New Direction Tackle N1 Bite Alarm Set 3+1 with S9r Receiver

New Direction Tackle N1 Bite Alarm Set 3+1 with S9r Receiver User Manual

Model: N1 Bite Alarm Set 3+1 with S9r Receiver

Introduction

Thank you for choosing the New Direction Tackle N1 Bite Alarm Set 3+1 with S9r Receiver. This manual provides detailed instructions for the proper setup, operation, and maintenance of your bite alarm system. Please read this manual thoroughly before use to ensure optimal performance and longevity of your product.

Product Overview

The N1 Bite Alarm Set is designed for carp fishing, offering advanced features in a compact and lightweight design. The set includes N1 bite alarms and an S9r receiver, providing reliable bite indication and remote control capabilities.

Key Features:

- **Unique Remote Control Mode:** All settings can be adjusted directly from the S9r receiver.
- **ND Radio System Compatibility:** Seamlessly integrates with smart devices for enhanced control via a dedicated application.
- **Compact and Lightweight Design:** The N1 Neutrino bite detector weighs only 45 grams, featuring an integrated P11 quick-release adapter.
- **P11 Quick Release System:** Ensures easy and rapid setup, making the bite detector more compact and convenient to mount.
- **Integrated USB Rechargeable Battery:** Convenient charging for extended use.
- **Versatile Sound Output:** Sound can be emitted via the receiver or an external speaker.
- **Customizable Colors:** Choose from 5 LED colors: red, green, blue, yellow, and white.

Setup Instructions

1. Charging the Devices:

- Connect the N1 bite alarms and S9r receiver to a USB power source using the provided charging cables.
- The charging indicator light will show the charging status. Ensure devices are fully charged before first use.

2. Attaching the Bite Alarms:

- Screw the N1 bite alarms onto your rod pod or bankstick using the integrated P11 quick-release system.
- Ensure the alarm is securely fastened and aligned correctly for optimal line detection.

3. Pairing Alarms with Receiver:

- Turn on both the N1 bite alarms and the S9r receiver.
- Follow the instructions in the S9r receiver's menu to pair each bite alarm. The receiver will guide you through the process of assigning each alarm to a specific channel and color.

Operating Instructions

1. Power On/Off:

- Press and hold the power button on each N1 bite alarm and the S9r receiver to turn them on or off.

2. Adjusting Settings via Receiver:

- Use the S9r receiver's interface to adjust sensitivity, volume, tone, and LED color for each paired bite alarm.
- Navigate through the menu using the receiver's buttons.

3. Using the Mobile Application:

- Download the official New Direction Tackle app from your smartphone's app store.
- Connect the S9r receiver to your smartphone via Bluetooth as per the app's instructions.
- The app allows for comprehensive control and customization of all bite alarm settings, including sensitivity, volume, tone,

and LED color.

4. Bite Indication:

- When a bite occurs, the N1 bite alarm will emit an audible signal and illuminate its LED.
- The S9r receiver will simultaneously alert you with sound and light, indicating which alarm has been triggered.

Maintenance

- **Cleaning:** Wipe the bite alarms and receiver with a soft, damp cloth after each use. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the set in its protective carrying case in a dry, cool place when not in use.
- **Battery Care:** Recharge the integrated batteries regularly, even during periods of non-use, to maintain battery health. Avoid fully discharging the batteries for extended periods.
- **Water Resistance:** While designed for outdoor use, avoid submerging the devices in water. Ensure all ports are closed when exposed to moisture.

Troubleshooting

Problem	Possible Cause	Solution
No power	Battery discharged	Recharge the device using the USB cable.

Problem	Possible Cause	Solution
No signal from alarm to receiver	Devices not paired or out of range	Ensure devices are paired correctly. Check the distance between alarm and receiver (max 150m).
Alarm not detecting bites	Sensitivity setting too low or line not correctly placed	Increase sensitivity via receiver or app. Ensure fishing line is properly seated in the alarm roller.
App connection issues	Bluetooth off or app not updated	Ensure Bluetooth is enabled on your smartphone. Update the app to the latest version.
