1. INTRODUCTION

Thank you for choosing the PXN-A9 Steering Wheel Stand. This stand is designed to enhance your racing simulation experience by providing a stable and adjustable platform for your steering wheel, pedals, and shifter. It is compatible with a wide range of popular racing peripherals, including Logitech G25, G27, G29, G920, G923, and Thrustmaster T300RS, T300GT, T500RS, TGT, TS models. The PXN-A9 features a foldable design for convenient storage and offers multiple adjustment options to suit various user preferences and driving postures.

2. SAFETY INFORMATION

- Ensure all bolts and knobs are securely tightened before use to prevent instability.
- Do not exceed the maximum weight capacity of the stand.
- Keep hands and fingers clear of moving parts during adjustment to avoid pinching.
- Place the stand on a flat, stable surface to prevent tipping.
- Children should only use the stand under adult supervision.
- Avoid exposing the stand to extreme temperatures or moisture.

3. PACKAGE CONTENTS

Please verify that all the following components are included in your package:

- PXN-A9 Steering Wheel Stand Frame
- Steering Wheel Mounting Plate
- Pedal Mounting Plate
- Shifter Mounting Plate
- Assembly Hardware (screws, nuts, washers)
- Adjustment Knobs
- Instruction Manual

4. SETUP & ASSEMBLY

The PXN-A9 stand is designed for quick and straightforward assembly. Follow these steps to set up your racing wheel stand:

1. **Unfold the Main Frame:** Carefully unfold the main frame of the stand until it locks into its open position. Ensure all hinges are fully extended and stable.
2. **Attach the Steering Wheel Plate:** Secure the steering wheel mounting plate to the top section of the stand using the provided screws and adjustment knobs. Ensure it is firmly attached.
3. **Install the Pedal Plate:** Position the pedal mounting plate at the base of the stand. Use the designated attachment points and hardware to secure it.
4. **Mount the Shifter Plate:** Attach the shifter mounting plate to either the left or right side of the main frame, depending on your preference. Secure it with the appropriate hardware.
5. **Mount Your Peripherals:**
 - **Steering Wheel:** Place your racing steering wheel onto the steering wheel plate and secure it using its integrated clamps or mounting points.
 - **Pedals:** Position your pedal set on the pedal plate and secure it using the provided straps or screws, if

applicable.

- **Shifter:** Mount your shifter onto the shifter plate.

6. **Final Adjustments:** Once all components are mounted, proceed to the "Adjustments" section to customize the stand to your preferred height and angle.

Image 4.1: Identification of key components: Steering wheel table, hanging lever plate (shifter mount), and foot pedal plate.

5. COMPATIBILITY

The PXN-A9 Steering Wheel Stand is designed for broad compatibility with popular racing simulation peripherals. It supports direct mounting for the following brands and models:

- **Logitech:** G25, G27, G29, G920, G923

- **Thrustmaster:** T300RS, T300GT, T500RS, TGT, TS-PC, T248X, T248, TX, T150, T80, Ferrari 458, TMX, TMX PRO
- **Fanatec:** Supports various Fanatec models (specific mounting patterns provided)

Note: Steering wheel, pedals, and shifter are not included with the stand.

Image 5.1: Compatibility overview with specific mounting patterns for various racing wheel brands.

6. ADJUSTMENTS

The PXN-A9 stand offers several adjustment points to optimize your racing setup for comfort and performance.

6.1. Height Adjustment

The main frame allows for telescopic height adjustment to accommodate users of different heights. To adjust the height:

1. Locate the adjustment knobs on the vertical support bars.
2. Unscrew the knobs to loosen the locking mechanism.
3. Extend or retract the upper section of the stand to your desired height (up to approximately 36 cm / 14.17 inches of extension).
4. Securely tighten the knobs to lock the stand in place.

Image 6.1: Demonstration of the telescopic height adjustment feature.

6.2. Pedal Angle Adjustment

The pedal plate can be adjusted to various angles to provide a comfortable and ergonomic foot position.

1. Locate the adjustment points at the base of the pedal plate.
2. Loosen the fasteners that secure the pedal plate.
3. Adjust the pedal plate to your desired angle (up to 45 degrees).
4. Tighten the fasteners to secure the pedal plate in position.

Multi-angle adjustment of pedal

The height can be adjusted to about 45 degrees
to meet various driving angles you need

Image 6.2: Visual guide for adjusting the pedal plate angle.

6.3. Shifter Position Adjustment

The shifter mounting plate is universal and can be installed on either the left or right side of the stand to accommodate different driving preferences.

1. Determine your preferred side for the shifter (left or right).
2. Attach the shifter mounting plate to the corresponding side using the provided hardware during initial assembly.

Universal in gear left and right

It can be used flexibly on the left and right side of gear to meet your various driving postures

7. FOLDING & STORAGE

The PXN-A9 stand features a quick-folding design for convenient storage when not in use, minimizing space occupation.

1. **Remove Peripherals:** Detach your steering wheel, pedals, and shifter from the stand.
2. **Loosen Adjustment Knobs:** Loosen any tightened adjustment knobs on the stand.
3. **Fold the Frame:** Carefully fold the main frame of the stand. The design allows for a compact folded form.
4. **Secure for Storage:** Ensure the stand is fully folded and stable before moving it for storage.

Image 7.1: The stand before and after folding, demonstrating its space-saving design.

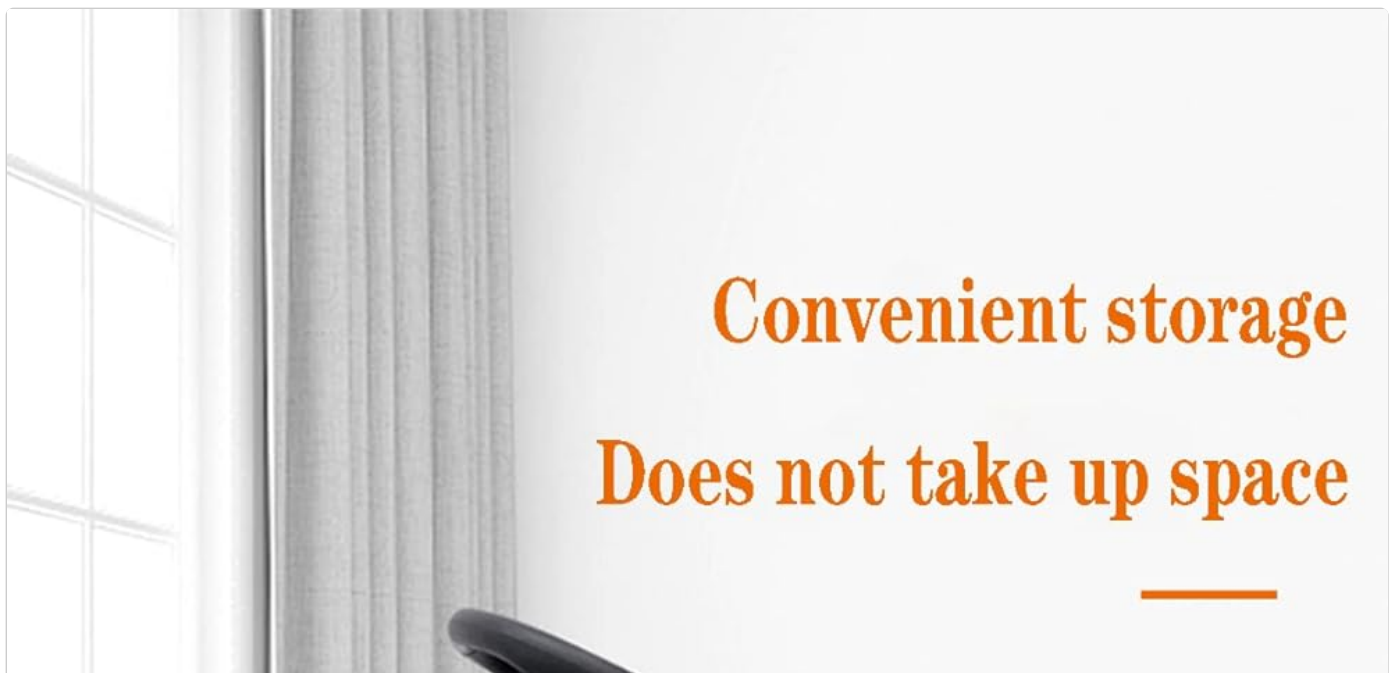

Image 7.2: The folded stand stored compactly, not occupying significant space.

8. SPECIFICATIONS

Feature	Detail
Model	PXN-A9
Material	Carbon Structural Steel Q235
Product Dimensions (Unfolded)	Approx. 56cm (W) x 86cm (H) / 22in (W) x 33.9in (H)
Product Dimensions (Folded)	Approx. 60 x 68 x 12 cm (Package size)
Net Weight	Approx. 8.4 kg / 18.52 lbs
Height Adjustment Range	22-33 inches / 56-86 cm (Telescopic extension up to 36 cm)

Feature	Detail
Pedal Angle Adjustment	0-45 degrees
Shifter Mount	Universal left/right mounting

Image 8.1: Detailed dimensions of the PXN-A9 Steering Wheel Stand.

9. TROUBLESHOOTING

If you encounter any issues with your PXN-A9 Steering Wheel Stand, please refer to the following common problems and solutions:

- **Stand feels unstable:**
 - Ensure all adjustment knobs and bolts are securely tightened.
 - Verify the stand is placed on a flat, level surface.
 - Check that the main frame is fully unfolded and locked.
- **Peripherals (wheel, pedals, shifter) are loose:**
 - Confirm that your peripherals are correctly mounted to their respective plates using their original clamping mechanisms or screws.
 - Ensure the mounting plates themselves are securely attached to the stand frame.
- **Difficulty adjusting height or angle:**
 - Loosen the adjustment knobs sufficiently before attempting to move the components.
 - Do not force adjustments; if a part is stuck, re-check for any obstructions or misalignments.

10. WARRANTY & SUPPORT

PXN products are manufactured to high-quality standards. For specific warranty details, please refer to the warranty card included with your product or visit the official PXN website. If you require technical assistance or have questions not covered in this manual, please contact PXN customer support through their official channels.

Official PXN Website: www.pxn.cn

Please retain your proof of purchase for warranty claims.
