## Terviiix 6014

# Terviiix Hair Styler User Manual

Model: 6014 | Brand: Terviiix

## 1. INTRODUCTION

The Terviiix Golden Standard Styler is a professional-grade hair tool designed for both straightening and curling. It incorporates advanced technology to minimize hair damage while providing versatile styling options. Key features include:

- **3X Less Damage:** Plates infused with argan oil, keratin, and tourmaline for nourishing properties and negative ion generation.
- **Non-Snagging Ultra Smooth Gliding:** Advanced floating arc plates prevent hair from getting stuck.
- **15s Fast Heating & Intelligent Temperature Control:** Rapid heat-up and stable temperature for reduced damage.
- **2-in-1 Functionality:** Capable of creating straight tresses, beachy waves, and bouncy curls.
- **Customized Temperature Settings:** 5 adjustable heat settings from 320°F to 450°F for all hair types.

## 2. SAFETY INFORMATION

**WARNING:** Do not use this appliance near bathtubs, showers, basins, or other vessels containing water. For additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30 mA is advisable in the electrical circuit supplying the bathroom. Ask your installer for advice. Always ensure the appliance is unplugged and completely cool before cleaning or storing. Keep out of reach of children.

## 3. PRODUCT OVERVIEW

The Terviiix Golden Standard Styler, shown with its carrying bag and packaging.

**3X Less Damage**

argan oil / keratin / tourmaline infused in plates

**3 veces menos daño**

aceite de argán / queratina / turmalina infundidos en placas

Plates infused with argan oil, keratin, and tourmaline for 3X less damage.

**Ultra Fast Heating**

Best-in-class PTC heater shorten the heating time to 15s

**Calentamiento ultrarrápido**

El mejor calentador PTC de su clase reduce el tiempo calentamiento a 15s

Internal view highlighting the intelligent temperature control system.

Demonstrates the non-snagging arc plate design.

The 2-in-1 functionality for both straightening and curling.

## 4. SETUP

1. **Unpack:** Carefully remove the Terviiix Styler and all accessories from the packaging.
2. **Inspect:** Check the appliance for any visible damage. Do not use if damaged.
3. **Unlock Plates:** Locate the lock/unlock switch near the hinge of the styler. Slide the switch to the unlocked position to allow the plates to open.
4. **Plug In:** Connect the power cord to a suitable electrical outlet.
5. **Power On:** Press and hold the power button until the display illuminates.
6. **Select Temperature:** Press the power button repeatedly to cycle through the 5 adjustable temperature settings (320°F, 356°F, 392°F, 430°F, 450°F). Choose the appropriate temperature for your hair type.

## 5. OPERATING INSTRUCTIONS

### 5.1. Straightening Hair

1. **Prepare Hair:** Ensure hair is clean, dry, and free of tangles. Apply a heat protectant spray.
2. **Section Hair:** Divide your hair into small, manageable sections (approximately 1-2 inches wide).
3. **Apply Styler:** Place a section of hair between the heating plates, close to the roots.

- 4. Glide Down:** Gently but firmly glide the styler down the hair section from roots to ends in a single, smooth motion. Avoid holding the styler in one place for too long to prevent heat damage.
- 5. Repeat:** Repeat for all sections until desired straightness is achieved.

## 5.2. Curling Hair

The rounded barrel design allows for easy curling.

- 1. Prepare Hair:** Ensure hair is clean, dry, and free of tangles. Apply a heat protectant spray.
- 2. Wrap Hair:** Open the styler and clamp it onto a section of hair near the roots. Rotate the styler 180 degrees away from your face, wrapping the hair around the outside of the barrel.
- 3. Glide and Release:** Slowly glide the styler down the hair section, maintaining the rotation. Release the styler when you reach the ends.
- 4. Cool and Style:** Allow the curl to cool before touching it to set the style. Repeat for all sections.

## 5.3. Official Product Video: Curling Bangs

Your browser does not support the video tag.

This video demonstrates how to curl bangs using the Terviiix Hair Straightener, showcasing its versatility beyond just straightening.

## 6. MAINTENANCE AND CARE

- Cleaning:** Always unplug the styler and allow it to cool completely before cleaning. Wipe the plates and exterior with a soft, damp cloth. Do not use abrasive cleaners or immerse the appliance in water.
- Storage:** Ensure the styler is completely cool and dry before storing. Use the provided velvet carrying bag for protection. Store in a cool, dry place, away from direct sunlight and moisture.
- Cord Care:** Do not wrap the power cord tightly around the appliance, as this can damage the cord. Store the cord loosely coiled.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Styler does not heat up.	Not plugged in correctly, power button not pressed, power outage.	Ensure plug is fully inserted. Press and hold power button. Check power supply.
Hair is snagging or pulling.	Plates are locked, hair not properly detangled, too large a section.	Ensure plates are unlocked. Detangle hair thoroughly. Use smaller sections.
Hair not straightening/curling effectively.	Incorrect temperature setting, too fast a pass, hair not dry.	Increase temperature if hair is coarse. Glide slower. Ensure hair is completely dry.
Burning smell during use.	Product residue on plates, hair product burning, hair damage.	Clean plates regularly. Use heat protectant. Ensure hair is healthy. If smell persists, discontinue use.
