gently pull the existing head straight up from the neck peg. Align the desired alternate head with the neck peg and push down firmly until it is securely in place.
2. **Interchangeable Hands:** Carefully pull the existing hand straight out from the wrist joint. Insert the peg of the desired alternate hand into the wrist joint and push firmly until it clicks into place.

Always apply gentle, even pressure when attaching or detaching parts to avoid damage to the figure or accessories.

Operating and Posing

The Marvel Legends Tigra figure features premium articulation points designed for a wide range of dynamic poses. To pose your figure:

- **Joint Movement:** Gently manipulate the joints at the neck, shoulders, elbows, wrists, torso, hips, knees, and ankles to achieve desired stances.
- **Tail Articulation:** The prehensile tail can be bent and positioned to enhance dynamic poses and character expression.
- **Stability:** For more complex or action-oriented poses, ensure the figure's feet are flat on a stable surface or consider using an action figure stand (not included) for added support.

The Tigra figure is posed dynamically, demonstrating its extensive articulation and readiness for action, with claws extended and tail curved.

Maintenance

To ensure the longevity and appearance of your Marvel Legends Tigra figure:

- **Cleaning:** Wipe the figure gently with a soft, dry cloth to remove dust. For stubborn dirt, a slightly damp cloth can be used, but avoid harsh chemicals or abrasive materials.
- **Storage:** Store the figure away from direct sunlight, extreme temperatures, and high humidity to prevent discoloration or material degradation.
- **Handling:** Handle the figure by its main body parts rather than small accessories or delicate joints to prevent breakage.

Troubleshooting

While the Marvel Legends Tigra figure is designed for durability, minor issues may occasionally arise:

- **Stiff Joints:** If a joint is stiff, gently warm the area with a hairdryer on a low setting for a few seconds (do not overheat) to loosen the plastic, then carefully attempt to move the joint.
- **Loose Joints:** For excessively loose joints, a small amount of clear nail polish or a specialized joint-tightening fluid can be applied to the peg and allowed to dry, creating more friction.
- **Accessories Not Fitting:** Ensure you are using the correct accessory for the intended peg. If still difficult, gently warm the accessory or the receiving hole with a hairdryer to make the plastic more pliable.

If you encounter persistent issues, please refer to the Warranty and Support section for further assistance.
