Belkin WIZ009

Belkin MagSafe 3-in-1 Wireless Charging Stand (Model WIZ009) User Manual

PRODUCT OVERVIEW

The Belkin MagSafe 3-in-1 Wireless Charging Stand is designed to simultaneously charge your Apple iPhone, Apple Watch, and AirPods. It utilizes MagSafe technology for secure and efficient charging of compatible iPhone models (iPhone 14, iPhone 13, and iPhone 12 series). The stand provides a dedicated charging puck for Apple Watch and a wireless charging pad for AirPods or other Qi-compatible devices.

This charging stand offers a streamlined solution to reduce cable clutter and keep your devices powered. The MagSafe connection ensures proper alignment for optimal charging speeds for your iPhone, supporting both portrait and landscape orientations. The dedicated Apple Watch charger and AirPods charging pad complete the integrated charging experience.

SETUP INSTRUCTIONS

1. **Unpack the Charger:** Carefully remove the Belkin MagSafe 3-in-1 Wireless Charging Stand and its power adapter from the packaging.
2. **Connect Power:** Plug the included power adapter into the power port on the back of the charging stand. Then, plug the power adapter into a wall outlet. Ensure the connection is secure.

3. **Placement:** Place the charging stand on a flat, stable surface, such as a desk or nightstand. Ensure there is adequate space around the stand for your devices.

OPERATING INSTRUCTIONS

Charging Your iPhone

1. Ensure your iPhone is MagSafe compatible (iPhone 12 series or newer).
2. Align your iPhone with the MagSafe charging puck on the stand. The magnets will securely snap your iPhone into place.
3. Your iPhone can be charged in either portrait or landscape orientation. The device will automatically begin charging.

Charging Your Apple Watch

1. Place your Apple Watch onto the dedicated charging puck on the right arm of the stand.
2. Ensure the back of your Apple Watch makes full contact with the charging surface. The watch will display a charging indicator.

Charging Your AirPods

1. Place your AirPods charging case (compatible with wireless charging) onto the wireless charging pad located at the base of the stand.
2. Adjust the position of the AirPods case until the charging indicator light on the stand illuminates, confirming that charging has begun.

MAINTENANCE

To maintain the performance and appearance of your charging stand, follow these guidelines:

- **Cleaning:** Disconnect the power adapter before cleaning. Use a soft, dry, lint-free cloth to wipe the surfaces of the stand. Avoid using abrasive cleaners, solvents, or aerosol sprays, which may damage the finish.
- **Avoid Liquids:** Do not expose the charging stand to liquids. If liquid spills on the device, immediately disconnect power and allow it to dry completely before reconnecting.
- **Storage:** Store the stand in a cool, dry place when not in use for extended periods.

TROUBLESHOOTING

If you encounter issues with your Belkin MagSafe 3-in-1 Wireless Charging Stand, refer to the following common solutions:

- **Device Not Charging:**
 - Ensure the power adapter is securely connected to both the charging stand and a working wall outlet.
 - Verify that your device (iPhone, Apple Watch, AirPods) is correctly aligned with its respective charging area. For iPhone, ensure the MagSafe connection is firm. For AirPods, check the charging indicator light on the base.
 - Remove any thick cases from your iPhone or AirPods that might interfere with wireless charging. MagSafe compatible cases are generally fine.
 - Try restarting your device.
- **Slow Charging:**
 - Ensure you are using the original power adapter supplied with the charging stand. Using a different adapter may result in slower charging speeds.

- Confirm proper alignment of your devices on their charging surfaces. Misalignment can reduce charging efficiency.
- Environmental factors such as high temperatures can affect charging speed.
- **Charging Indicator Light Not On (AirPods):**
 - Adjust the position of your AirPods case on the charging pad until the indicator light illuminates. The charging coil may require precise placement.

SPECIFICATIONS

Feature	Detail
Model Number	WIZ009
Brand	Belkin
Connector Type	MagSafe
Compatible Devices	Headphones, Smartphones, Smartwatches
Compatible Phone Models	iPhone 14, 14 Plus, 14 Pro, 14 Pro Max, iPhone 13, 13 Pro, 13 Pro Max, 13 Mini, iPhone 12 Pro, 12 Pro Max, 12 Mini
Included Components	1 x Belkin BoostCharge PRO MagSafe 3-in-1 Wireless Charger
Special Feature	3 in 1 Solution, Magnetic, MagSafe Compatible, Wireless Charging
Color	White
Amperage	2.67 Amps
Total USB Ports	1 (for internal power, not for external devices)
Wattage	15 watts (Max for iPhone)
Output Current	2 Amps
Output Voltage	15 Volts
Power Source	Corded Electric
Power Plug Type	Type A - 2 pin (North American)
Wireless Charging Standard	MagSafe
Mounting Type	Tabletop Mount
