Safety Information

To ensure safe use and prevent injury or damage, please adhere to the following guidelines:

- **Wall Anchoring:** Always secure the cabinet to the wall using the provided anchor hardware. This is crucial to prevent tipping over, especially in households with children or pets.
- **Weight Capacity:** Do not overload the shelves. Each adjustable shelf has a maximum weight capacity of 20 pounds. The total weight limit for the entire cabinet is 100 pounds.
- **Placement:** While designed for various rooms, including bathrooms, this cabinet is constructed from engineered wood. Avoid prolonged exposure to excessive humidity or direct water contact to maintain its structural integrity and finish.
- **Assembly:** Ensure all fasteners are securely tightened during assembly. Periodically check all connections for tightness.
- **Stability:** The cabinet may feel less stable during assembly. Its full stability is achieved once all components are

correctly assembled and it is anchored to a wall.

Package Contents

Before beginning assembly, verify that all parts and hardware are present and undamaged. Refer to the included diagrammatic instructions for a complete list of components. If any parts are missing or damaged, please contact customer support.

Assembly Instructions

Assembly is required for this product. Please follow the step-by-step diagrammatic instructions provided in the packaging. It is recommended to have a Phillips head screwdriver and potentially a drill for wall anchoring. Lay out all pieces on a soft, clean surface to prevent scratches.

1. **Unpack and Identify:** Carefully unpack all components and hardware. Match each piece to the corresponding label in the instruction manual.
2. **Assemble Frame:** Begin by assembling the main frame of the cabinet according to the diagrams. Ensure all cam locks and screws are tightened securely.
3. **Install Shelves:** Insert the shelf pins into the desired holes for the adjustable shelves. Place the shelves onto the pins.
4. **Assemble Drawer:** Follow the specific instructions for assembling the drawer and installing its runners.
5. **Attach Doors:** Mount the doors using the provided hinges. Adjust as necessary to ensure proper alignment and smooth operation.
6. **Install Handles:** Attach the metal handles to the doors.
7. **Wall Anchoring:** Once the cabinet is fully assembled, position it in its desired location. Use the provided anti-tipping hardware to securely anchor the cabinet to a wall stud. This step is critical for safety.

Usage

The Iwell Tall Black Bathroom Cabinet is designed for versatile storage in various rooms. Its features allow for organized and accessible storage of numerous items.

- **Adjustable Shelves:** The cabinet includes adjustable shelves that can be repositioned to accommodate items of different heights. Simply remove the shelf pins, adjust the shelf to a new height, and reinsert the pins.
- **Drawer Functionality:** The central drawer provides enclosed storage for smaller items, helping to keep your space tidy.
- **Magnetic Doors:** The doors are equipped with magnetic catches to ensure they remain securely closed when not in use.

Maintenance

Proper care will extend the life and appearance of your cabinet:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish. Dry immediately after cleaning.
- **Humidity Control:** As the cabinet is made of engineered wood, maintain a stable environment and avoid extreme fluctuations in humidity to prevent warping or damage.
- **Hardware Check:** Periodically inspect all screws, hinges, and wall anchors to ensure they remain tight. Retighten if necessary.

Troubleshooting

If you encounter any issues with your cabinet, consider the following:

- **Cabinet Feels Wobbly:** Ensure all assembly screws and cam locks are fully tightened. Verify that the cabinet is properly anchored to the wall using the provided hardware.
- **Drawer Sticks:** Check that the drawer runners are correctly installed and free of obstructions. Applying a small amount of wax to the runners can improve smoothness.
- **Doors Misaligned:** Adjust the hinges as per the assembly instructions to correct any misalignment.
- **Unpleasant Odor:** New furniture may have a slight odor upon unpacking. This typically dissipates within a few days in a well-ventilated area.
