Arcchio 9968058

Arcchio LED Logan Floor Lamp with Motion Sensor - Instruction Manual

Model: 9968058

1. Introduction

This manual provides essential information for the safe and efficient use of your Arcchio LED Logan Floor Lamp. Please read these instructions carefully before installation and operation, and retain them for future reference.
The Arcchio LED Logan Floor Lamp is a modern lighting solution designed for both home and office environments. It features advanced technology including a daylight sensor, motion sensor, and an integrated dimmer to provide optimal and energy-efficient illumination.

2. Safety Instructions

- Ensure the power supply is disconnected before installation, cleaning, or maintenance.
- This product is designed for indoor use only (IP20 rating). Do not expose to moisture or extreme temperatures.
- Only use the lamp with the specified voltage (230V).
- Do not attempt to modify or repair the lamp. Contact qualified personnel for service.
- Keep packaging materials out of reach of children.
- Avoid direct eye exposure to the LED light source.

3. Package Contents

Verify that all components are present and undamaged:

- Arcchio LED Logan Floor Lamp (main unit)
- Integrated LED light source
- Power cable with plug
- Instruction Manual (this document)

4. Setup

The Arcchio LED Logan Floor Lamp is designed for straightforward assembly. Follow these steps for proper setup:

1. **Unpack:** Carefully remove all components from the packaging. Retain packaging for potential future transport or returns.
2. **Positioning:** Place the lamp base on a flat, stable surface. Ensure the power cable can reach a suitable wall outlet without tension. The lamp's dimensions are 61 cm (length) x 28 cm (width) x 195 cm (height).

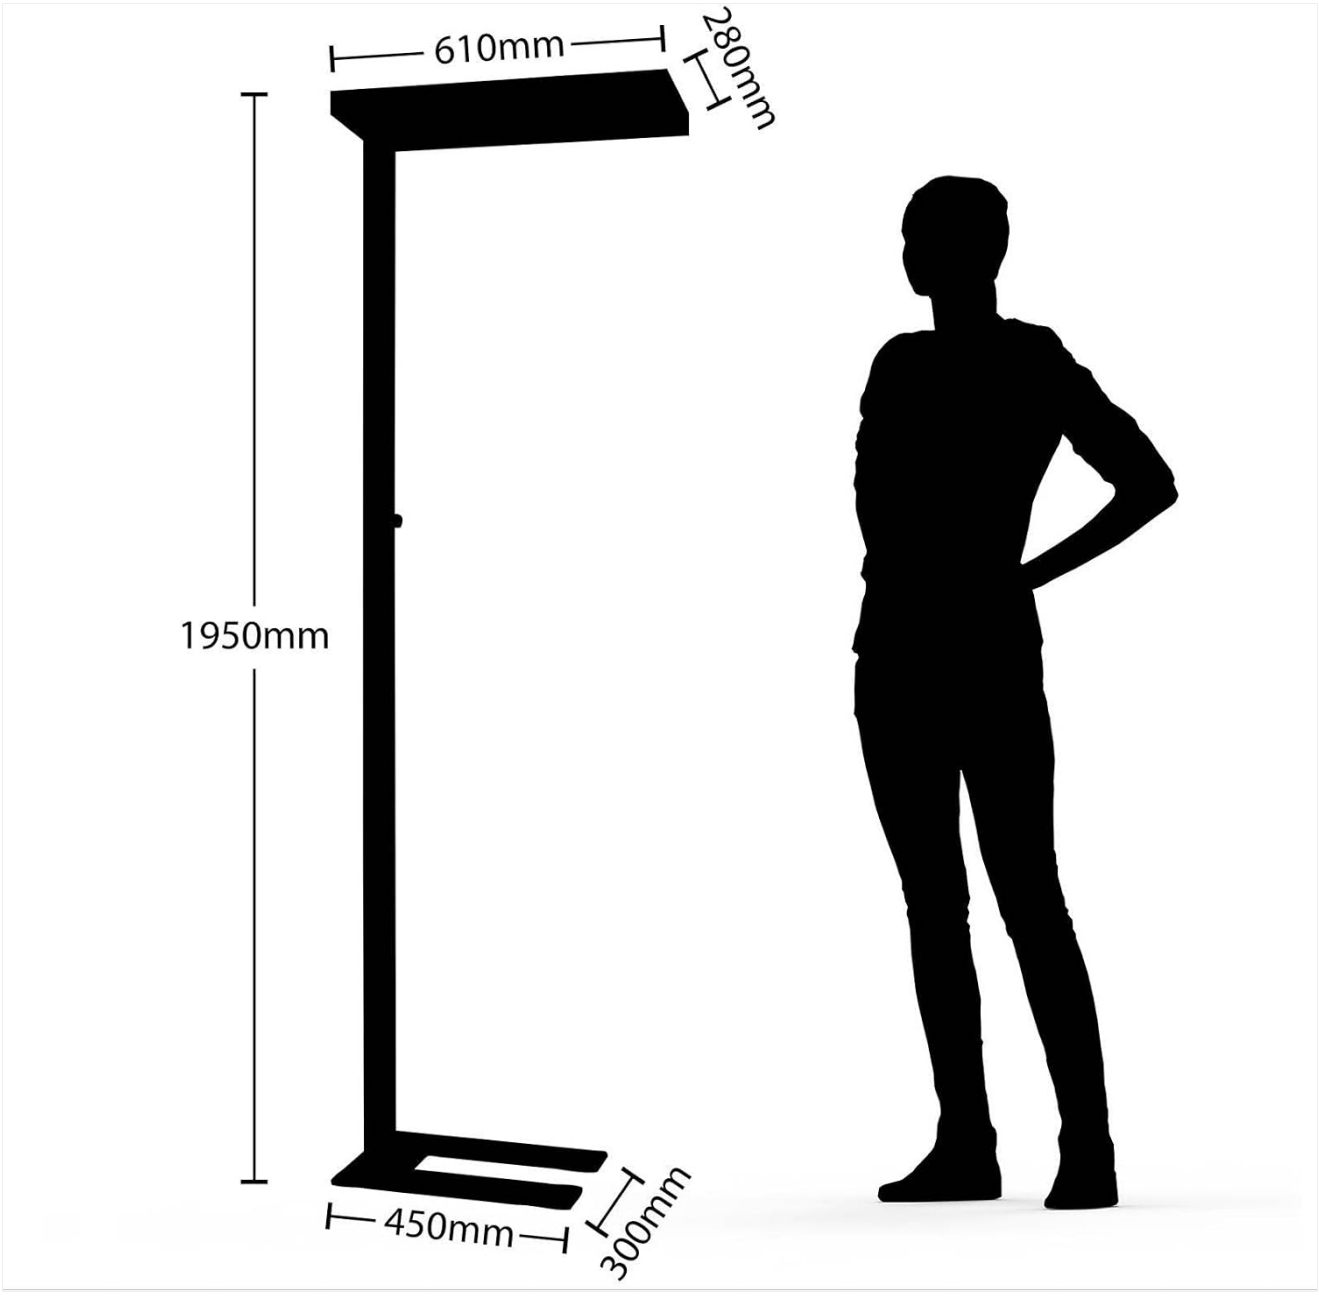

Figure 2: Product dimensions for optimal placement.

3. **Connect Power:** Insert the power plug into a grounded 230V electrical outlet.

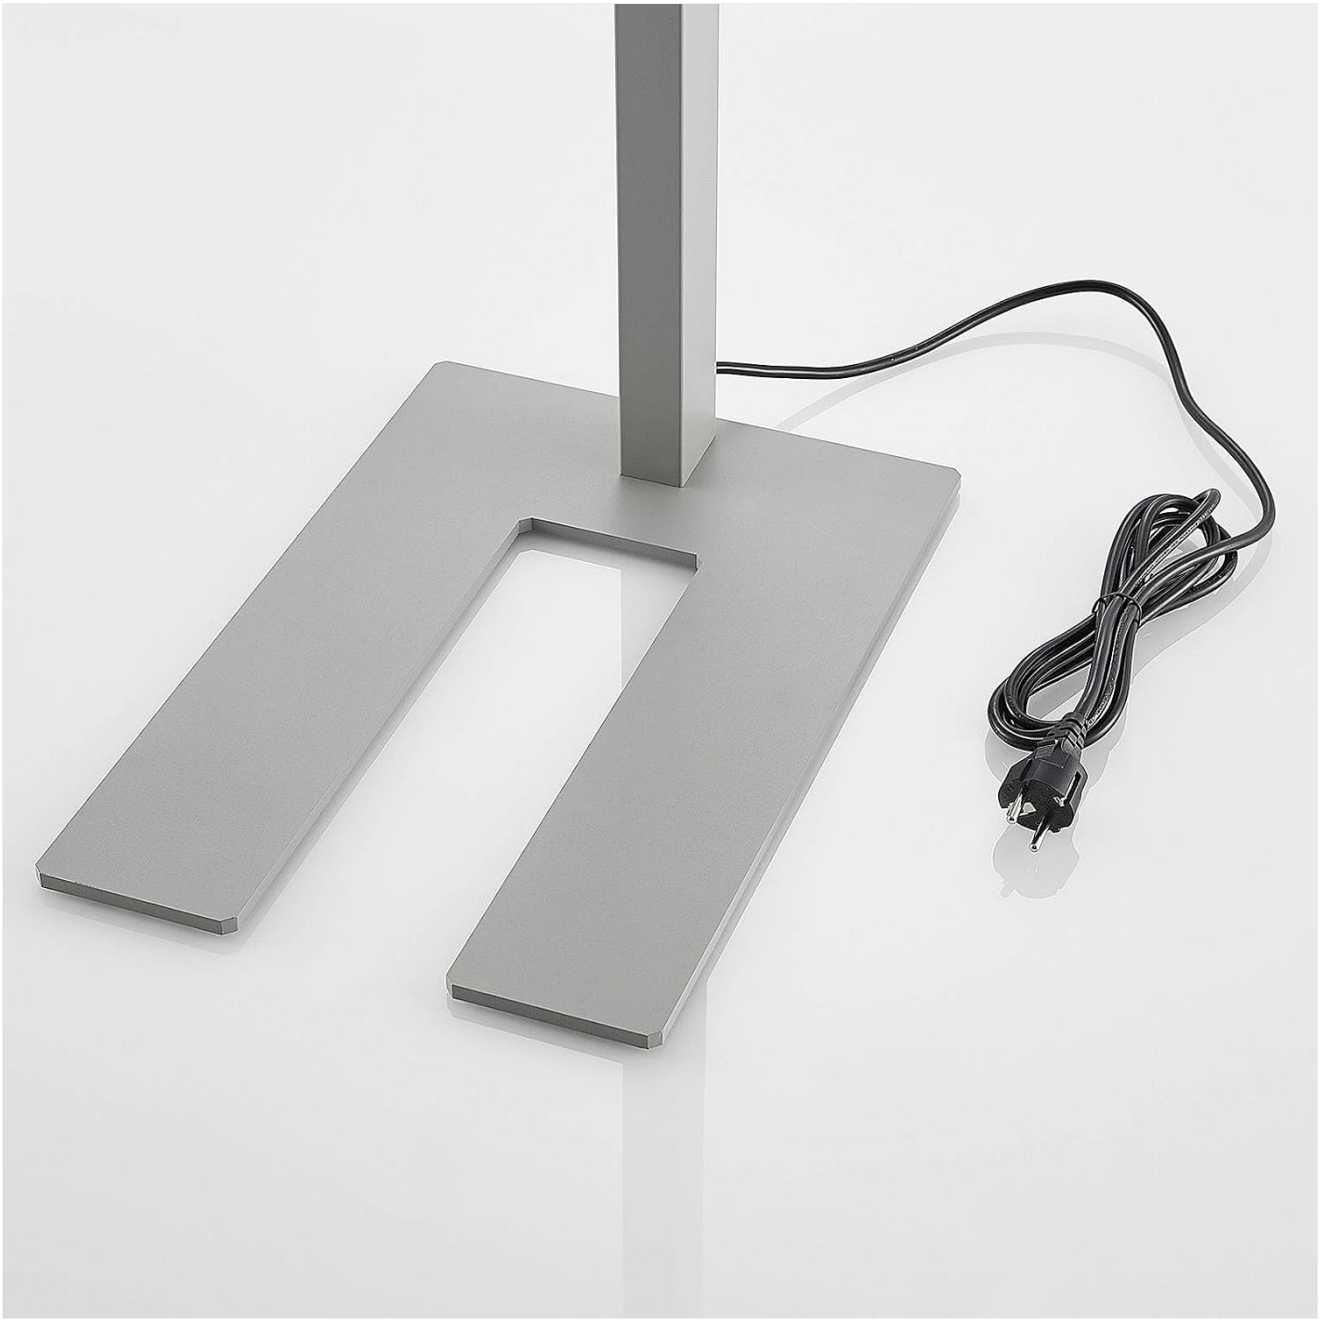

Figure 3: Lamp base and power cable connection.

4. **Initial Check:** Once connected, the lamp is ready for operation.

5. Operating Instructions

The Arcchio LED Logan Floor Lamp offers several intelligent features for customized lighting.

5.1. Manual On/Off Switch

The lamp is equipped with a manual switch for basic power control. Locate the switch on the lamp's pole to turn the light on or off.

5.2. Integrated Dimmer (0-10V)

Adjust the brightness of the lamp using the integrated rotary dimmer located on the lamp's pole. Rotate the knob clockwise to increase brightness and counter-clockwise to decrease it.

Figure 4: Adjusting the integrated dimmer.

5.3. Motion Sensor

The integrated motion sensor automatically detects presence within an 85-degree detection angle. If no movement is detected for 30 minutes, the lamp will automatically switch off to save energy. The light will reactivate upon detecting movement.

Figure 5: Lamp head with integrated sensors.

5.4. Daylight Sensor

The daylight sensor continuously adjusts the lamp's brightness based on ambient light conditions. This ensures a consistent and comfortable light level in your workspace throughout the day, optimizing energy consumption.

6. Maintenance

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe the lamp. Do not use abrasive cleaners or solvents.
- **Light Source:** The LED light source is integrated and not user-replaceable. If the LEDs fail, contact customer support.
- **Inspection:** Periodically check the power cable and plug for any signs of damage. If damage is found, discontinue use and contact customer support.

7. Troubleshooting

Problem	Possible Cause	Solution
Lamp does not turn on.	No power supply. Manual switch is off.	Check if the power plug is securely inserted and the outlet is functional. Ensure the manual switch is in the 'on' position.
Light output is too dim or too bright.	Dimmer setting. Daylight sensor adjustment.	Adjust the rotary dimmer to your desired brightness. The daylight sensor automatically adjusts brightness; ensure no obstructions are blocking the sensor.
Lamp turns off unexpectedly.	Motion sensor activated (no movement detected).	The motion sensor turns off the lamp after 30 minutes of inactivity. Movement will reactivate it.
Flickering light.	Unstable power supply. Internal fault.	Ensure the power supply is stable. If flickering persists, discontinue use and contact customer support.

If you encounter problems not listed here or if solutions do not resolve the issue, please contact Arcchio customer support.

8. Specifications

Brand	Arcchio
Model Number	9968058
Dimensions (L x W x H)	61 x 28 x 195 cm
Weight	12 kg
Material	Aluminum, Plastic
Color	Silver (RAL 9006)
Voltage	230 V
Wattage	72 W
Luminous Flux	10000 Lumen
Color Temperature	4000 Kelvin (Universal White)
Light Direction	Direct and Indirect (equal proportions)
Special Features	Motion Sensor, Daylight Sensor, Dimmable (0-10V)
Motion Sensor Detection Angle	85°
Motion Sensor Light Duration	30 minutes (after no movement)
IP Code	IP20 (Indoor use only)
UGR (Unified Glare Rating)	<17 (Ideal for computer workstations)
Energy Efficiency Class	D
