**Instant 150-0001-01**

# Instant HEPA Quiet Air Purifier User Manual

Model: 150-0001-01 | Brand: Instant

## INTRODUCTION

The Instant HEPA Quiet Air Purifier is designed to deliver cleaner air and peace of mind. It features advanced filtration and plasma ion technology to remove impurities from your indoor environment. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your air purifier.

Figure 1: Instant HEPA Quiet Air Purifier (Charcoal, Small Room)

## SETUP

---

1. **Unpack:** Carefully remove the air purifier and all packaging materials from the box.
2. **Filter Installation:** The filter may come pre-installed or require installation. Ensure the HEPA-13 filter with carbon layer is correctly placed inside the unit. Refer to the "Maintenance" section for detailed filter access instructions.
3. **Placement:** Place the air purifier on a flat, stable surface in the desired room. Ensure there is adequate space around the unit for optimal airflow. Avoid placing it directly against walls or furniture.
4. **Power Connection:** Plug the power cord into a standard electrical outlet.

## OPERATING INSTRUCTIONS

---

Your Instant Air Purifier is equipped with intuitive controls for ease of use.

**Intelligent sensors that monitor and track air quality throughout the day<sup>3</sup>**

Figure 3: Control Panel Overview

- **Power On/Off:** Press the power button ( ) to turn the unit on or off.
- **Auto Mode:** The air purifier automatically senses air quality and adjusts fan speed. A light band indicates air quality: white (good), orange (okay), or red (poor).

**AP100 cleans up to 630 sq ft / 59 sqm<sup>\*5</sup>**  
Works well for a bedroom, den, or home office

\*Based on one air change per hour.

Figure 4: Air Purifier in operation, covering up to 630 sq ft per hour.

- **Fan Speed Adjustment:** Manually adjust fan speed using the fan icon button (↻). Multiple settings are available.
- **Plasma Ion Technology:** Activate or deactivate the plasma ion technology using the ION button (⚡ION). This feature projects positive and negative ions for enhanced air cleaning.

Figure 5: Advanced filtration system and plasma ion technology remove 99.9% of bacteria, viruses, and mold from treated air.

- **Whisper-Quiet Mode:** The light sensor automatically turns off displays and lowers noise to whisper-quiet levels when

- the room darkens, ideal for nighttime use.
- **Eco Mode:** This mode cycles the fan on and off every 10 minutes if air quality is detected as good for 30 minutes, reducing energy consumption by 50%.

- Video 1: Instant Air Purifier ECO Mode Demonstration. This video shows the air purifier's ECO mode, which helps conserve energy by cycling the fan on and off when air quality is good.

## MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your air purifier.

- **Filter Replacement:** The high-quality air filter can last up to 12 months. The filter icon on the control panel will light up when it's time for replacement.
- Your browser does not support the video tag.
- Video 2: Instant Air Purifier Filter Cleaning and Replacement. This video demonstrates the process of cleaning and replacing the air filter for the Instant Air Purifier.
1. Unplug the air purifier from the power outlet.
  2. Place the air purifier on its side.
  3. Twist and remove the bottom panel.
  4. Remove the old filter and dispose of it properly.
  5. Insert a new Instant Air Purification Replacement Filter.
  6. Replace the bottom panel by twisting it back into place.
  7. Plug the air purifier back in.
  8. Hold down the Filter icon on the control panel for 3 seconds to reset the filter indicator.
- **Cleaning the Exterior:** Only use a dry cloth to clean the outside of the air purifier. Do not use liquid cleaners or abrasive materials.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not turn on.	Not plugged in; power outage; filter not installed correctly.	Ensure power cord is securely plugged in; check household circuit breaker; ensure filter is properly seated and bottom panel is secured.
Airflow is reduced.	Clogged filter.	Replace the air filter as per "Maintenance" instructions.
Unpleasant odor from unit.	Filter needs replacement.	Replace the air filter.
Air quality indicator always red/orange.	High levels of airborne particles; sensor obstructed.	Allow unit to run longer in Auto mode; ensure sensor area is clean and unobstructed.

## SPECIFICATIONS

**Brand:** Instant

**Model Number:** 150-0001-01

**Color:** Charcoal

**Product Dimensions:** 8.6"D x 8.6"W x 13.5"H

**Floor Area Coverage:** Up to 126 sq ft (exchanges air 5 times per hour)

**Filtration System:** HEPA-13 filter with carbon layer, Plasma Ion Technology

**Noise Level:** 5 dB (Whisper-Quiet mode)

**Wattage:** 38 watts

**Controller Type:** Button Control

**UPC:** 810028584730

**Certification:** Energy Star Certified
