Instant HEPA Quiet Air Purifier User Manual

Model: 150-0005-01

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation of your Instant HEPA Quiet Air Purifier. Please read this manual thoroughly before using the appliance and retain it for future reference.

The Instant Air Purifier is designed to deliver cleaner air, enhancing your indoor environment. It features advanced filtration and plasma ion technology to capture ultrafine impurities and reduce odors.

Figure 1: Instant HEPA Quiet Air Purifier (Charcoal, Large Room model)

This image shows the Instant HEPA Quiet Air Purifier in its charcoal color, standing upright. The top features a control panel with a digital display and fan vents, while the lower section has a perforated design for air intake.

2. IMPORTANT SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury to persons.

- Read all instructions before using the appliance.
- Do not operate any appliance with a damaged cord or plug.
- Do not use outdoors or on wet surfaces.
- Unplug from outlet when not in use and before cleaning.
- Keep the cord away from heated surfaces.
- Do not immerse the appliance in water or other liquids.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

- Children should be supervised to ensure that they do not play with the appliance.
- **Proposition 65 Warning:** This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

3. SETUP AND INSTALLATION

Follow these steps to set up your air purifier for the first time.

1. **Unpack the Unit:** Carefully remove the air purifier from its packaging. Retain packaging for future storage or transport.
2. **Remove Filter Packaging:** Before first use, open the filter compartment (usually at the bottom) and remove the plastic packaging from the HEPA-13 filter. Reinsert the filter securely.
3. **Placement:** Place the air purifier on a firm, level surface. Ensure there is adequate space around the unit (at least 6 inches) for proper airflow. Avoid placing it directly against walls or furniture.
4. **Connect Power:** Plug the power cord into a standard electrical outlet.

Figure 2: Proper placement of the air purifier in a living space.

This image shows the Instant HEPA Quiet Air Purifier placed in a living room next to a couch where a person is sitting with a German Shepherd dog. This illustrates a typical home environment for the product's use.

4. OPERATING INSTRUCTIONS

Your Instant Air Purifier features an intuitive control panel for easy operation.

Figure 3: Top control panel of the air purifier.

This close-up image displays the top control panel of the Instant HEPA Quiet Air Purifier, showing the digital display with "Air Quality 99.3%" and various touch buttons for functions like Auto, Info, Ion, and Power.

4.1 Control Panel Functions

- **Power Button:** Press to turn the unit On or Off.
- **Auto Mode:** Activates automatic air quality sensing. The unit adjusts fan speed based on detected air quality.
- **Fan Speed:** Manually adjust fan speed (Low, Medium, High).

- **Plasma Ion Technology:** Toggle the plasma ion feature On or Off. This technology projects positive and negative ions for enhanced air cleaning.
- **Display/Light Control:** Adjust display brightness or turn off lights for quiet operation, especially at night.

4.2 Air Quality Indicator

The digital display shows the percentage of air quality. A light band around the control panel indicates air quality status:

- **White:** Good air quality.
- **Orange:** Okay air quality.
- **Red:** Poor air quality.

4.3 Eco Mode

The Eco mode cycles the fan on and off every 10 minutes if good air quality is detected for 30 minutes, reducing energy consumption by 50%.

5. MAINTENANCE AND CARE

Regular maintenance ensures optimal performance and extends the life of your air purifier.

5.1 Filter Replacement

The HEPA-13 filter with carbon layer should be replaced approximately every 12 months, depending on usage and air quality.

1. Unplug the air purifier from the power outlet.
2. Carefully turn the unit upside down.
3. Unhinge or unlock the bottom cover to access the filter compartment.
4. Remove the old filter and dispose of it properly.
5. Insert a new Instant Air Purification Replacement Filter, ensuring it is seated correctly.
6. Close and secure the bottom cover.
7. Return the unit to its upright position and plug it back in.

Replacement filters can be purchased from authorized retailers or the Instant website.

Figure 4: Illustration of the air purification process.

This diagram illustrates how the Instant Air Purifier cleans air, showing air intake, passage through the HEPA-13 filter and activated carbon layer, and the release of purified air with plasma ions.

5.2 Cleaning the Exterior

Wipe the exterior of the air purifier with a soft, damp cloth. Do not use abrasive cleaners or solvents. Ensure the unit is unplugged before cleaning.

6. TROUBLESHOOTING

If you encounter issues with your air purifier, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Unit does not turn on.	Not plugged in; power outage; unit malfunction.	Ensure power cord is securely plugged in. Check household circuit breaker. Contact customer support if issue persists.
Poor air purification.	Filter is dirty or expired; unit placed in an obstructed area.	Replace the filter. Ensure unit has clear space around it for airflow.
Unusual noise.	Filter not installed correctly; foreign object inside.	Check filter installation. Unplug and inspect for foreign objects.
Air quality reading seems inaccurate.	Sensors may have a margin of error.	Sensors have a margin of error of +/- 20 micrograms per cubic meter. This is normal operation.

If the problem persists after trying these solutions, please contact Instant customer support.

7. SPECIFICATIONS

Feature	Detail
Model Number	150-0005-01
Brand	Instant
Color	Charcoal
Product Dimensions	10.6"D x 10.6"W x 20.7"H
Item Weight	9.13 pounds
Noise Level	5 dB (lowest setting)
Wattage	50 watts
Coverage Area (AHAM-Verified)	388 SQFT (5 air changes per hour)
Filter Type	HEPA-13 with Activated Carbon Layer
Special Features	Plasma Ion Technology, Auto Mode, Eco Mode, Programmable
UPC	810028584778

8. WARRANTY AND SUPPORT

Your Instant HEPA Quiet Air Purifier comes with a manufacturer's warranty. For detailed warranty information, please refer to the warranty card included with your product or visit the official Instant website.

For technical support, replacement parts, or general inquiries, please contact Instant customer service:

- **Website:** [Visit the Instant Store on Amazon](#)
- **Phone:** Refer to your product packaging or the Instant website for current contact numbers.

Please have your model number (150-0005-01) and purchase date available when contacting support.
