SETUP

The BAXNA organizers are designed for easy assembly. They are typically shipped in a flat-packed state to minimize packaging and storage space.

- 1. Unfold the Organizer:** Carefully remove the organizer from its packaging. It will be folded flat.
- 2. Form the Shape:** Gently push down the bottom panel of the organizer to expand it into its rectangular shape. The sides will naturally stand upright.
- 3. Secure the Base:** Ensure the bottom panel is fully extended and lies flat to provide a stable base for the organizer.

- Shelf Storage:** Use them on shelves in closets, pantries, or utility rooms to keep items neatly contained and easily accessible.
- Desk or Tabletop Use:** The organizers can also be used on a desk or tabletop to hold pens, stationery, craft supplies, or other small accessories.
- Item Placement:** Distribute items evenly within the organizer to maintain its shape and stability. Avoid overfilling to prevent damage.

MAINTENANCE

To ensure the longevity and cleanliness of your BAXNA organizers, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the organizer clean with a damp cloth. For stubborn spots, a mild soap solution can be used, followed by wiping with a clean, damp cloth.
- **Drying:** Allow the organizer to air dry completely before storing or reusing it. Do not machine wash, tumble dry, iron, or dry clean.
- **Storage:** When not in use, the organizers can be folded flat for compact storage.

TROUBLESHOOTING

While the BAXNA organizers are straightforward in design and function, here are some common considerations:

- Organizer Does Not Fit:** If the organizer does not fit in your intended space (e.g., a drawer), verify the dimensions of both the organizer and the space. Refer to the specifications section for exact measurements.
- Loss of Shape:** If the organizer appears to lose its shape, ensure it is not overfilled or subjected to excessive weight. Evenly distribute contents.
- Stains:** For persistent stains, repeat the cleaning process with a mild soap solution. Avoid harsh chemicals or abrasive cleaners.
