

DELFINO 54mm Espresso Dosing Funnel

DELFINO 54mm Espresso Dosing Funnel User Manual

Model: 54mm Espresso Dosing Funnel

INTRODUCTION

The DELFINO 54mm Espresso Dosing Funnel is designed to enhance your coffee preparation experience by minimizing mess and waste. This intelligent dosing ring ensures that all ground coffee goes directly into your portafilter basket, making the grinding, distributing, and tamping process cleaner and more efficient. It is an essential accessory for both home baristas and professional espresso environments.

PRODUCT OVERVIEW

Features

- **Compatibility:** Specifically designed to work with 54mm Breville Portafilter baskets.
- **Mess and Waste Reduction:** Effectively guides all coffee grounds into the portafilter basket, significantly reducing spillage and waste during grinding and dosing.
- **Premium Material:** Constructed from high-quality 304 stainless steel, ensuring durability, corrosion resistance, and food-grade safety.
- **Easy to Clean:** Dishwasher safe for convenient cleaning. Can also be easily rinsed with water and cleaned with a brush or sponge.
- **Secure Fit:** Sits snugly on the outer rim of the portafilter, allowing for tamping with the funnel still in place as its inside diameter matches the portafilter basket.

Specifications

Brand	DELFINO
Material	304 Stainless Steel
Diameter	54mm / 2.13 inches
Product Dimensions	9 x 9 x 3 cm

Item Weight	130 g
Color	Silver

SETUP

Before first use, wash the DELFINO Dosing Funnel with warm soapy water and rinse thoroughly. Ensure it is completely dry before use.

The funnel is designed to fit 54mm Breville Portafilter baskets. Simply place the funnel on top of your portafilter basket, ensuring it sits securely on the outer rim.

OPERATING INSTRUCTIONS

1. **Attach to Portafilter:** Place the DELFINO Dosing Funnel securely onto your 54mm Breville Portafilter basket. Ensure it rests firmly on the outer rim.
2. **Grind Coffee:** Grind your coffee beans directly into the portafilter basket with the funnel attached. The funnel's design ensures that all coffee grounds fall into the basket, preventing spillage and mess on your countertop.
3. **Distribute and Tamp:** Once the desired amount of coffee is ground, you can distribute the grounds evenly within the basket. The funnel's internal diameter matches that of the portafilter basket, allowing you to tamp the coffee grounds while the funnel is still in place.
4. **Remove Funnel:** After tamping, carefully remove the dosing funnel from the portafilter. Your portafilter is now ready for brewing.

CLEANING AND MAINTENANCE

To ensure the longevity and hygiene of your DELFINO Dosing Funnel, follow these cleaning instructions:

- **Daily Cleaning:** After each use, rinse the funnel with warm water to remove any residual coffee grounds.
- **Deep Cleaning:** The 304 stainless steel funnel is dishwasher safe. Alternatively, you can wash it by hand using mild dish soap, a brush, or a sponge.
- **Drying:** Ensure the funnel is completely dry before storing to prevent water spots or mineral buildup.

Regular cleaning will maintain the funnel's pristine appearance and functionality.

TROUBLESHOOTING

Issue: Portafilter with funnel installed does not fit into the grinder.

Solution: When using certain espresso machines, such as the Breville Barista Express, the portafilter holder (designed to hold the portafilter during dosing/grinding) cannot be used while the dosing funnel is

installed. This is a design characteristic of the machine's grinder. You will need to hold the portafilter with the funnel manually during the grinding process or remove the funnel before placing the portafilter into the machine's grinder holder if it obstructs the fit.

The portafilter won't into the grinder with funnel installed

Image: A comparison showing a portafilter with the funnel installed (left, marked with a red circle and cross) that does not fit into a specific grinder's holder, versus a portafilter with the funnel (right, marked with a green circle) that is being held manually for grinding.
