NEBO Torchy 2K

NEBO Redline Torchy 2K Flashlight Instruction Manual

Model: Torchy 2K

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your NEBO Redline Torchy 2K Flashlight. Designed for durability and high performance, this compact and powerful LED flashlight is suitable for a variety of uses, from everyday carry to outdoor adventures.

Key Features:

- **2000 Lumen Output:** Provides powerful illumination for various scenarios.
- **Rechargeable Design:** Conveniently recharges with the included MagCable.
- **Water & Impact Resistant:** Built to withstand challenging environmental conditions (IPX6 rated).
- **5 Light Modes:** Includes Turbo, High, Medium, Low, and Strobe for versatile lighting needs.
- **Smart Power Control & Memory Recall:** Optimizes battery life and remembers your last used mode.
- **Magnetic Base & Removable Clip:** Offers flexible mounting and carrying options.

The NEBO Redline Torchy 2K Flashlight, featuring a durable design and powerful illumination.

PACKAGE CONTENTS

Please verify that all items are present in your package:

- NEBO Redline Torchy 2K Flashlight

- USB Charging MagCable
- User Manual (this document)

SETUP

Initial Charging:

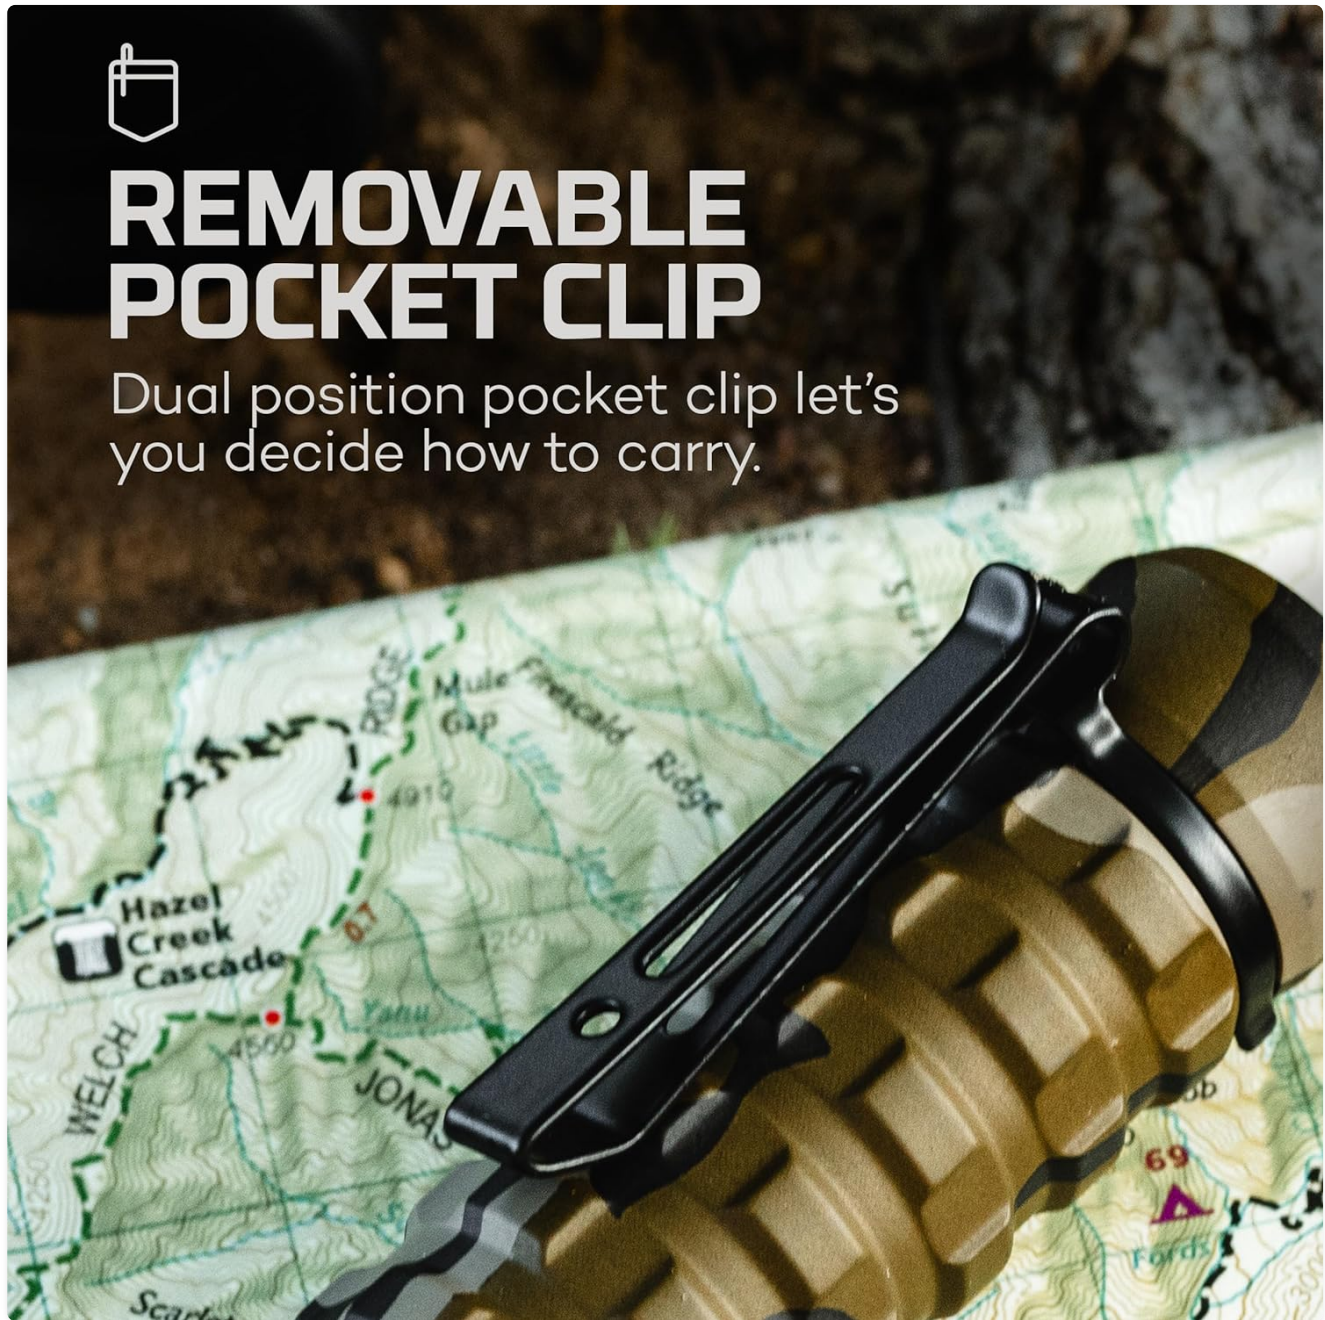

1. Locate the included USB Charging MagCable.
2. Attach the magnetic end of the MagCable to the charging port on the flashlight. Ensure a secure connection.
3. Plug the USB end of the MagCable into a standard USB power source (e.g., wall adapter, computer USB port).
4. The charging indicator light on the flashlight will illuminate during charging. A full charge typically takes 3-5 hours.
5. Once fully charged, disconnect the MagCable.

The Torchy 2K is easily recharged using the included MagCable.

Attaching the Removable Clip:

The Torchy 2K comes with a removable dual-position pocket clip. To attach or reposition the clip, slide it onto the flashlight body until it clicks securely into place. This allows for flexible carrying options, such as attaching to a pocket or belt.

The removable pocket clip offers versatile carrying options.

OPERATION

Power On/Off and Mode Selection:

The Torchy 2K features a single side-positioned button for all operations.

- **Power On/Off:** Press and hold the power button for approximately 1 second to turn the flashlight on or off.
- **Cycle Modes:** While the flashlight is on, quickly press the power button to cycle through the 5 light modes:
 - Turbo (2000 Lumens)

- High
 - Medium
 - Low (35 Lumens, up to 30 hours runtime)
 - Strobe (for emergency signaling)
- **Power Memory Recall:** The flashlight will remember the last used mode (excluding Turbo and Strobe) when turned off and back on.
 - **Smart Power Control:** This feature ensures smooth transitions between light modes, optimizing battery life.

Experience powerful illumination with 2000 lumens and five versatile light modes.

Magnetic Base Functionality:

The Torchy 2K is equipped with a powerful magnetic base, allowing for hands-free lighting. Simply attach the base to any ferrous metal surface. This is ideal for working in tight spaces or when you need both hands free.

COMPACT & RUGGED

Small, lightweight, and built with trail-ready aircraft-grade aluminum construction.

The magnetic base provides convenient hands-free lighting.

MAINTENANCE

Cleaning:

To clean your flashlight, wipe it with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these may damage the finish or internal components.

Battery Care:

- Recharge the flashlight regularly to maintain optimal battery health, even if not used frequently.
- Avoid completely draining the battery before recharging.
- Store the flashlight in a cool, dry place when not in use for extended periods.

Water Resistance (IPX6):

The Torchy 2K is rated IPX6 water resistant, meaning it is protected against powerful water jets. While it can withstand heavy rain and splashes, it is not designed for submersion in water. Ensure the charging port is clean and dry before charging.

MAGNETIC BASE

For hands-free lighting.

The IPX6 water resistance ensures reliability in tough weather conditions.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on.	Low or depleted battery.	Recharge the flashlight fully using the MagCable.
Flashlight does not turn on.	Button not pressed correctly.	Ensure you press and hold the power button for approximately 1 second.

Problem	Possible Cause	Solution
Flashlight not charging.	MagCable not properly connected or faulty power source.	Ensure the MagCable is securely attached to the flashlight and the USB power source. Try a different USB port or adapter.
Reduced brightness or short runtime.	Battery degradation or not fully charged.	Fully recharge the flashlight. If the issue persists, the battery may need replacement (contact support).
