NUK 69918

NUK Timeless Comfy 100% Silicone Pacifier Instruction Manual

Model: 69918 | Age: 0-6 Months | Pack: 5-Count

1. INTRODUCTION

Thank you for choosing NUK Timeless Comfy Pacifiers. These pacifiers are designed with a one-piece 100% silicone construction, offering a gentle and comfortable experience for your baby. The unique shape supports healthy oral development and is suitable for infants aged 0-6 months.

2. IMPORTANT SAFETY INFORMATION

WARNING:

- Inspect the pacifier carefully before each use. Discard the pacifier immediately if any signs of damage, weakness, or wear are observed.
- Do not attach the pacifier to cords, ribbons, or straps, as this presents a strangulation hazard.
- Never dip the nipple in sweet substances (e.g., honey, jam), as this can lead to tooth decay.
- Do not leave a pacifier in direct sunlight or near a heat source, or leave it in disinfectant for longer than recommended, as this may weaken the nipple.
- Always use this product under adult supervision.

3. PRODUCT FEATURES

- **100% Medical-Grade Silicone:** Ensures safety and durability.
- **One-Piece Design:** Prevents dirt and germs from getting trapped in crevices, making it easy to clean.
- **Orthodontic Nipple Shape:** Developed by pediatric dentists and doctors to naturally fit baby's palate and promote healthy oral development.
- **Breast-Like Nipple:** Designed to facilitate an easy transition from breast to pacifier and back.
- **Heart-Shaped Shield:** Contours gently to baby's face, fitting perfectly under the nose for easier breathing and to prevent irritation.
- **BPA-Free:** Safe for your baby.
- **Dishwasher-Safe:** (Top rack only) for convenient cleaning.

4. SETUP AND FIRST USE

1. Before first use, sterilize the pacifier by boiling it in water for 5 minutes.
2. Allow to cool completely before giving to baby.
3. Squeeze any trapped water from the nipple.

5. OPERATING INSTRUCTIONS

Offer the pacifier to your baby when they show signs of needing comfort or soothing. Ensure the pacifier is correctly positioned in their mouth.

6. MAINTENANCE AND CARE

- **Daily Cleaning:** Wash with hot water and mild detergent. Rinse thoroughly.
- **Sterilization:** Regularly sterilize pacifiers. This can be done by boiling in water, using a steam sterilizer, or placing them on the top rack of a dishwasher.
- **Inspection:** Always inspect the pacifier before each use. Pull the nipple in all directions to check for tears or damage. Discard at the first sign of damage or weakness.
- **Replacement:** For hygiene and safety, replace pacifiers after 1-2 months of use.
- **Storage:** Store pacifiers in a dry, covered container when not in use.

7. TROUBLESHOOTING

- **Baby rejects pacifier:** Try offering the pacifier at different times or when the baby is calm and relaxed. Ensure the pacifier is clean and free from any odors.
- **Pacifier attracts lint/hair:** Due to the silicone material, pacifiers may attract lint or hair. Regular washing and rinsing will help keep them clean.
- **Water trapped in nipple:** If water gets inside the nipple after washing, squeeze the nipple gently to expel the water.

8. SPECIFICATIONS

Feature	Detail
