Product Overview and Features

The AFROG 5th Gen Multifunctional LED Desk Lamp is equipped with advanced features to enhance your lighting and charging experience:

- **15W Super Bright Illumination:** Provides up to 1800 Lux, illuminating a wide area (up to 47 inches) without flicker, ideal for reading, working, or studying.
- **35 Brightness Choices:** Offers a unique combination of 5 color modes and 7 brightness levels for customizable lighting.
- **10W Fast Wireless Charger:** Integrated into the lamp base for convenient and rapid charging of compatible smartphones.
- **5V/2A USB Charging Port:** An additional port for charging other devices via USB cable.
- **Touch Control:** Intuitive touch-sensitive controls for power, brightness, color mode, and timer functions.
- **Auto-Off Timer:** Features 40-minute and 60-minute timer options for automatic shut-off.

- **Eye-Caring Technology:** Designed to provide flicker-free light that is gentle on the eyes, reducing strain during prolonged use.
- **Foldable Design:** Allows for compact storage and portability.

Setup

1. **Unpack the Lamp:** Carefully remove the lamp and all accessories from the packaging.
2. **Place the Lamp:** Position the lamp on a stable, flat surface such as a desk or table.
3. **Connect Power:** Insert the power adapter cable into the DC input port located at the back of the lamp base. Plug

the adapter into a standard electrical outlet.

4. **Adjust Lamp Arm:** Gently unfold and adjust the lamp arm and head to your desired lighting angle. The lamp is designed to be foldable for compact storage.

Operating Instructions

The lamp features touch-sensitive controls on its base for easy operation.

1. Power On/Off

- Touch the **Power button** (

) on the base to turn the lamp on or off.

2. Brightness Adjustment

- With the lamp on, touch the **Brightness Up** button (

) to increase brightness.

- Touch the **Brightness Down** button (

-  10W Fast Charger
-  15W Super Bright
-  USB Charging Port
-  5 Lighting Mode
-  7 Brightness
-  Touch Control
-  Foldable Design
-  Night Function
-  Auto Timer

) to decrease brightness. There are 7 levels of brightness.

3. Color Mode Selection

- Touch the **Mode** button (

) to cycle through 5 different color temperature modes (e.g., warm white, natural white, cool white).

15W Super Bright

5 Color Modes

7 Brightness Levels

6. Auto-Off Timer

- Touch the **Timer button** (

-  10W Fast Charger
-  15W Super Bright
-  USB Charging Port
-  5 Lighting Mode
-  7 Brightness
-  Touch Control
-  Foldable Design
-  Night Function
-  Auto Timer

) to activate the auto-off timer.

- Press once for a 40-minute timer, press again for a 60-minute timer. The lamp will automatically turn off after the selected duration.

7. Night Light Function

- Touch the **Night Light** button (

) to activate a soft, dim light suitable for nighttime use.

Maintenance

To ensure the longevity and optimal performance of your AFROG Desk Lamp, follow these maintenance guidelines:

- **Cleaning:** Disconnect the power adapter before cleaning. Use a soft, dry cloth to wipe the lamp. Do not use abrasive cleaners, waxes, or solvents as they may damage the finish.
- **Handling:** Handle the lamp with care. Avoid dropping or subjecting it to strong impacts.
- **Storage:** When not in use for extended periods, fold the lamp into its compact position and store it in a dry, cool place.
- **Power Cord:** Regularly inspect the power cord for any damage. If damaged, discontinue use and contact customer support.

Troubleshooting

If you encounter issues with your AFROG Desk Lamp, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lamp does not turn on.	Power adapter not properly connected or no power from outlet.	Ensure the power adapter is securely plugged into both the lamp and a working electrical outlet. Test the outlet with another device.
Lamp remains dimly lit even when turned off.	Residual power or minor electrical leakage.	This can sometimes occur with LED lights. If it is bothersome, unplug the lamp from the power outlet when not in use. If the issue persists or worsens, contact customer support.
Wireless charging is not working or is slow.	Phone not properly aligned on the charging pad; phone case is too thick; phone is not Qi-compatible.	Ensure your phone is centered on the charging pad. Remove thick phone cases. Verify your phone supports Qi wireless charging.
USB charging is not working.	USB cable is faulty; device is not compatible; lamp is not powered on.	Try a different USB cable. Ensure the lamp is powered on. Verify your device can be charged via a standard 5V/2A USB port.
Light flickers or is inconsistent.	Unstable power supply; internal component issue.	Ensure the lamp is connected to a stable power source. If the issue persists, contact customer support.

Specifications
