## 2. IMPORTANT SAFETY INFORMATION

Please read and follow all safety precautions before installation and use to prevent injury or damage. Keep this manual for future reference.

- Ensure the bidet seat is connected to a 110-volt power supply.
- Do not immerse the unit in water or spray water directly onto the main body of the bidet.
- Avoid using abrasive cleaners or harsh chemicals, which may damage the surface.
- Do not attempt to disassemble or repair the unit yourself. Contact qualified service personnel for technical assistance.
- For children and individuals with limited physical, sensory, or mental capabilities, supervision is required during use.
- Ensure proper grounding to prevent electrical shock.

## 3. COMPONENTS AND PARTS LIST

The ZMJH ZMA102 Bidet Toilet Seat package includes the following components:

- ZMJH ZMA102 Bidet Toilet Seat Unit
- Mounting Plate
- Mounting Bolts and Washers
- T-Valve for Water Connection
- Water Supply Hose (PE pipe)
- Installation Guide (PDF available online)
- User Manual (PDF available online)

## 4. SETUP AND INSTALLATION

Installation is designed to be straightforward. For detailed visual instructions, please refer to the official Installation Manual (PDF) provided with your product or available online.

### Before Installation:

- Ensure your toilet is an elongated shape for proper fit. Refer to Figure 3 for dimensions.
- Verify a 110-volt electrical outlet is available near the toilet.
- Turn off the water supply to the toilet.

# Bidet Toilet Seat Fit Check

Our Products Are Suitable For The Following Sizes, Please Check Carefully Before Purchase.

## ELONGATED

## Outlet Required

## ROUND

## Outlet May Fit or May Not Fit

# Elongated Product Size

Figure 4: Detailed dimensions for the Elongated ZMJH ZMA102 Bidet Toilet Seat.

## Installation Steps:

1. **Remove Existing Toilet Seat:** Unscrew and remove your current toilet seat and lid.

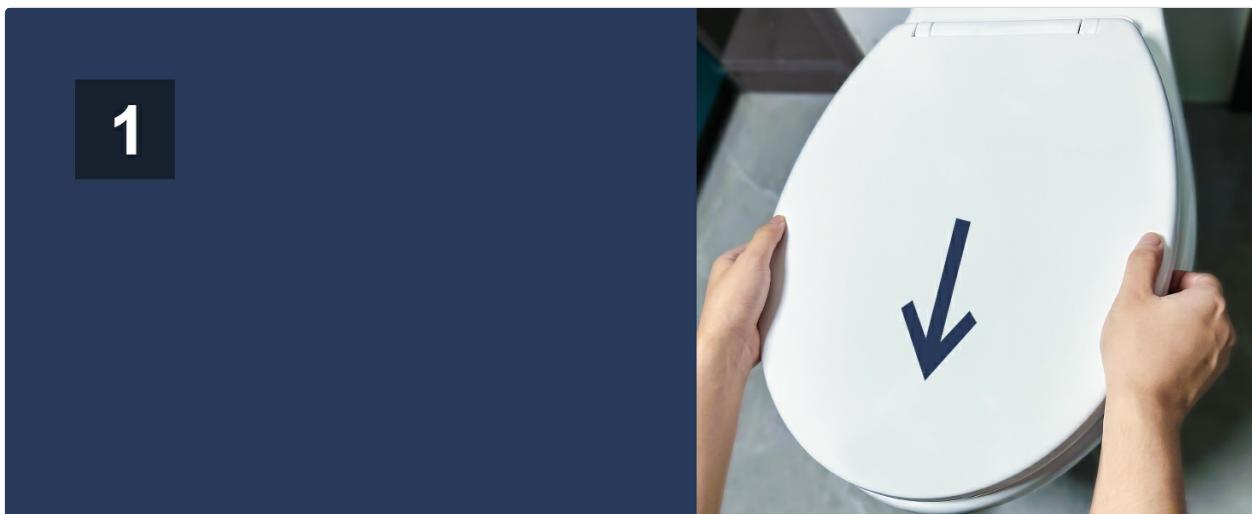

Step 1: Remove the existing toilet seat by unscrewing the bolts.

2. **Install Mounting Plate:** Secure the bidet's mounting plate onto the toilet bowl using the provided bolts and washers. Adjust its position for optimal fit.

Step 2: Attach the bidet's mounting plate to the toilet bowl.

3. **Attach Bidet Seat:** Slide the ZMJH bidet toilet seat onto the installed mounting plate until it clicks securely into place.

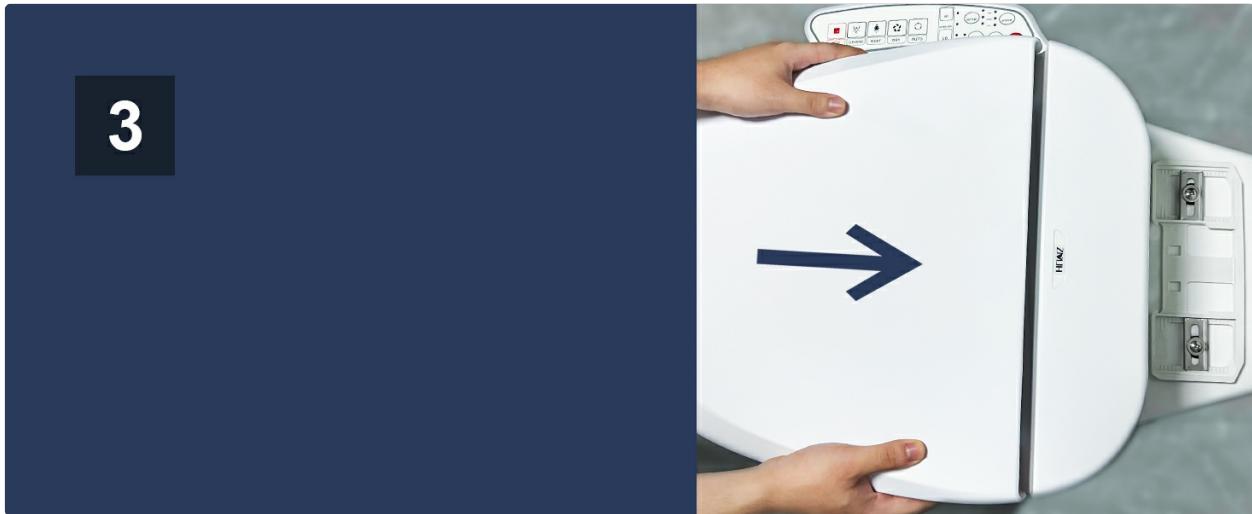

Step 3: Slide the bidet seat onto the secured mounting plate.

4. **Connect Water Supply:** Install the T-valve at the toilet's water supply line. Connect the bidet's water supply hose to the T-valve and the bidet unit.

Step 4: Connect the bidet to the toilet's water supply using the T-valve and hose.

5. **Connect Power:** Plug the bidet's power cord into a grounded 110-volt electrical outlet.

Step 5: Plug the bidet into a standard 110V electrical outlet.

6. **Test Unit:** Slowly turn on the water supply to the toilet. Check for any leaks. Once water is flowing, test the bidet's functions.

For a comprehensive installation tutorial, please refer to the official "Toilet cover installation tutorial" video provided by the seller. This video visually guides you through each step of the installation process.

## 6. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and hygienic operation of your bidet toilet seat.

### Cleaning the Nozzle:

The stainless steel nozzle is self-cleaning. It will automatically rinse itself before and after each use. For additional cleaning, specific functions on the control panel may initiate a more thorough nozzle cleaning cycle.

### Cleaning the Unit:

- Wipe the exterior of the bidet seat with a soft, damp cloth and a mild, non-abrasive cleaner.
- Avoid using strong chemical cleaners, benzene, alcohol, or thinners, as these can damage the unit.
- Ensure no water enters the electrical components.

## 7. TROUBLESHOOTING

If you encounter any issues with your ZMJH ZMA102 Bidet Toilet Seat, please refer to the following common troubleshooting tips. For more complex problems, consult the full Instructions for Use (IFU) PDF or contact customer support.

Problem	Possible Cause	Solution
No power/Unit not turning on	Not plugged in; Power outlet issue; Skin sensor not activated.	Ensure unit is properly plugged into a 110V outlet. Check circuit breaker. Ensure you are seated on the bidet.
No warm water	Water heater setting too low; Water supply valve closed.	Adjust water temperature setting. Ensure toilet water supply valve is fully open.
Weak water pressure	Water pressure setting too low; Water supply valve not fully open.	Increase water pressure setting. Ensure toilet water supply valve is fully open.
No warm air from dryer	Dryer temperature setting too low; Skin sensor not activated.	Adjust dryer temperature setting. Ensure you are seated on the bidet.
