Figure 3.3: The Havit SK204 speakers designed with an elevation angle, which helps direct sound propagation closer to the listener's ear for an optimized audio experience.

Figure 3.4: Rear view of the Havit SK204 speakers, illustrating the integrated 3.5mm stereo audio input and USB power connection.

Key Components:

- **Speaker Units:** Two satellite speakers with 2.5-inch drivers.
- **RGB Lighting:** Dynamic LED lights integrated into the front grilles.
- **Volume Control:** Located on the front of one speaker (typically the right one).
- **USB Power Cable:** For power supply (DC 5V).
- **3.5mm Audio Cable:** For audio input.

4. SETUP

Follow these steps to set up your Havit SK204 speakers:

1. **Placement:** Place the two speakers on either side of your computer monitor or desired listening area. Ensure they are stable and on a flat surface. The elevation angle design helps optimize sound direction.
2. **Connect Audio:** Plug the 3.5mm audio jack from the speakers into the audio output port (headphone jack) of your computer, laptop, smartphone, or other audio source.
3. **Connect Power:** Plug the USB-A connector of the speakers into an available USB port on your computer, a USB wall adapter (5V/1A recommended), or a power bank. The speakers will power on and the RGB lights will illuminate.
4. **Adjust Volume:** Turn the volume knob on the front of the speaker to the minimum level before playing audio.

5. OPERATING INSTRUCTIONS

Using your Havit SK204 speakers is straightforward:

1. **Power On/Off:** The speakers power on automatically when the USB cable is connected to a powered USB port. To turn them off, simply disconnect the USB power cable.
2. **Volume Control:** Rotate the volume knob on the front of the right speaker clockwise to increase the volume and counter-clockwise to decrease it.
3. **Audio Playback:** Once connected, play audio from your device. The sound will be output through the Havit SK204 speakers.
4. **RGB Lighting:** The RGB lighting is automatic and will illuminate when the speakers are powered on. There is no separate control for the lighting.

6. MAINTENANCE

To ensure the longevity and optimal performance of your speakers, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the exterior of the speakers. Do not use liquid cleaners or abrasive materials, as they may damage the surface or internal components.
- **Avoid Water:** While the product description mentions it is water-resistant, avoid exposing the speakers to excessive moisture or submerging them in water.
- **Storage:** When not in use for extended periods, store the speakers in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handle with Care:** Avoid dropping or subjecting the speakers to strong impacts, which can damage the internal components.

7. TROUBLESHOOTING

If you encounter any issues with your Havit SK204 speakers, refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|---------|----------------|----------|
|---------|----------------|----------|

| Problem | Possible Cause | Solution |
|---------------------------------|---|---|
| No sound from speakers | <ul style="list-style-type: none"> • USB power not connected or insufficient. • 3.5mm audio cable not connected properly. • Volume too low on speakers or source device. • Incorrect audio output selected on device. | <ul style="list-style-type: none"> • Ensure USB cable is securely plugged into a powered USB port (5V/1A). • Check that the 3.5mm audio jack is fully inserted into the audio output port. • Increase volume on both the speakers and your source device. • Verify your device's audio settings to ensure the speakers are selected as the output device. |
| Distorted or poor sound quality | <ul style="list-style-type: none"> • Volume too high, causing clipping. • Loose audio connection. • Interference from other electronic devices. | <ul style="list-style-type: none"> • Lower the volume on both the speakers and your source device. • Ensure the 3.5mm audio cable is securely connected. • Move speakers away from other electronic devices that might cause interference. |
| RGB lights not working | <ul style="list-style-type: none"> • No power or insufficient power. • Faulty USB connection. | <ul style="list-style-type: none"> • Ensure the USB power cable is connected to a stable 5V/1A power source. • Try a different USB port or power adapter. |

8. SPECIFICATIONS

| Feature | Specification |
|-----------------------------|-----------------------------|
| RMS Power Output | 5W x 2 |
| Unit Size | 2.5 inches x 2 |
| Speaker Impedance | 3 Ohm x 5W x 2 |
| Signal-to-Noise Ratio (SNR) | ≥55dB ± 3dB |
| Power Input | DC 5V-1A (USB Powered) |
| Operating Current | 480mA |
| Frequency Response | 100Hz - 20KHz |
| Material | Plastic + Iron Mesh |
| Connectivity | USB (Power) + 3.5mm (Audio) |
| Product Dimensions (L×W×H) | 87mm × 117mm × 182mm |
| Product Weight | 840 grams |
